Study guide to accompany Abrams, Foundations of Clinical Drug Therapy, 978-0-7817-4921-3

Student Study Guide to Accompany Drugs and Society Lippincott Raven

This core text offers LPN/LVN students a clear, concise introduction to pharmacology, focusing on basic principles and the nurse's responsibility in drug administration. Organized by body system, the book examines pharmacologic properties and therapeutic applications of drug classes. Summary Drug Tables present generic and trade drug names, uses, adverse reactions, and usual dosage

ranges. This edition has thoroughly updated drug information, a new "Pharmacology in Practice" case study feature, Nursing Alerts, Lifespan Alerts, Chronic Care Alerts, Diversity Alerts, and additional material on the nursing process. Including a FREE copy of Lippincott's Photo Atlas of Medication Administration, a bound CD-ROM, a companion website includes an NCLEX® alternate item format tutorial, a Spanish-English audio glossary, monographs on 100 most commonly prescribed drugs, Listen and Learn, Concepts in Action animations, Watch and Learn video clips, and Dosage Calculation Quizzes. The full text is also available online. Online Tutoring powered by Smarthinking—Free online tutoring, powered by Smarthinking, gives students access to expert nursing and allied health science educators whose mission, like yours, is to achieve success. Students can access live tutoring support, critiques of written work, and other valuable tools.

Study Guide to Accompany Drug Therapy in Nursing SAGE Publications

Get the need-to-know pharmacology nursing skills you need to succeed on the NCLEX® and beyond with Study Guide for Pharmacology and the Nursing Process, 9th Edition! Designed to accompany Lilley's Pharmacology and the Nursing Process, 9th Edition textbook, this workbook features worksheets for each chapter that include NCLEX-RN® Examination-style review questions, critical thinking and application questions, case studies, and other educationally sound learning activities. Chapter-by-chapter worksheets are divided into 3 main sections: Chapter Review and NCLEX Examination Preparation, Critical Thinking and Application, and Case Study. Chapter review and NCLEX® Examination preparation included in each chapter worksheet contains a number of application-based NCLEX practice questions, including at least one alternate-item question per chapter. Focus on prioritization features at least one prioritization exercise in which the student must evaluate a clinical scenario and answer the question: "What is the nurse's best action?" Overview of dosage calculations section contains explanations of key drug calculations, concepts, sample drug labels, practice problems, and a practice quiz. Learning strategies expands upon the unique, cartoon-illustrated study strategies included in the Lilley text. Answers for all exercises are provided at the back of the book to facilitate self-study. NEW! Updated content is completely current and ensures that the Study Guide content is consistent with the Lilley textbook. NEW! Expanded NCLEX® focus includes one to two additional NCLEX Examination-style questions for each chapter, including additional alternate item format types.

Study Guide to Accompany Psychiatric Nursing LWW

Master nursing pharmacology with this helpful study tool! Designed to accompany Clayton and Willihnganz's Basic Pharmacology for Nurses, 16th Edition, this study guide assists you in understanding and applying material from each chapter in the text. More than 1,000 review questions grouped by textbook chapter objective. Includes alternate format question types such as multiple response and priority order to give you practice with new question types found on the NCLEX-PN exam Clinical patient scenarios help you understand drug classifications and actions for selected disease states.
