RODERICK HARLEY

The Appropriation of a Scattered Heritage Springer Nature
This book centers around mid-level charismatic pastors in Ghana. Karen Lauterbach analyzes pastorship as a pathway to becoming small “big men” and achieving status, wealth, and power in the country. The volume investigates both the social processes of becoming a pastor and the spiritual dimensions of how power and wealth are conceptualized, achieved, and legitimized in the particular context of Asante in Ghana. Lauterbach integrates her analysis of charismatic Christianity with a historically informed examination of social mobility—how people in subordinate positions seek to join up with power. She explores how the ideas and experiences surrounding the achievement of wealth and performance of power are shaped and re-shaped. In this way, the book historicizes current expressions of charismatic Christianity in Ghana while also bringing the role of religion and belief to bear on our understanding of wealth and power as they function more broadly in African societies.

The second book in a very popular series for children, God's Generals for Kids:Smith Wigglesworth by Roberts Liardon and Olly Goldenberg takes a look at the life of one of the pioneers in

healing evangelism:Smith Wigglesworth. This book provides children with his life story and some of his teachings, which both thunder and whisper within the heart of a child. Children will learn that Mr. Wigglesworth was completely sold out to Jesus. When he preached, the deaf heard, the blind saw, the lame walked, and people were saved. Wigglesworth wrote, "Today I am actually living in the Acts of the Apostles' time, I am speaking with new tongues, the holy fire of God's presence fills me till my pen moves to the glory of God, and my whole being is filled with the presence of the Holy Ghost. This thrilling book will help children to know God better. Though Smith Wigglesworth was once poor, unable to read, and a plumber by trade, God moved tremendously in him and through him. When he learned to tread, he chose to read only the Bible. Through faith he stepped out to minister to untold thousands. This biographical and teaching book will inspire children to become more like Christ as Smith Wigglesworth was.

An Apostle of Faith BookRix

As the epicenter of Christianity has shifted towards Africa in recent decades, Pentecostalism has emerged as a particularly vibrant presence on the continent. This collection of essays offers a groundbreaking study of the complex links between politics and African Pentecostalism. Situated at the intersection between the political, the postcolonial, and global neoliberal capitalism, contributors examine the roots of the Pentecostal movement’s extraordinary growth; how Pentecostalism intervenes in key social and political issues, such as citizenship, party politics, development challenges, and identity; and conversely, how politics in Africa modulate the Pentecostal movement. Pentecostalism and Politics in Africa offers a wide-ranging picture of a central dimension of postcolonial African life, opening up new directions for future research.

With Christian revivals (including Evangelicals in the White House), Islamic radicalism and the revitalisation of traditional religions it is clear that the world is not heading towards a

community of secular states. Nowhere are religious thought and political practice more closely intertwined than in Africa. African migrants in Europe and America who send home money to build churches and mosques, African politicians who consult diviners, guerrilla fighters who believe that amulets can protect them from bullets, and ordinary people who seek ritual healing: all of these are applying religious ideas to everyday problems of existence, at every level of society. Far from falling off the map of the world, Africa is today a leading centre of Christianity and a growing field of Islamic activism, while African traditional religions are gaining converts in the West. One cannot understand the politics of the present without taking religious thought seriously. Stories about witches, miracles, or people returning from the dead incite political action. In Africa religious belief has a huge impact on politics, from the top of society to the bottom. Religious ideas show what people actually think about the world and how to deal with it. Ellis and Ter Haar maintain that the specific content of religious thought has to be mastered if we are to grasp the political significance of religion in Africa today, but their book also informs our understanding of the relationship between religion and political practice in general.

Religion, History, and Politics in Nigeria is concerned with the problematic nature of religion and politics in Nigerian history. The book provides a lively and straightforward treatment of the relationship among religion, politics, and history in Nigeria, and how it affects public life today. By adopting various cultural, historical, political, and sociological perspectives, the text's contributors provide an excellent introduction to the volatile mix of religion and politics in Nigerian history, as well as a range of strategic choices open to religious adherents. The complexity of the relationship among religion, history, and politics is organized around four themes: indigenous values and the influence of Islam and Christianity, colonialism and religious transformation, the religious landscape of the post-colonial period, and the rise of evangelism and fundamentalism. The volume provides an insightful guide to contemporary history, contemporary religion, and contemporary politics, enabling the reader to reach informed and balanced judgments about the role in religion in Nigerian history and politics. This opens the door for serious examination and debate, and will be excellent for use by the general reader and in political science, history, and religion courses.

Paul tells his personal story as a Pastor’s son and those of several

Pastors’children. However, this book is not only for Pastors’ Children. It is for anyone and everyone who desires to learn, un-learn, re-learn, earn and stand tall in the challenging race of life. "Paul is a dynamic and charismatic man. He brings with him a strong presence and a lot of energy. He teaches and he learns. The children of pastors don't always turn out as we might expect. Often, they rebel against their parents. Paul is one of those who didn't rebel. He has many interesting stories to tell in this book!" - Dr Jonathan Joseph, School of Politics and International Relations, University of Kent, Canterbury, UK.

THE GREAT POWER OF FIRE OF GOD Springer

Goliath of Gath was a powerful enemy who defied the Israeli army of King Saul and, by extension, the God of Israel. No Israelite could withstand Goliath, but when David came on the scene, the story changed. As it was then, so it is today. There are Goliath forces that are seeking to frustrate the glorious destinies of individuals, families, communities, and even nations. The God of David has not changed; what he did through David he is still doing today. Goliath killers are being raised by the God of heaven to bring down the Goliaths that stand on their way just like David. It is amazing that upon all the boastings of Goliath, a young man brought him down with a stone and a sling. God directed David's stone into Goliath's soft spot, his forehead. Your Goliath has a soft spot, and God knows how to target that spot with your sling and smooth stone. That Goliath in your life must die; that enemy has to be brought down by the power of the God of heaven. That stubborn challenge staring you in the face must come down. This book is a Holy Spirit""inspired spiritual-war material that details the killing of Goliath by David and how you and I can rise up today and also kill our own "Goliaths" by the power of God. We cannot allow the forces of Goliath any more space, no more room for them, no more chance for them, enough is enough, now is the time to get them down, and God wants to use us like he used David. Check out this book and see how you can be a Goliath killer.

Isaiah 66:15 - ''For behold, the Lord will come with fire, and with His chariots like a whirlwind, to render His anger with fury, and His rebuke with flames of fire.'' The term "fire of God" is often used symbolically in the Bible to portray the presence of God, the power of God, His judgment, His purifying work and, as His emblem of the anointing. Fire is a strange and fearful weapon. No power can come against the fire of God and not get roasted and burn to ashes. The dragon can survive anywhere but cannot survive in the fire. When your life carries the fire of God you will be too hot for the devil, to handle. If you notice backwardness, manipulation, prayerlessness, oppression in the dream, it is an indication of the fact that your fire has gone out. You need to come to the presence of God for fresh fire. The fire of God will help you preserves your life, career, business, and ministry. It will also consume your enemy.

Worlds of Power ABC-CLIO

This book examines the contributions, both intentional and unintentional, of Nigerian Pentecostal churches and NGOs to development, studying their development practices broadly in relation to the intersecting spheres of politics, economics, health, education, human rights, and peacebuilding. In sub-Saharan Africa, Pentecostalism is fast becoming the dominant expression

of Christianity, but while the growth and civic engagement of these churches has been well documented, their role in development has received less attention. The Nigerian Pentecostal landscape is one of the most vibrant in Africa. Churches are increasingly assuming more prominent roles as they seek to address the social and moral ills of contemporary society, often in fierce competition with Islam for dominance in Nigerian public space. Some scholars suggest that the combination of an enchanted worldview, an emphasis on miracles and prosperity teaching, and a preoccupation with evangelism discourages effective political engagement and militates against development. However, Nigerian Pentecostalism and Development argues that there is an emerging movement within contemporary Nigerian Pentecostalism which is becoming increasingly active in development practices. This book goes on to explore the increasingly transnational approach that churches take, often seeking to build multicultural congregations around the globe, for instance in Britain and the United States. Nigerian Pentecostalism and Development: Spirit, Power, and Transformation will be of considerable interest to scholars and students concerned with the intersection between religion and development, and to development practitioners and policy-makers working in the region.

This study examines the role of Christianity in Liberia under the corrupt regime of Samuel K. Doe (1980-1990). Paul Gifford shows that, in general, Liberian Christianity--far from being a force for justice and human advancement--diverted attention from the cause of Liberia's ills, left change to God's miraculous intervention, encouraged obedience and acceptance of the status quo, and thus served to entrench Doe's power. This Christianity, devised in and controlled from the United States, thus furthered regional American economic and political objectives, which were designed to support Doe's rule.

This text is a collection of writings on assigned topics by some scholars and lecturers in the Faculty of Law at Benson Idahosa University and those invited from outside the university. The idea to write a text for use in the study of legal methods for law students was borne out of the desire to present a range of updated material in this area of study. The focus of this text is Nigeria. The book is written in simple, easy-to-understand language, and meant essentially for law students in the first year of the five year course in Law, as structured by the National Universities Commission (NUC). Nevertheless, persons who are in need of information or education on different aspects of the Nigerian legal process will also find aspects of the text useful. The contributors come from diverse backgrounds and experiences, which is reflected in their styles of presentation. However, each has endeavoured to present the assigned topic in such a form as to enhance comprehension by the primary beneficiaries. The inclusion of chapters on advocacy and mooting skills, as well as examination skills and strategies, makes this text unique, and allows it to offer more detailed analysis than existing texts in Nigeria provide.

In 1974 Jim and Tammy Bakker launched their television show,

the PTL Club, from a former furniture store in Charlotte, N.C. with half a dozen friends. By 1987 they stood at the center of a ministry empire that included their own satellite network, a 2300-acre theme park visited by six million people a year, and millions of adoring fans. The Bakkers led a life of conspicuous consumption perfectly aligned with the prosperity gospel they preached. They bought vacation homes, traveled first-class with an entourage and proclaimed that God wanted everyone to be healthy and wealthy. When it all fell apart, after revelations of a sex scandal and massive financial mismanagement, all of America watched more than two years of federal investigation and trial as Jim was eventually convicted on 24 counts of fraud and conspiracy. He would go on to serve five years in federal prison. PTL is more than just the spectacular story of the rise and fall of the Bakkers, John Wigger traces their lives from humble beginnings to wealth, fame, and eventual disgrace. At its core, PTL is the story of a group of people committed to religious innovation, who pushed the boundaries of evangelical religion's engagement with American culture. Drawing on trial transcripts, videotapes, newspaper articles, and interviews with key insiders, dissidents, and lawyers, Wigger reveals the power of religion to redirect American culture. This is the story of a grand vision gone wrong, of the power of big religion in American life and its limits.
