Readers' Guide to Periodical Literature

Netflix has come a long way since 1997, when two Silicon Valley entrepreneurs, Marc Randolph and Reed Hastings, decided to start an online DVD store before most people owned a DVD player. They were surprised and elated when launch-day traffic in April 1998 crashed their server and resulted in 150 sales. Today, Netflix has more than 25 million subscribers and annual revenues above \$3 billion. Yet long-term success-or even survival-is still far from guaranteed. Journalist Gina Keating recounts the absorbing, fast-paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business. First it engaged in a grueling war against video-store behemoth Blockbuster, transforming movie rental forever. Then it jumped into an even bigger battle for online video streaming against Google, Hulu,

Amazon, and the big cable companies. Netflix ushered in such innovations as DVD rental by mail, a patented online queue of upcoming rentals, and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals. Yet for all its success, Netflix is still a polarizing company. Hastings is often heralded as a visionary-he was named Business Person of the Year in 2010 by Fortune-even as he has been called the nation's worst CEO. Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever. The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet. Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter, Keating makes this tale as absorbing as it is important.

In an era of change in education, the time is right to refocus attention on guided reading practices. Guided reading remains an anchor in

small group literacy instruction, but how has it changed with the new shifts? In this book, Michael Ford provides a practical resource for guided reading. He explains how it has evolved, why it's important, how to fit it into a comprehensive literacy program, how to select texts, how to position it for intervention, and how to assess students. Also included is an appendix with a listing of guided reading books.

QuickStart Guide John Wiley & Sons

The Royal Society for the Prevention of Cruelty to Beasts (RSPCB) operates

a rescue center for werewolves, dragons, fairies, giants, sea monsters, and other fantastical creatures. The RSPCB has stopped crimes against beasts, but there are still some people out there who will do anything to get their hands on one of these mythic animals . . . even if that means crossing the members of the RSPCB. In the first book, *Werewolf versus Dragon*, a dragon's mangled body arrives at the RSPCB, and the Society knows that they've got a real monster on their hands. Ulf, a werewolf-boy, and his friends must stop the most evil beast hunter before it's too late. The adventure continues in the second book, *Sea Monsters and Other Delicacies*, for Ulf and his friends, Orson the giant, Tiana the Fairy, and Dr. Fielding. A sea monster has suffered a life-threatening injury, and it looks like the evil Baron Marackai is back—and this time beasts are on the menu. Ulf must stop him again—the future of the RSPCB depends on it.

 CHINA CEO: A Case Guide for Business Leaders in China Some Western business leaders are moving into China without any clear knowledge of the many pitfalls they will encounter: the weak rule of law, forceful governmental intervention, a scarcity of managerial talent, the likelihood of counterfeiting, the fast paced business environment and surprisingly aggressive local competitors. This book uses case studies to both illuminate and examine these key managerial challenges. Each case focuses on a specific topic and is complemented with commentaries from professors and executives who have extensive front-line experience in China. The cases are the product of three-year research and are well-tested in MBA and executive courses. The authors' philosophy is that readers can learn most effectively through the experience of others captured in real cases! The book includes a broad range of companies, such as Emerson, Eli Lilly, General Motors, Peugeot, Carrefour, Daimler-Chrysler, Picanol. It also

includes more personal experiences concerning the many challenges of expatriate-living in China, some of whom have started their own businesses. The book provides concise but insightful analysis to help readers to get the most from the case studies. As a result, this book will help you get better prepared to face the varied challenges you will find in China. These cases complement the material presented in a previous work, China CEO: Voices of Experience from 20 International Business Leaders, also published by John Wiley & Sons.
