**String quartets opp. 42, 50, and 54** Courier Corporation  
 The dramatic overture had its beginnings in Renaissance court entertainments, which often began with a flourish of trumpets. It reached a high point of inspiration in the overtures that George Frideric Handel (1685-1759) composed for his operas and oratorios. This volume presents 60 Handel overtures and sinfonias, originally scored for orchestra, superbly arranged for solo keyboard. They have been reprinted from an extremely rare edition originally printed, probably in the 1750s, by Handel's London publisher, John Walsh. Happily, these brilliant works have lost nothing in translation of their Handelian vitality and interest. Many of them, such as the overtures to "Messiah, Acis and Galatea, Alexander's Feast, Julius Caesar, "the second overture in "Solomon" (known as the "Arrival of the Queen of Sheba"), and the so-called Water Musick, are very familiar to music lovers. Some will be fresh discoveries for keyboard players. Together they demonstrate Handel's exciting theatrical sense, his technical virtuosity in composition, and his dazzling mastery of musical forms, which he often combined into his own unique creations. This edition preserves the original keyboard notation, amazingly precise in its elegant execution and, of course, entirely legible to present-day performers."

 This monumental study of Johann Sebastian Bach ranks among the great classics of musicology. Since its first publication in 1873-80, it has remained the basic work on Bach and the foundation of later research and study. The three-part treatment describes in chronological sequence practically everything that is known of the composer's life: his ancestry, his immediate family, his associations, his employers, and the countless occasions on which his musical genius emerged. Author Philipp Spitta accompanies this biographical material with quotations from primary sources: correspondence, family records, diaries, official documents, and more. In addition to biographical data, Spitta reviews Bach's musical production, with analyses of more than 500 pieces, covering all the important works. More than 450 musical excerpts are included in the main text, and a 43-page

musical supplement illustrates longer passages. Despite the scholarly nature of this work, it also has the rare distinction of being a study that can be read with considerable enjoyment and great profit by every serious music lover, with or without a substantial background in the history of music or musical theory.

The three-part work is scored for seven solo voices, chorus, and orchestra, combining dramatic action and theatricality with philosophical reflection and moments of serene contemplation. The singing text appears in French and German.

**60 Handel Overtures Arranged for Solo Keyboard** University of Chicago Press

In New York and London during World War I, the performance of lieder—German art songs—was roundly prohibited, representing as they did the music and language of the enemy. But as German musicians returned to the transatlantic circuit in the 1920s, so too did the songs of Franz Schubert, Hugo Wolf, and Richard Strauss. Lieder were encountered in a variety of venues and media—at luxury hotels and on ocean liners, in vaudeville productions and at Carnegie Hall, and on gramophone recordings, radio broadcasts, and films. Laura Tunbridge explores the renewed vitality of this refugee musical form between the world wars, offering a fresh perspective on a period that was pervaded by anxieties of displacement. Through richly varied case studies, *Singing in the Age of Anxiety* traces how lieder were circulated, presented, and consumed in metropolitan contexts, shedding new light on how music facilitated unlikely crossings of nationalist and internationalist ideologies during the interwar period.
