SAP Certified

Application Associate -

Crystal Reports The

questions in this book

are similar to the ones

asked in the actual

Test. How should we

know? We know, because although we have been working as SAP Consultants for many years, We have recently certified with the latest version of the Associate Certification test. Before you start here are some Key features of the Associate Certification Exam. This certification test verifies the knowledge in the area of the SAP Crystal Reports for the consultant profile of an Application Associate. - This certificate builds on the basic knowledge gained by a consultant and preferably refined by practical experience within a project team and the consultant can implement this knowledge of the specialist areas practically in projects. - The exam is Computer based and you have

three Hours to answer 80 Questions. - The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. - Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. -For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. - For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. - You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system). Clearing the

Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP World open for you to explore. Helping you with the first step on you ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other material in the market for the SAP Certified Application Associate - Crystal Reports. - The authors have themselves cleared the exam. - All questions are multiple choice format, similar to the questions you will get in the actual exam. - Over 150

authentic questions, testing the exact same concepts that will be tested in Your exam! Crystal Reports 2011 for Developers McGraw-Hill Education Fourth Edition - The Beginner's Guide to Crystal Reports 2016 was written as a quick start guide for beginners, and not intended as a comprehensive reference manual. The beginner-level skills of Crystal Reports is easy to learn and can be achieved within a few hours of hands-on learning. With an established data source connection, learning and using Crystal Reports 2016 is as easy as using Microsoft Office. Learn how to setup a data connection, examine a data structure, create a new report, add data

fields, format a report, add pictures, charts and create formulas. See how to filter data, setup user parameters and create a summary report with drill-down features. This book demystifies the complexity of learning Crystal Reports and presents it as a user-friendly application. This book is currently used in corporate training focused primarily for non-programmers how to extract system data and create basic reports. This book is intended to provide the reader the basic skills at creating simple reports and the confidence to learn additional skills independently. This book is NOT a reference manual. *Beginner's Guide to Crystal Reports 2013*

Createspace  
Independent Publishing Platform  
If you have to generate reports with Crystal Reports in an SAP NetWeaver BW environment, this is the book you need. You'll learn how to quickly create effective reports that get the right information to the right people. This book covers the primary features and functions of Crystal Reports, while paying special attention to integrating with other BusinessObjects and SAP applications and data sources. The SAP BI Toolset Learn about all the reporting and analytics tools that comprise the SAP BI toolset, including Crystal Reports, Xcelsius, and Web Intelligence. SAP BW as a Crystal Reports Data

Source Explore how SAP NetWeaver BW can function as a data source for Crystal Reports. Flexible Formatting Select from a variety of possible report layouts and learn how to design more flexible reports that provide feedback to the end user.

Filtering Discover the two tools that allow users to filter data in SAP NetWeaver BW reports -- the BW variable and the Crystal Reports parameter. Sub-Reports Find out how to use sub-reports to retrieve data from different data sources. Highlights \* SAP BI Toolset \* Relational Databases \* InfoProviders \* BW Queries \* Crystal Reports Data Sources \* Key Figures \* Aggregates \* Crystal

Reports Templates \* Filtering Data \* BW Variables \* Highlighting Expert \* Publishing Reports

Crystal Reports 2008: The Complete Reference SAP PRESS The definitive reference for building actionable business intelligence—completely revised for SAP BusinessObjects BI 4.0. Unleash the full potential of business intelligence with fact-based decisions, aligned to business goals, using reports and dashboards that lead from insight to action. SAP BusinessObjects BI 4.0: The Complete Reference offers completely updated coverage of the latest BI platform. Find out how to work with the new Information Design Tool to create

universes that access multiple data sources and SAP BW. See how to translate complex business questions into highly efficient Web Intelligence queries and publish your results to the BI Launchpad. Learn how to create dashboards from data sourced through a universe or spreadsheet. The most important concepts for universe designers, report and dashboard authors, and business analysts are fully explained and illustrated by screenshots, diagrams, and step-by-step instructions. Establish and evolve BI goals. Maximize your BI investments by offering the right module to the right user. Create robust universes with the Information Design

Tool, leveraging multiple data sources, derived tables, aggregate awareness, and parameters. Develop a security plan that is scalable and flexible. Design Web Intelligence reports from basic to advanced. Create sophisticated calculations and advanced formatting to highlight critical business trends. Build powerful dashboards to embed in PowerPoint or the BI Launchpad. Use Explorer to visually navigate large data sets and uncover patterns.

Work smarter with SAP  
 Crystal Reports! Have  
 you ever spent hours  
 on a report only to  
 discover that you could  
 have saved time with a  
 simple tip? Here you  
 go: SAP PRESS equips  
 you with "100 Things"  
 that unlock the secrets  
 of reporting with SAP  
 Crystal Reports. With  
 this book, users of all  
 levels will: • Save  
 time With the shortcuts  
 and workarounds  
 provided, you will learn  
 how to complete your  
 daily SAP Crystal  
 Reports tasks faster  
 and more elegantly. •  
 Learn quickly Full of  
 screenshots and  
 instructions, this book  
 will help you pick up  
 new tips and tricks in  
 no time, such as  
 effective formatting  
 options or performance  
 boosters. • Develop  
 new skills You'll  
 discover new ways of

doing your work and find yourself saying, "I wish I'd known how to do this a long time ago!" Tip #75 You can find and delete stubborn parameters in a report! When creating reports that have parameters, it's easy to lose track of everywhere that they are used. As such, when it comes time to delete a specific parameter, you may struggle to find all the places it's referenced. With this tip, you'll learn how to effectively locate and delete these stubborn parameters. Find out more on page 250!

reports from a variety of data sources.

### **SAP BusinessObjects Web Intelligence**

John Wiley & Sons

Become an expert on SAP BusinessObjects Advanced Analysis for Microsoft Office (formerly known as Pioneer) and be the go-to person when it comes to installing, deploying, and using this software. Explore how Advanced Analysis greatly reduces the need for specialized design work, but allows users to make simple design and UI changes with ease, elegant visualization control, and personalization features. Additionally, this book provides targeted guidance on installation, deployment, and data connectivity. The author helps you familiarize yourself

with both basic and advanced usage scenarios as you learn to customize the software to benefit your business the most. This unique book also delivers a side-by-side comparison of Advanced Analysis Office with SAP BEx Analyzer, which will prove to be invaluable as Advanced Analysis is positioned to replace the BEx tools. An additional section outlines the main topics in the SAP BI roadmap for the Advanced Analysis Office version and the Web version, and also touches upon migration. Whether you are a consultant, IT manager, business analyst, or a key user, you will find this book to be an indispensable companion in your daily work with the

software.  
*SAP BusinessObjects Reporting Cookbook*  
Course Technology Ptr  
This best-seller has been fully updated for Crystal Reports XI (extreme insight) -- the first jointly developed release of this leading report writing and analysis software since the acquisition of Crystal Decisions by Business Objects. Readers will learn to create visually appealing reports that communicate content effectively using helpful features such as charts, complex formulas, custom functions, sorting and grouping, Business Views, and more. Publishing and viewing reports on the Web is also explained in detail. NEW coverage includes: All the new user interface

elements; New Dynamic/Cascading Parameter Fields; and, Using Crystal Reports with Business Objects Enterprise XI.  
SAP Crystal Reports für SAP Business One SAP PRESS  
Create presentation-quality reports and complex, interactive analysis documents both on and off the Web with help from this thorough resource. Learn to use this powerful reporting tool to develop and design reports, make maps, tables, and charts, and much more. Produce visually appealing reports quickly and effectively, extract and present data from SQL databases, download ready-to-use sample report templates. Get the information, advice, and tools you'll need to conquer the

learning curve and produce winning reports and report-based applications.

PRESS

SAP Query Reporting is everything an SAP user needs to know to create your own reports in SAP using Query tools, no programming required! Designed as a hands-on learning aid, you will be able to follow along and perform each new skill learned on your own SAP system. The book's tutorial style, step-by-step instruction will teach you everything you need to know to use the SAP Query tools, including its configuration, advanced usage, and integration to Microsoft. Additionally the book gives best

business practice recommendations for the technology and internal business use of the tools. Learn to: Understand query security, table reads, and table joins Perform basic and advanced calculations Incorporate pictures and graphics into reports Configure shortcuts and tran codes, schedule jobs and email PDFs Utilize SAP Reporting with Microsoft Office applications *First Steps in Crystal Reports for Business Users* Espresso Tutorials GmbH The authorized guide to the latest edition of the #1 business intelligence software product - Crystal Reports. More than 16 million licenses of Crystal Reports have been shipped to date.

This book is a reference designed to provide hands-on guidance for the latest release of the product suite. The latest version of Crystal Reports and the Business Objects enterprise reporting suite delivers vast product enhancements and a tighter integration that will drive upgrades from licensees. Brand new features (e.g. Dynamic and Cascading Parameter Generation) will also appeal to new audiences. Over 1 million new Business Intelligence licensees will be migrating to the Crystal Enterprise Reporting platform, as this is the first release of the software with the existing Business Objects (BO) products being integrated into the Crystal

infrastructure. As Business Objects insiders, the authors bring unique and valuable real-world perspectives on implementations and uses of the Crystal Reports product. The book also includes content, tutorials and samples for reporting within the Microsoft Visual Studio.NET and J2EE development environments and also on top of the SAP Business Information Warehouse (BW) and the Peoplesoft platform. Advanced content on report distribution and integration into the secured managed reporting solution known as Business Objects Enterprise XI, is also now included in this definitive user guide with coverage on the new Web Services

SDK.
