'Masterly ... awesome reading ... an outstanding biography' Max Hastings, Sunday Times The definitive biography of the greatest French statesman of modern times In six weeks in the early summer of 1940, France was over-run by German troops and quickly surrendered. The French government of Marshal Pétain sued for peace and signed an armistice. One little-known junior French general, refusing to accept defeat, made his way to England. On 18 June he spoke to his compatriots over the BBC, urging them to rally to him in London. 'Whatever happens, the flame of French resistance must not be extinguished and will not be extinguished.' At that moment, Charles de Gaulle entered into history. For the rest of the war, de Gaulle frequently bit the hand that fed him. He insisted on being treated as the true embodiment of France, and quarrelled violently with Churchill and Roosevelt. He was prickly, stubborn, aloof and self-contained. But through sheer force of personality and bloody-mindedness he managed to have France recognised as one of the victorious Allies, occupying its own zone in defeated Germany. For ten years after 1958 he was President of France's Fifth Republic, which he created and which endures to this day. His pursuit of 'a certain idea of France' challenged American hegemony, took France out of NATO and twice vetoed British entry into the European Community. His controversial decolonization of Algeria brought France to the brink of civil war and provoked several assassination attempts. Julian Jackson's magnificent biography reveals this the life of this titanic figure as never before. It draws on a vast range of published and unpublished memoirs and documents - including the recently opened de Gaulle archives - to show how de Gaulle achieved so much during the War when his

resources were so astonishingly few, and how, as President, he put a medium-rank power at the centre of world affairs. No previous biography has depicted his paradoxes so vividly. Much of French politics since his death has been about his legacy, and he remains by far the greatest French leader since Napoleon.

Writing a new page in the surprisingly long history of literary deceit, *Impostors* examines a series of literary hoaxes, deceptions that involved flagrant acts of cultural appropriation. This book looks at authors who posed as people they were not, in order to claim a different ethnic, class, or other identity. These writers were, in other words, literary usurpers and appropriators who trafficked in what Christopher L. Miller terms the "intercultural hoax." In the United States, such hoaxes are familiar. Forrest Carter's *The Education of Little Tree* and JT LeRoy's *Sarah* are two infamous examples. Miller's contribution is to study hoaxes beyond our borders, employing a comparative framework and bringing French and African identity hoaxes into dialogue with some of their better-known American counterparts. In France, multiculturalism is generally eschewed in favor of universalism, and there should thus be no identities (in the American sense) to steal. However, as Miller demonstrates, this too is a ruse: French universalism can only go so far and do so

much. There is plenty of otherness to appropriate. This French and Francophone tradition of imposture has never received the study it deserves. Taking a novel approach to this understudied tradition, *Impostors* examines hoaxes in both countries, finding similar practices of deception and questions of harm.

Airman, war hero, immigrant, law student, diplomat, novelist and celebrity spouse, Romain Gary had several lives thrust upon him by the history of the twentieth century, but he also aspired to lead many more. He wrote more than two dozen books and a score of short stories under several different names in two languages, English and French, neither of which was his mother tongue. Gary had a gift for narrative that endeared him to ordinary readers, but won him little respect among critics far more intellectual than he could ever be. His varied and entertaining writing career tells a different story about the making of modern literary culture from the one we are accustomed to hearing. Born Roman Kacew in Vilna (now Lithuania) in 1914 and raised by only his mother after his father left them, Gary rose to become French Consul General in Los Angeles and the only man ever to win the Goncourt Prize twice. This biography follows the many threads that lead from Gary's wartime adventures and early literary career to his years in Hollywood and his marriage to the actress Jean Seberg. It illuminates his works in all their incarnations, and culminates in

the tale of his most brilliant deception: the fabrication of a complex identity for his most successful nom de plume, Émile Ajar. In his new portrait of Gary, David Bellos brings biographical research together with literary and cultural analysis to make sense of the many lives of Romain Gary - a hero fit for our times, as well as his own.

Et c'est ainsi que Romain Gary explique le titre qu'il donne à son autobiographie, *La Promesse de l'aube*. Fils unique d'une mère qui rêve sa progéniture en génie - un futur Victor Hugo, un aviateur pionnier comme Guynemer, un don Juan... -, il sera à la hauteur de beaucoup de ses attentes même quand elle ne sera plus là pour le constater... Cette autobiographie, un peu romancée, est poignante et également drôle, servie par un style brillant. On tourne les pages sans même s'en apercevoir.

Only in recent years have historians rediscovered the critical role that French colonial troops played in the twentieth century's two world wars. What is perhaps still deeply under-appreciated is how much General de Gaulle's Free France drew its strength from

1940 to the middle of 1943 from fighting men, resources, and operations in French Equatorial Africa rather than London. Territorially, Free France spanned from the Libyan border with Chad down to the Congo River, and to the scattered tiny French territories of the South Pacific and India. Eric T. Jennings tells the story of an improbable French military and institutional rebirth through Central Africa and gives a unique, deep look at the key role Free French Africa played during World War II to help the Allied cause.

The philosophy of language is central to the concerns of those working across semantics, pragmatics and cognition, as well as the philosophy of mind and ideas. Bringing together an international team of leading scholars, this handbook provides a comprehensive guide to contemporary investigations into the relationship between language, philosophy, and linguistics. Chapters are grouped into thematic areas and cover a wide range of topics, from key philosophical notions, such as meaning, truth, reference, names and propositions, to characteristics of the most recent research in the field, including logicity of language, vagueness in natural language, value judgments, slurs, deception, proximization in discourse, argumentation theory and linguistic relativity. It also includes chapters that explore selected linguistic theories and their philosophical implications, providing a much-needed interdisciplinary perspective. Showcasing the cutting-edge in research in the field, this book is essential reading for philosophers interested in language and linguistics, and linguists interested in philosophical analyses.

Both a personal memoir and a French novelist's encounter with American reality, *White Dog* is an unforgettable portrait of racism and hypocrisy. Set in the tumultuous Los Angeles of 1968, Romain Gary's story begins when a German shepherd strays into his life: "He was watching me, his head cocked to one side, with that unbearable intensity of dogs in the pound waiting for a rescuer." A lost police canine, this "white dog" is programmed to respond violently to the sight of a black man and Gary's attempts

to deprogram it—like his attempts to protect his wife, the actress Jean Seberg; like her endeavors to help black activists; like his need to rescue himself from the "predicament of being trapped, lock, stock and barrel within a human skin"—lead from crisis to grief. Using the re-education of this adopted pet as a metaphor for the need to quash American racism, Gary develops a domestic crisis into a full-scale social allegory.

A classic of modern French literature, the thrilling real-life story of the military hero, ambassador, ladies man, writer, and loving son I grew up longing for the day when I could tear down the veil of darkness and absurdity concealing the true face of the universe and discover at last a smile of kindness and wisdom; I grew up in the certitude that one day I should help my fellow men to wrest the world from our enemies and give back the earth to those who ennoble it with their courage and warm it with their love. *Promise at Dawn* begins as the story of a mother's sacrifice: alone and poor, she fights fiercely to give her son the very best. Romain Gary chronicles his childhood in Russia, Poland, and on the

French Riviera; he recounts his adventurous life as a young man fighting for France in World War II. But above all he tells the story of the love for his mother that was his very life—their secret and private planet, their wonderland “born out of a mother’s murmur into a child’s ear, a promise whispered at dawn of future triumphs and greatness, of justice and love.”
