HAIR, Long, Luxurious and Healthy! What's a time-old secret with ancient aromatherapy recipes the natural way? Indian Head Massage will enhance your beauty, give you strong, healthy hair and stop hair loss. These massage techniques can be easily learnt. Perform them on yourself or a friend. I'm an Indian born teacher of Holistic and Spiritual therapies and an Internationally qualified Beauty Therapy Teacher (ITEC, London) for over 30 years. I have run two successful International Colleges in Sydney and Canberra, Australia - Stephanie Roberts' International Beauty Training College and Stephanie Roberts' Art of Beauty Training College. Being of Indian heritage, I was the recipient of many Indian Head Massages as a child from my "Dadi" (paternal grandmother). I have her to thank for my luxurious long raven-black hair today! Indian head massage has both physical and psychological benefits. It is very effective as it helps soothe and relax the nervous system while relieving joint and muscle stiffness. And of course it is a

very beneficial treatment for tension headaches and eyestrain. Also different strokes and pressure are used to stimulate the lymphatic and circulatory system, which assist in removal of waste and toxins. These are just a few of the therapeutic and health benefits of this technique. It's a deep relaxing therapy that re-balances the body's energy to produce a sense of peace, calm and well-being. It is believed that three of the main energy centers of the human body are found in the head: brow crown and throat. Indian head massage stimulates these important energy centers, (chakras) which help to maintain the body's balance of energy and a feeling of peace and tranquility. Follow through the instructions and repeat at least 3-5 times, till you become adept at the skill. It is a wonderful treatment for balancing mind and body the natural way. Your life will flow and bring you great peace and contentment if you practice this skill, using my essential oil recipes ... as well as BEAUTIFUL LUXURIOUS HEALTHY HAIR!

Menopause is a very complex and confusing subject. It's about time truly authoritative experts wrote a readable, comprehensive, up-to-date, and understandable 2006 guidebook not for other doctors, but for the menopausal woman herself. Finally!entertaining, creatively and insightfully written, devoid of sleep-inducing academic boring monotony, and from a menopausal woman's point of view. Indeed, this is the first book written for women which clearly separates fact from fiction now four years post-WHI study. It includes very important new 2006 findings on menopause. This book is written because of INTENSE AND OVERWHELMING DEMAND women have for accurate information. Since the Women's Health Initiative (WHI) Study was published in July 2002, the world of health care decision making has been turned upside down. The clanking of trash cans was deafening worldwide when millions of

women tossed their hormonal medications. Immediately, physicians' phones rang off the hook. A panic-stricken confused public of sleep-deprived, anxious menopausal women began to descend on doctors' consultation rooms waving hand fans searching for answers. The perfect Category Five Menopausal Storm had been set into motion. Three conspiring fronts had converged simultaneously: 1) an Internet information savvy baby boomer generation just starting menopause, 2) the premature release of a well done but flawed landmark study on menopause, and 3) a journalistic media hell bent on lightning-like dissemination of the scariest information possible for maximum shock effect. Menopausal women are sick and tired of getting health care information from the media. **MENOPAUSE, JUST THE FACTS, MA'AM** is a book written just for these women. Dr. Neil C. Boland is a board-certified seasoned practicing Ob/Gyn Physician and Menopausal Medicine Specialist. Linda LaVelle is a practicing aesthetician of the highest caliber who is menopausal herself. She shares her personal and professional experiences in a delightfully humorous

style. It's really about time! Website: www.justthefactsmaam.net .

Beauty Therapist's Guide to Professional Practice and Client Care Orient Paperbacks
What happens when the world of venture capital collides with the world of espionage? To find the answer, Jonathan E. Lewis takes us inside the executive suite at Itek Corporation during the Cold War

years from 1957 to 1965. Itek was manufacturing the world's most sophisticated satellite reconnaissance cameras, and the information these cameras provided about Soviet missiles and military activity was critical to U.S. security. So was Itek. This intriguing book examines in unprecedented detail the challenges Itek faced not only as a contractor for the most important national security program of the time—the CIA's Project CORONA spy satellite—but also as a start-up company competing with established industrial giants. In telling the story of Itek Corporation, Lewis fills important gaps in the history of American intelligence, business history, and management studies. In addition, he addresses a variety of important themes such as the compatibility of secrecy and capitalism, the struggle between profits and patriotism, and the workings of power and connections in America. Lewis explores how Itek executives contended with myriad business problems that were compounded by the need to raise capital without revealing the complete truth

Related with Beauty Itec World:

about the company's highly secret business. He also presents for the first time information about Laurance Rockefeller's venture capital operations and his role in financing Itek, based on the financier's private Itek papers. The book is both a remarkable case study of a company at the heart of the American intelligence-industrial complex during the Cold War and a thought-provoking examination of the impact of the CIA on the capitalist system it was created to defend.
