### **The Complete Life of Krishna**

Aditya  
Prakashan, Publishers

EVERY living being  
longs always to be  
happy, untainted by  
sorrow; and everyone  
has the greatest love  
for himself, which is  
solely due to the fact  
that happiness is his  
real nature. Hence, in

order to realise that  
inherent and untainted  
happiness, which  
indeed he daily  
experiences when the  
mind is subdued in  
deep sleep, it is  
essential that he  
should know himself.  
For obtaining such  
knowledge the enquiry,  
'Who am I?' in quest of  
the Self is the best  
means. 'WHO AM I?' I  
am not this physical  
body, nor am I the five  
organs<sup>1</sup> of sense

perception; I am not the five organs of external activity<sup>2</sup>, nor am I the five vital forces,<sup>3</sup> nor am I even the thinking mind. Neither am I that unconscious state of nescience which retains merely the subtle vasanas (latencies of the mind), while being free from the functional activity of the sense-organs and the mind, and being unaware of the existence of the objects of sense-perception.

### **Cities in South Asia**

#### Mantras

Globalisation has long historical roots in South Asia, but economic liberalisation has led to uniquely rapid urban growth in South Asia during the past decade. This book brings together a multidisciplinary

collection of chapters on contemporary and historical themes explaining this recent explosive growth and transformations on-going in the cities of this region. The essays in this volume attempt to shed light on the historical roots of these cities and the traditions that are increasingly placed under strain by modernity, as well as exploring the lived experience of a new generation of city dwellers and their indelible impact on those who live at the city's margins. The book discusses that previously, cities such as Mumbai grew by accumulating a vast hinterland of slum-dwellers who depressed wages and supplied cheap labour to the city's industrial economy. However, it

goes on to show that the new growth of cities such as Bangalore, Hyderabad, and Madras in south India, or Delhi and Calcutta in the north of India, is more capital-intensive, export-driven, and oriented towards the information technology and service sectors. The book explains that these cities have attracted a new elite of young, educated workers, with money to spend and an outlook on life that is often a complex mix of modern ideas and conservative tradition. It goes on to cover topics such as the politics of town planning, consumer culture, and the struggles among multiple identities in the city. By tracing the genealogies of cities, it

gives a useful insight into the historical conditioning that determines how cities negotiate new changes and influences. There will soon be more mega cities in South Asia than anywhere else in the world, and this book provides an in-depth analysis of this growth. It will be of interest to students and scholars of South Asian History, Politics and Anthropology, as well as those working in the fields of urbanisation and globalisation. Shiva Asian Educational Services  
In the present volume, the author has confirmed emphatically that India was also the original homeland not only of the Indo-Aryans but also of the Indo-Iranians and the Indo-Europeans.

The traditional understanding of Shiva told through stories and teachings from the Shiva Mahapurana • Explains Shiva's contradictory forms, such as destroyer or benefactor, and how

his form depends on the needs of the devotee • Reveals how Shiva's teachings allow one to see through the illusions at the root of all grief and alienation in human life • Explores Shiva's relationships with Durga, Shakti, Sati, and Parvati and with his sons Ganesha and Kartikeya Shiva, the most ancient and complex deity of the Hindu pantheon, has been portrayed in many contrasting lights: destroyer and benefactor, ascetic and householder, wild demon slayer and calm yogi atop Mount Kailash. Drawing from the Hindu sacred text the Shiva Mahapurana--said to be written by Shiva himself-- Vanamali selects the essential stories of Shiva, both those from

his dark wild side and those from his benevolent peaceful side. Vanamali discusses Shiva's many avatars such as Shambunatha and Bhola, as well as Dakshinamurti who taught the shastras and tantras to the rishis. She explores Shiva's relationships with Durga, Shakti, Sati, and Parvati and with his sons Ganesha and Kartikeya. Examining Shiva's acceptance of outsiders, Vanamali explains why ghosts and ghouls are his attendants and why his greatest devotees are demon kings, like Ravana. She includes famous Shiva stories such as the Descent of the River Ganga and Churning the Milky Ocean as well as those that reveal the origin of

the festival of lights, Diwali; his creation of the cosmic couple, or hierogamos; and how Shiva and Parvati taught the world the secrets of Kundalini Shakti. The author also draws upon Shaivite teachings to illustrate the differences between Western science and Vedic science and their explanations for the origins of consciousness. Integrating Shiva's two sides, the fierce and the peaceful, Vanamali reveals that Shiva's form depends on the needs of the devotee. Understanding his teachings allows one to see through the illusions at the root of all grief and alienation in human life, for Shiva is the wielder of maya who does not fall under its spell. While

Ganesha is known as the remover of obstacles, Shiva is the remover of tears.

Over the years, Hindus have slowly forgotten the amazing treasures that are hidden in the land of Bharath. The resilience of Hindu mind; suppleness of its soul; suppleness of Hindu character; gracefulness of Hindu cultures; equanimity of Hindu moral compass;

gracefulness of Hindu traditions; the inner strength of Hindu scriptures; sacredness of rivers, mountains, animals and trees; the genuineness of the simple living and high thinking; the astounding principles of ahimsa - belief in nonviolence, grandeur of the principle of Vasudaika Kutumbam; the potency of spiritual life and glory that was and is Bharath; and all-embracing live and let live principles are the gems that are essential for the survival of Hinduism and human race itself. The richness of Bharath was clouded by ignorance, her glory seared with communalism, enveloped with the fog of secularism. The Hindu pride was tarnished with greed

and smeared with Macaulysm. The future of Bharath looks bleak, depressing and miserable. Bharath Mata is attacked from all quarters. She is not even spared by vocal Hindu secularists, liberals and communists. Media has created havoc by denouncing the Hindus, Saints and Hindu organizations and leaders. Beneath every Hindu, there is the presence of divinity, dharma, spirituality and ahimsa. Somehow, he has forsaken the ancient richness and allowed it to be smeared with greed, name, fame, power, position, wealth and recognition that only satiate the present not the future. Divine intervention can only reverse the trend and malaise. Hinduism

is being attacked by selected Hindus as well as the two Abrahamic religions. Patience, tolerance and ahimsa made Hinduism a defenseless religion in the world. It has become a soft target with no retaliation or any plan to protect itself from enemies both within and without. Unlike other two major religions, Hinduism does not preach for expansion, does not believe in terrorism and does not practice deceptive techniques to convert people; nor do they believe in the expansion through conversion techniques. Their emphasis is on the development of the individual, self-improvement and enlightenment.

Why is the tulsi considered sacred?  
 What is the significance of namaste? Why do Hindus light a lamp before performing a ritual? Why is it forbidden to sleep facing the south? Why do Hindus chant 'shanti' three times after performing a rite? Millions of Hindus the world over grow up observing rites, rituals and religious practices that lie at the heart of Hinduism, but which they don't know the significance of. Often the age-old customs, whose relevance is lost to modern times, are dismissed as meaningless superstitions. The truth, however, is that these practices reveal the philosophical and scientific approach to life that has

characterized Hindu thought since ancient times; it is important to revive their original meanings today. This handy book tells the fascinating stories and explains the science behind the Hindu rites and rituals that we sometimes follow blindly. It is essential reading for anyone interested in India's cultural tradition.

The Vaikhanasas, a group of Brahmanic priests in the Visnu temples of south India, can look back on a long and turbulent history, that is characterized by the effort of claiming their status against rivaling priests. Central to this monograph is a controversy, ongoing for centuries, as to what makes a person eligible to perform the rituals in Visnu temples: does birth or an initiation create the ideal intermediary between the god and humans? Since the 14th century CE the discussion in the relevant Sanskrit texts centers around the question of whether the Vaikhanasas priests must undergo an initiation including a branding on the upper arms, or whether their

particular prenatal life-cycle ritual visnubali makes them eligible to perform temple ritual. As hereditary temple priests the Vaikhanasas' own stance is explicit: they are Visnu's own children, preordained for temple service already before birth. In addition to the textual perspective, three instances of local conflicts from the 19th/20th centuries about the question of whether the Vaikhanasas require an initiation are analysed in their contexts. Furthermore, three examples of present day performances of the crucial ritual visnubali are presented and interpreted in the light of the relation between text and performance and from the perspective of the

acting priests' ritual competence. The book also contains a DVD with some of the video-coverage of the three visnubali performances.

History of the Tamils

Composed by the great sage of Advaita Vedanta, Adi Sankara, this work gives an exposition of the symbols of puja (worship) in light of Nonduality. Written as

a dialogue between a disciple and a Guru, the disciple first asks, "What manner of worship is prescribed for the One existing as undivided Being-Consciousness-Bliss with no second, without misconceptions, and of

one nature?" He then asks similar questions about the details of such in the context of utmost Nonduality, and, starting with the ninth verse, the Guru replies in the light of the Knowledge of that utmost Nonduality.
