Neurological Examination British Medical Journal The British Journal of Neurosurgery publishes international research on neurosurgery including all aspects of case assessment and surgical practice. British Journal of Neurosurgery: Vol 34, No 3 The physical examination includes a detailed neurological examination and a complete mental status examination, with the following areas of focus: mood and affect, thought process and content (including an assessment of delusions, abnormal perceptions, suicidal and homicidal ideation, judgement, insight), and a cognitive examination. The medical history should include a review of head injury, seizures, cerebrovascular disease, sexually transmitted infections, and new or worsening headaches. Assessment of psychosis - Differential diagnosis of ... Medical Research Council. Aids to the examination

of the peripheral nervous system, 4th ed. London: Saunders; 2000. Any acute or sub-acute motor weakness without obvious alternative explanation is an indication for CT or MRI (preferred) imaging and neurological consultation. Spinal cord compression - Diagnosis Approach | BMJ Best ... ### What you need to know Sciatica is commonly used to describe radiating leg pain. It is caused by inflammation or compression of the lumbosacral nerve roots (L4-S1) forming the sciatic nerve. 1 Sciatica can cause severe discomfort and functional limitation. Recently updated clinical guidelines in Denmark, the US, and the UK highlight the role of conservative treatment for sciatica. 234 In this ...
