A surprising journey from tech support to professional marksman in front of the cameras. Chris Cheng won the title of "Top Shot," a \$100,000 cash prize, and a professional marksman contract with the show sponsor, Bass Pro Shops. How did a tech support guy who didn't shoot a lot of guns beat out seventeen other competitors—including seasoned military veterans, law enforcement officers, and pro marksmen—in History Channel's Top Shot season 4? An excellent guide for beginning shooters, Cheng focuses on the basics and ammunition of pistols, rifles, and shotguns, marksmanship fundamentals, and buying a firearm. Other chapters include: Dry Fire Practice Firearm Accessories Safely Storing Your Firearm Cleaning and Maintaining Your Guns And much more! Additionally, Cheng covers his approach to staying calm under pressure, teamwork, sportsmanship, and leadership. These traits contributed to his coming out on top and staying above the fray. With a foreword

written by Top Shot season 3 champion Dustin Ellermann and an afterword written by the original Top Shot champion Iain Harrison, *Shoot to Win* is sure to please shooters of all stripes, but especially fans of History Channel's program Top Shot. Some Comments from Len's Students... "I want you to know that in my many years of being a student, you easily rank as the best teacher I have ever had. Your skill and patience has made me infinitely more comfortable with my weapons and myself. The next class you teach, I'll be there in a heartbeat. I'm sure you don't have to be reminded of the multitude of people you have touched and the positive impact you have had on firearms training overall." Bob Patridge "Len has taught me to effectively and safely use a handgun and rifle and for that I will always be grateful. I look forward to the time I spend once or twice a week under his instruction. Len has created a wide range of firearms training programs out of virtually nothing and trained a sizeable and competent cadre of firearms instructors who, like me, greatly respects the man. He is engaged with his students and always approachable. Students who have shot much longer than me comment on his great depth of knowledge and ability to improve their shooting. He clearly loves to teach the material and his enthusiasm is contagious. He has a great sense of humor and makes his classes a lot of fun. But in spite of all of this the safety of his students is always his first concern." Dr. Noel Pillman, MD "I am a retired police officer and a former police firearms instructor for over 20 years. I have been to numerous firearms training classes over the years but have not had any instructors more professional, knowledgeable, and dedicated to what they do than Len Breure." Maurice Merabella "Len was my first real 'tactical' instructor a few years ago. He is a thorough, safe, and well-versed instructor. His teaching style is unique in a way that clearly conveys lessons and makes them easy to understand for experienced shooters and novices alike. Len brings a wealth of prior "been there, done that" experience to the table that's an asset to his teaching, and is rarely found in many of the new instructors that have come to the arena since most states have enacted concealed carry laws. I continue to train with a variety of tactical instructors, and am always amazed by how much of the information Len taught me is still the foundation upon which I build." Mike VanMeeteren "I have been fortunate enough to receive numerous training courses that were being taught by Len Breure. In my opinion, Len is one of the best in the business! It is very rewarding to be able to learn from someone who has the experience and knowledge to take tactical training to the next level." Jim Bryant I first meet Len while taking my Minnesota Concealed Carry Course in 2005. Since that time I have taken every course that Len teaches. In my opinion Len is the consummate professional, who teaches with passion and an incredible degree of knowledge. I would strongly urge anyone interested in personal protection to take Len's courses. Don is an active shooter response instructor as well as a scenario-based force-on-force instructor. He holds professional instructor certifications through the NRA and Simunition, as well as the NYS Department of State as both a Firearms Instructor and a General Topics Instructor. Guns and Crime: The Data Don't Lie investigates the ways in which the current data on guns and crime are inadequate and inaccurate. Although the majority of murders in the United States are committed with guns, research on gun ownership, the supply of guns, and the relationship between guns and crime is less thorough than studies done for many other aspects of public safety policy. This book explores the weaknesses in current findings, and extrapolates the implications of policymaking based on these faulty foundations. As the gun debate continues to rage in North America, this text offers a cautionary voice to the discourse—before practitioners and policy makers can create a solution to gun violence, they must first improve the quality of the facts they use to make their case. Intended for criminology, statistics, sociology, and economics students, *Guns and Crime* is also suitable for interested laypersons and practitioners hoping to better understand the mythos surrounding guns in America.

"Wildey's Here" is the true story of Wildey Moore's seven decades

on the gun business. It charts how, without a college education, Moore became a great innovator, designing not only the first gas-operated pistol, the Survivor, but also the JAWS, Justice Pistol for the King of Jordan. The book further recounts, how, while recovering from a stroke, international players including former CIA members attempted to seize Moore's then multi-national business, but his faith in God gave him the strength to hold on to fight and win back the company he had built over forty years. While "Wilkey's Here" is a story of survival, it's also the story of how a man came to trust in the Lord during the most trying time of his life, and charts the changes Wilkey witnessed in the United States as the country forsook morality and embraced immorality, starting down the road to decline. Make America great again, no, MAKE AMERICA GOOD AGAIN.

"You will either master the pistol or the pistol will master you." To fire perfect shots, you must train for perfect shots. But whether you want to shoot squirrels, punch holes in paper targets, or defend your home, there is only one path to achieving consistent accuracy with a handgun: mastering the fundamentals of marksmanship. Written by a former U.S. Marine Corps firearms instructor who has taught more than a thousand law enforcement, military, and security personnel, *The Perfect Pistol Shot* uses succinct lessons, uncommon exercises, and real-world stories to provide a fresh look at a vital topic for all gunmen. It includes: The single most important "trick" to perfecting handgun marksmanship A simple concept for learning how to shoot a gun twice as fast A series of unique "Prove It" exercises that allow you to test the concepts offered without the pressure of actual shooting An entertaining chapter on guns, gun magazines, and gun gurus that will help you make wiser choices about your training Knowing how to engage targets is valuable for the defensive shooter, but if "engaging" doesn't translate into "hitting," what's the point? You must have a solid foundation on which to build tactical skills. Your reward will be conversion from just another hapless shooter into an independent marksman.

My purpose and hope in writing this book about Handguns, Concealed Carry, and Legal Concerns is to impart to you knowledge to save you money. An even more important goal is to save you potential heartache; and most critical, to encourage you to protect your life and that of your loved ones. "Why and how," you ask? First, The Need: The FBI reported, "In 2010 there was a burglary every 15 seconds." One in five women in a recent survey stated they had been a victim of sexual assault. When resisting a criminal assault, an armed woman has a 400% better chance of escaping unharmed than an unarmed woman. Question: What's your plan? Just trust in Blind Luck? The Why: To purchase an inappropriate handgun or two can cost hundreds of dollars. To run afoul of the law- that expense begins in the thousands of dollars. To be unarmed and unprepared to confront a violent attacker-that cost is incalculable. Remember: "Lightning and violence have one thing in common-they both strike somewhere." The How: There is no other single source, one volume book covering handguns, ammunition, holsters, maintenance, safes, safety, legal concerns, and miscreant misbehavior. This book is an effort to fill that void. If you are not certain that you need to know more, open the book to page IX and take a quick assessment of your knowledge. Thank you for giving me a look, and don't forget: "You make your choice and you take your chances."

Trayvon Martin's parents take readers beyond the news cycle with an account only they could give: the intimate story of a tragically foreshortened life and the rise of a movement. "A reminder—not only of Trayvon's life and death but of the vulnerability of black lives in a country that still needs to be reminded they matter."—USA Today Now a docuseries on the Paramount Network produced by Shawn Carter Years after his tragic death, Trayvon Martin's name is still evoked every day. He has become a symbol of social justice activism, as has his hauntingly familiar image: the photo of a child still in the process of becoming a young man, wearing a hoodie and gazing silently at the camera. But who was Trayvon Martin, before he became, in death, an icon? And how did one black child's death on a dark, rainy street in a small Florida town become the match that lit a civil rights crusade? *Rest in Power*, told through the compelling alternating narratives of his parents, Sybrina Fulton and Tracy Martin, answers those questions from the most intimate of sources. The book takes us beyond the news cycle and familiar images to give the account that only his parents can offer: the story of the beautiful and complex child they lost, the cruel unresponsiveness of the police and the hostility of the legal system, and an inspiring journey from grief and pain to power, and from tragedy and senselessness to purpose.
