The film of dew that has settled on ...Capillarity and Wetting Phenomena: Drops, Bubbles, Pearls ..."Capillarity will never be able to generate a jet. In order for a liquid to come gushing out of a tube, it would have to be in a state of overpressure, which would produce an inverted meniscus. But such a scenario would be incompatible with a rising liquid (which, as we know, implies an underpressure to balance the hydrostatic pressure)."Capillarity and wetting - Soft-MatterGet this from a library!
