Routledge

Brian Scaddan's guides to the IEE Wiring Regulations have established themselves as an industry standard, so this new edition will be welcomed by anyone who wants to

know more about the new issue of the Wiring Regs published on June 1st 2001, and mandatory from 1st January 2001. This book is essential reading for anyone with practical or management responsibility for testing and inspecting electrical installations. It is designed specifically to meet the requirements of the City & Guilds 2391 course, of which Brian

Scaddan is the Chief Examiner. The 2391 is the next step for anyone with a 2380 qualification, advancing technical knowledge without the supervisory emphasis of the 2400. The text is supported by a sample test paper, complete with model answers and mark scheme. Brian Scaddan is a Leading Scheme Assessor, Examiner and Honorary Member of City

and Guilds. He has 22 years' experience in Further Education, and is now Director of Brian Scaddan Associates, Engineering Training Consultants. IEE Wiring Regulations BS7261: 2001, Requirements for Electrical Installations Changes and additions include: · Updated section on scope and fundamental principles · Protection against overvoltages due to atmospheric conditions or switching · Precautions where particular fire risks exist · Update on

construction site installations · Locations containing a bath or shower · Extended information on circuit breakers and RCBOs · Introduction of continuous monitoring and maintenance of electrical installations

latest updates to the legal requirements and wiring regulations. It answers all of your questions on the basics of inspection and testing, using clear and easy to remember language, along with sample questions and scenarios as they will be encountered in the exams. Christopher Kitcher tells you what tests are needed and describes them in a step-by-step manner with the help of colour photographs and the accompanying website. All of the theory required

for passing the inspecting and testing element of all electrical installation qualifications along with the AM2, City & Guilds 2391 certificate and the EAL 600/4338/6 and 600/4340/4 qualifications is contained within this easy-to-follow guide – along with some top tips to help you pass the exam itself. With a strong focus on the practical element of inspection and testing for NVQs or apprenticeships, this is also an ideal reference tool for experienced electricians and those

working in allied industries on domestic and industrial installations. www.routledge.com/cw/kitcher provides a large bank of helpful video demonstrations, multiple choice questions to test your learning, and further supporting materials.

A guide to passing the City & Guilds 2394/2395 exams
Electrical Regulations Exam Success: IEE Wiring Regulations 2391-10 is a new publication created by City & Guilds, in collaboration with the

Institution of Engineering and Technology. Organized for easy use, it contains two full sample exam papers, together with answers and comments, designed to reinforce knowledge and understanding of the subject and to prepare candidates for the examination. City & Guilds is the UK's leading provider of vocational qualifications, offering over 500 awards across a wide range of industries, and progressing from entry level to the highest levels of professional

achievement. With over 8500 centres in 100 countries, City & Guilds is recognized by employers worldwide for providing qualifications that offer proof of the skills they need to get the job done. *A Guide to Passing the City &... Guilds 2391 Exams* Routledge Brian Scaddan's *Electrical Installation Work* explains in detail how and why electrical installations are designed, installed and tested. You will be guided in a logical, topic by topic progression through all the areas required to

complete the City and Guilds 2357 Diploma in Electrotechnical Technology. Rather than following the order of the syllabus, this approach will make it easy to quickly find and learn all you need to know about individual topics and will make it an invaluable resource after you've completed your course. With a wealth of colour pictures, clear layout, and numerous diagrams and figures providing visual illustration, mastering difficult concepts will be a breeze. This new edition is

closely mapped to the new City and Guilds 2357 Diploma and includes a mapping grid to its learning outcomes. It is also fully aligned to the 17th Edition Wiring Regulations. Electrical Installation Work is an indispensable resource for electrical trainees of all ability levels, both during their training and once qualified. Brian Scaddan, I Eng, MIET, is a consultant for and an Honorary Member of City and Guilds. He has over 35 years' experience in Further Education and

training. He is Director of Brian Scaddan Associates Ltd, an approved City and Guilds and NICEIC training centre offering courses on all aspects of Electrical Installation Contracting including the City and Guilds 2382, 2391, 2392, 2377 series and NICEIC DISQ courses. He is also a leading author of books on electrical installation.
