COHEN LAYLA

California Style Manual Corwin Press

This Newbery Honor winner and #1 New York Times bestseller is a beloved modern classic. Hoot features a new kid and his new bully, alligators, some burrowing owls, a renegade eco-avenger, and several extremely poisonous snakes. Everybody loves Mother Paula's pancakes. Everybody, that is, except the colony of cute but endangered owls that live on the building site of the new restaurant. Can the awkward new kid and his feral friend prank the pancake people out of town? Or is the owls' fate cemented in pancake batter? Welcome to Carl Hiaasen's Florida—where the creatures are wild and the people are wilder!

Racial and Ethnic Tensions in American Communities Trivium LLC

An imbalance of power and a sense of unresolved tension have long plagued relations between the United States and Latin America. This book offers an important new synthesis of that complex relationship by studying how actions and policies of the United States have been interpreted and played out in Latin America. Beginning with the Monroe Doctrine in 1823, the United States unilaterally asserted its right to protect the hemisphere against foreign intervention. But what began as a policy boldly proclaiming hemispheric security soon led to direct intervention by the United States in political, economic, and military matters throughout Latin America. Meddling by the United States resulted in deep-seated antagonisms that have

adversely impacted U.S.-Latin American relations for over 150 years. Don Coerver and Linda Hall draw on their expertise in modern Latin American history to present U.S. policies in light of their impact on these countries. They help readers understand the issues that have defined and divided nations of the Western Hemisphere from the 1820s to the present. Events since 1940 are the focus of more than half the book, including the Cuban Revolution and missile crisis; negotiations in the 1970s over turnover of the Panama Canal; wars in Central America in the 1980s; and in the 1990s, the impact of the North American Free Trade Agreement (NAFTA) on relations with Mexico and the effects of the so-called war on drugs throughout the Americas.

Assessing Completeness and Accuracy of Criminal History Record Systems Vintage

Law Enforcement Interpersonal Communication and Conflict Management: The IMPACT Model provides law enforcement professionals with a comprehensive, easy-to-follow model designed specifically to improve communications with victims, witnesses, subjects, and other members of the public. Harnessing 30 years of front line law enforcement experience, author Brian D. Fitch outlines practical strategies in a six-step model, IMPACT, which asks professionals to: Identify and master emotions Master the story Promote positive behavior Achieve Rapport Control your response Take perspective When used correctly, this model will help readers communicate and connect more effectively with people in virtually any law enforcement environment.

The Grapes of Wrath DIANE Publishing

When it comes to the hard work of reconstructing our schools into places where every student has the opportunity to succeed, Mirko Chardin and

Katie Novak are absolutely convinced that teachers should serve as our primary architects. And by “teachers” they mean legions of teachers working in close collaboration. After all, it’s teachers who design students’ learning experiences, who build student relationships . . . who ultimately have the power to change the trajectory of our students’ lives. Equity by Design is intended to serve as a blueprint for teachers to alter the all-too-predictable outcomes for our historically under-served students. A first of its kind resource, the book makes the critical link between social justice and Universal Design for Learning (UDL) so that we can equip students (and teachers, too) with the will, skill, and collective capacity to enact positive change. Inside you’ll find: Concrete strategies for designing and delivering a culturally responsive, sustainable, and equitable framework for all students Rich examples, case studies, and implementation spotlights of educators, students (including Parkland survivors), and programs that have embraced a social justice imperative Evidence-based application of best practices for UDL to create more inclusive and equitable classrooms A flexible format to facilitate use with individual teachers, teacher teams, and as the basis for whole-school implementation “Every student,” Mirko and Katie insist, “deserves the opportunity to be successful regardless of their zip code, the color of their skin, the language they speak, their sexual and/or gender identity, and whether or not they have a disability.” Consider Equity by Design a critical first step forward in providing that all-important opportunity. “Our calling is to drop our egos, commit to removing barriers, and treat our learners with the unequivocal respect and dignity they deserve.” ~Mirko Chardin and Katie Novak

Newsbeat Simon and Schuster

Justice in Plain Sight is the story of a hometown newspaper in Riverside, California, that set out to do its job: tell readers about shocking crimes in their own backyard. But when judges slammed the courtroom door on the public, including the press, it became impossible to tell the whole story. Pinning its hopes on business lawyer Jim Ward, whom Press-Enterprise editor Tim Hays had come to know and trust, the newspaper took two cases to the U.S. Supreme Court in the 1980s. Hays was convinced that the public—including the press—needed to have these rights and needed to bear witness to justice because healing in the aftermath of a horrible crime could not occur without community catharsis. The newspaper won both cases and established First Amendment rights that significantly broadened public access to the judicial system, including the right for the public to witness jury selection and preliminary hearings. Justice in Plain Sight is a unique story that, for the first time, details two improbable journeys to the Supreme Court in which the stakes were as high as they could possibly be (and still are): the public's trust in its own government.

Law Enforcement Interpersonal Communication and Conflict Management Ember

This intelligence guide was prepared in response to requests from law enforcement executives for guidance in intelligence functions in a post-September 11 world. It will help law enforcement agencies develop or enhance their intelligence capacity and enable them to fight terrorism and other crimes while preserving community policing relationships. The world of law enforcement intelligence has changed dramatically since September 11, 2001. State, local, and tribal law enforcement agencies have been tasked with a variety of new responsibilities; intelligence is just one. In addition, the intelligence discipline has evolved significantly in recent years. As these various trends have merged, increasing numbers of American law enforcement agencies have begun to explore, and sometimes embrace, the intelligence function. This guide is intended to help them in this process. The guide is directed primarily toward state, local, and tribal law enforcement agencies of all sizes that need to develop or reinvigorate their intelligence function. Rather than being a manual to teach a person how to be an intelligence analyst, it is directed toward that manager, supervisor, or officer who is assigned to create an intelligence function. It is intended to provide ideas, definitions, concepts, policies, and resources. It is a primera place to start on a new managerial journey. Every law enforcement agency in the United States, regardless of agency size, must have the capacity to understand the implications of information collection, analysis, and intelligence sharing. Each agency must have an organized mechanism to receive and manage intelligence as well as a mechanism to report and share critical information with other law enforcement agencies. In addition,

it is essential that law enforcement agencies develop lines of communication and information-sharing protocols with the private sector, particularly those related to the critical infrastructure, as well as with those private entities that are potential targets of terrorists and criminal enterprises. Not every agency has the staff or resources to create a formal intelligence unit, nor is it necessary in smaller agencies. This document will provide common language and processes to develop and employ an intelligence capacity in SLTLE agencies across the United States as well as articulate a uniform understanding of concepts, issues, and terminology for law enforcement intelligence (LEI). While terrorism issues are currently most pervasive in the current discussion of LEI, the principles of intelligence discussed in this document apply beyond terrorism and include organized crime and entrepreneurial crime of all forms. Drug trafficking and the associated crime of money laundering, for example, continue to be a significant challenge for law enforcement. Transnational computer crime, particularly Internet fraud, identity theft cartels, and global black marketeering of stolen and counterfeit goods, are entrepreneurial crime problems that are increasingly being relegated to SLTLE agencies to investigate simply because of the volume of criminal incidents. Similarly, local law enforcement is being increasingly drawn into human trafficking and illegal immigration enterprises and the often associated crimes related to counterfeiting of official documents, such as passports, visas, driver's licenses, Social Security cards, and credit cards. All require an intelligence capacity for SLTLE, as does the continuation of historical organized crime activities such as auto theft, cargo theft, and virtually any other scheme that can produce profit for an organized criminal entity. To be effective, the law enforcement community must interpret intelligence-related language in a consistent manner. In addition, common standards, policies, and practices will help expedite intelligence sharing while at the same time protecting the privacy of citizens and preserving hard-won community policing relationships.~

Sundesert Nuclear Power Plant Units 1-2, Construction Harper Collins

2019 NATIONAL BOOK AWARD FINALIST Winner of the Arab American Book Award in Fiction Finalist for the Kirkus Prize in Fiction Finalist for the California Book Award Longlisted for the Aspen Words Literary Prize A Los Angeles Times bestseller Named a Best Book of the Year by The Washington Post, Time, NPR, Minneapolis Star Tribune, Dallas Morning News, The Guardian, Variety, and Kirkus Reviews Late one spring night in California, Driss Guerraoui—father, husband, business owner, Moroccan immigrant—is hit and killed by a speeding car. The aftermath of his death brings together a diverse cast of characters: Guerraoui's daughter Nora, a jazz composer returning to the small town in the Mojave she thought she'd left for good; her mother, Maryam, who still pines for her life in the old country; Efraim, an undocumented witness whose fear of deportation prevents him from coming forward; Jeremy, an old friend of Nora's and an Iraqi War veteran; Coleman, a detective who is slowly discovering her son's secrets; Anderson, a neighbor trying to reconnect with his family; and the murdered man himself. As the characters—deeply divided by race, religion, and class—tell their stories, each in their own voice, connections among them emerge. Driss's family confronts its secrets, a town faces its hypocrisies, and love—messy and unpredictable—is born. Timely, riveting, and unforgettable, *The Other Americans* is at once a family saga, a murder mystery, and a love story informed by the treacherous fault lines of American culture.
