JOHANNA POWERS

A Mesoamerican Creation Myth

Candlewick Press

A daring account of Black Seminole warrior, chief, and diplomat John Horse and the route he forged on the Underground Railroad to gain freedom for his people John Horse (c. 1812–1882, also known as Juan Caballo) was a famed chief, warrior, tactician, and diplomat who played a dominant role in Black Seminole affairs for half a century. His story is central to that of the Black Seminoles—descendants of Seminole Indians, free Blacks, and escaped slaves who formed an alliance in Spanish Florida. A political and military leader of mixed Seminole and African heritage, Horse defended his people from the US government, other tribes, and slave hunters. *A Man Called Horse* focuses on the little-known life of Horse while also putting into historical perspective the larger story of Native Americans and especially Black Seminoles, helping to connect the missing “dots” in this period. After fighting during the Second Seminole War (1835–1842), one of the longest and most costly Native American conflicts in US history, Horse negotiated terms with the federal government and later became a guide and interpreter. Forced to relocate, he led a group of Black Seminoles to find a new home, first heading westward to Texas and later to Mexico. Turner worked with descendants of Horse, who provided oral histories as well as many photographs and other artifacts. Her expertly researched and vetted biography depicts Horse as a complex, fascinating figure who served in many varied roles, including as a counselor of fellow Seminole leaders, an agent of the US government, and a captain in the Mexican army. But no matter the part he played, one thing remained constant: whether in battle or at the negotiating

table, Horse fought tirelessly to help his people survive. The story of John Horse is a tale of daring, intrigue, and the lifelong quest for freedom. The book includes black-and-white archival photos throughout (though the book is designed in full color), as well as a map, timeline, author's note, endnotes, and select bibliography.

Ada Twist, Scientist: The Why Files #2: All About Plants! Amulet Books

A #1 New York Times Bestseller A Wall Street Journal Bestseller A USA Today Bestseller The creators of the New York Times bestselling picture books *Rosie Revere, Engineer* and *Iggy Peck, Architect* are back with a story about the power of curiosity in the hands of a child who is on a mission to use science to understand her world. *Ada Twist, Scientist*, from powerhouse team Andrea Beaty and David Roberts, is a celebration of STEM, perseverance, and passion. Like her classmates, builder Iggy and inventor Rosie, scientist Ada, a character of color, has a boundless imagination and has always been hopelessly curious. Why are there pointy things stuck to a rose? Why are there hairs growing inside your nose? When her house fills with a horrific, toe-curling smell, Ada knows it's up to her to find the source. What would you do with a problem like this? Not afraid of failure, Ada embarks on a fact-finding mission and conducts scientific experiments, all in the name of discovery. But, this time, her experiments lead to even more stink and get her into trouble! Inspired by real-life makers such as Ada Lovelace and Marie Curie, *Ada Twist, Scientist* champions girl power and women scientists, and brings welcome diversity to picture books about girls in science. Touching on themes of never giving up and problem solving, Ada comes to learn

that her questions might not always lead to answers, but rather to more questions. She may never find the source of the stink, but with a supportive family and the space to figure it out, she'll be able to feed her curiosity in the ways a young scientist should. Iggy Peck and Rosie Revere have earned their places among the most beloved children's characters, and they have inspired countless kids and adults to follow their dreams and passions. Now in her own charming and witty picture book, determined Ada Twist, with her boundless curiosity for science and love of the question "Why?," is destined to join these two favorites. The book is the perfect tool to remind both young girls and women that they have the intelligence and perseverance to achieve their dreams.

Robbie Darko is a magician. An old-school, pull-a-rabbit-out-of-your-hat-style magician. Robbie loves magic and he's good at it—sort of. Despite his best efforts, passion, and practice, something always goes wrong with his tricks, landing Robbie in trouble. Enter crotchety Grandma Melvyn, who calls everyone "Trixie" and complains about everything. When Grandma Melvyn moves in and takes over his room, Robbie discovers that she was once an internationally renowned magician and learns about the heartache that turned her into a bitter woman. Against all odds, Robbie and Grandma Melvyn form an uneasy alliance to show the world—or at least the kids of Hobson Elementary School—that he is a true magician. Shortly after a successful talent show, Grandma Melvyn performs a final disappearing act, and Robbie learns a little about the true meaning of magic. Written with pitch-perfect middle-grade humor and unforgettable characters, this gem of a novel will stay with readers long after Dorko the Magnificent has taken his final bow. Praise for Dorko the Magnificent "A young would-be magician gets lessons in both stagecraft and life from a crusty elder... the supporting characters steal the show." —Kirkus Reviews "Short chapters keep the story moving. Robbie has impressive determination, but it is Grandma Melvyn who is the star in this moving story." —Booklist "Satisfying and enjoyable,

Dorko will engage reluctant and voracious readers alike." —School Library Journal " A thoroughly likable middle-grade novel, offering a blend of poignancy and giggle-worthy humor, this book is a solid back-to-school read."

—The Bulletin of the Center for Children's Books "Literature circles would work well with this title that deals with alienation, friendship, family, reconciliation, and death." —Library Media Connection

Award-winning author and illustrator Duncan Tonatiuh brings an ancient Mesoamerican creation myth to life Long ago, the gods of Mesoamerica set out to create humans. They tried many times during each sun, or age. When all their attempts failed and the gods grew tired, only one did not give up:

Quetzalcóatl—the Feathered Serpent. To continue, he first had to retrieve the sacred bones of creation guarded by Mictlantecuhtli, lord of the underworld. Gathering his staff, shield, cloak, and shell ornament for good luck, Feathered Serpent embarked on the dangerous quest to create humankind. Award-

winning author and illustrator Duncan Tonatiuh brings to life the story of Feathered Serpent, one of the most important deities in ancient Mesoamerica. With his instantly recognizable, acclaimed art style and grand storytelling, Tonatiuh recounts a thrilling creation tale of epic proportions. *Shatter Me* Abrams
