Shape code is a two-digit code which refers to the reinforcement bending shape. BS666 defines various shape and corresponding shape codes. BS666 defines various shape and corresponding shape codes.

Pitch/Spacing is the centre-to-centre distance between two adjacent bars placed in a pattern having same bar mark.

Apart from shape code 98, bars bent in planes shall be sketched isometrically or shown in two elevations, using first angle projection. The words "bent in two planes" or "isometric sketch" shall appear on the schedule adjacent to the sketch..

8.9 The overall offset dimension of a crank shall be not less than twice the size of the bar.
