Reflections from the Business Academic Community Broadview Press

In a series of articles specifically commissioned for this volume, some of today's most distinguished business ethicists survey the main areas of interest and concern in the field of business ethics. Sections of the book cover topics such as the often easy relation between business ethics and capitalism, the link between business ethics and ethical theory, how ethics applies to specific problems in the business world, the connection between business ethics and related academic disciplines, and the practice of business ethics in modern corporations. Includes extensive, accessible discussion of all of the main areas of interest and debate in business ethics Features all original contributions by distinguished authors in business ethics Includes an annotated table of contents, bibliographies of the relevant literature and a list of internet sources of material on business ethics Perfect, comprehensive book for use in business ethics courses

A Companion to Business Ethics Broadview Press

This third Asia-Pacific edition of *Moral Issues in Business* examines key ideas in business ethics in the context of moral and ethical issues encountered by Australian and New Zealand businesses and organisations. Structured within 11 chapters of text including new, cutting edge ethical theories and practices Moral Issues in Business presents the latest ethical insights and thinking in a manner that is accessible to students

Business Ethics For Dummies Pearson Education India

Events such as Trafigura's illegal dumping of toxic waste in Côte d'Ivoire and BP's environmentally disastrous oil spill in the Gulf of Mexico have highlighted ethical issues in international business at a time when business leaders, academics and business schools were reflecting on their own responsibilities following the global financial crisis. The scope and scale of the global operations of multinational businesses means that decisions taken in different parts of the world have far reaching consequences beyond the national settings where employees are located or where firms are registered and as such, an awareness of these responsibilities needs to be integrated into all levels and all subjects. Using four guiding principles - a critical multi-level approach rooted in the tradition of European social theory, a comparative and international perspective, a global rather than just a European or American stand point and engaging with subject-specific issues this book aims to 'mainstream' business ethics into the work of teachers and students in business schools. This comprehensive volume brings together contributions from a range of experts in different areas of business studies thereby facilitating and encouraging a move away from business ethics being a box to be ticked to being an integrated consideration across the business disciplines. This impressive book brings ethical considerations back to the heart of the business curriculum and in doing so, provides a companion for the progressive business student throughout their university career. Cengage Learning

Business ethics is a form of the art of applied ethics that examines ethical rules and principles within a commercial context, the various moral or ethical problems that can arise in a business setting, and any special duties or obligations that apply to persons who are engaged in commerce. Business ethics can be both a normative and a descriptive discipline. As a corporate practice and a career specialisation, the field is primarily normative. In academia descriptive approaches are also taken. The range and quantity of business ethical issues reflects the degree to which business is perceived to be at odds with non-economic social values. Historically, interest in business ethics accelerated dramatically during the 1980s and 1990s, both within major corporations and within academia. For example, today most major corporate websites lay emphasis on commitment to promoting non-economic social values under a variety of headings (e.g. ethics codes, social responsibility charters). In some cases, corporations have redefined their core values in the light of business ethical considerations. Catching business ethics in action, however, remains a seldom-spotted nugget for in reality it depends on the characters of the characters.

A Critical Approach: Integrating Ethics Across the Business World Routledge

Previous research on corporate cultures and ethical business cultures has focused almost exclusively on studies of multinational corporations from a handful of developed countries. This book addresses the intersection of human resource development and human resource management with ethical business cultures in the four BRIC countries, and four other fast-growing emerging economies: those of Mexico, Indonesia, South Africa and Turkey. Drawing on longitudinal large-scale survey-based studies, it compares managers' and employees' perceptions of ethical business cultures in these countries, contrasting them with the US economy. It then discusses the economic and socio-cultural context and current research on business ethics in each of these countries, including implications for research and practice. This significant study will appeal to scholars, researchers and students in business ethics, management, human resource management and development, and organization studies, and addresses issues faced daily by business executives and practitioners working in emerging market countries.

Ethical Issues in Business Prentice Hall

There's no such thing as business ethics. How can that be? Because a single standard applies to both your business and personal life-and it's one we all know and trust: the Golden Rule. Now bestselling author John C. Maxwell shows you how this revered ideal works everywhere, and how, especially in business, it brings amazing dividends. There's No Such Thing As "Business" Ethics offers: * Stories from history, business, government, and sports that illustrate how talented leaders invoked this timeless principle * Examples of difficult business decisions-layoffs, evaluations, billing clients, expansion-and how the Golden Rule applies to each * The five most common reasons people compromise their ethics-and how you can prevail over such moral obstacles * How applying the Golden Rule to business builds morale, increases productivity, encourages teamwork, lowers employee turnover, and keeps clients coming back. John C. Maxwell not only reveals the many ways the Golden Rule creates the perfect environment for business success, but does it with great wisdom, warmth, and humor. Backed by flawless research and the ideas of history's best thinkers, this engaging book brilliantly demonstrates how doing the right thing fosters a winning situation for all, with positive results for employees, clients, investors, and even your own state of mind. Business runs much more smoothly, profits increase, and you know that you've set the groundwork for years of future prosperity...and it's all thanks to the tried-and-true Golden Rule.

Moral Issues in Business SAGE Publications

An innovative text that aims to deepen students' knowledge of business ethics through a multidisciplinary approach grounded in moral philosophy, management principles, business history, and economics. The text aims to help students make ethical decisions, demonstrate integrity in the workplace, and advocate for moral business practices. It also features content on further trends and topics that will help students build a deeper understanding of business ethics: A section on Personal Integrity in the workplace, unpacks ethical dilemmas that face employees in the workplace including conflicts of interest, cheating, whistle blowing, and bribery. A section on Corporate Values and Responsibilities delves into ethical issues related to the financial industry, competition, safety, privacy, and intellectual property. A section on Global Capitalism examines the ethical issues related to culture, justice, the internet, and environmental issues around the world. All content is supported by 40 contemporary case studies that allow students to grapple with a wide range of moral issues

and apply ethical frameworks to a variety of situations at real-world organizations, including GlaxoSmithKline (GSK) in China, Firestone in Liberia, and the Apple Encryption Controversy. The book is complemented by online resources for instructors and students, including: Test Bank, PowerPoint slides, an Instructor's Manual with extensive case notes, Exercises and Activities, Multimedia resources, Quizzes, Flashcards, and SAGE Journal Articles. Suitable reading for undergraduate students on Business Ethics courses.

An Ethical Decision-Making Approach Prentice Hall

A Contemporary Look at Business Ethics provides a 'present day' look at business ethics to include the challenges, opportunities and increased need for ethical leadership in today's and tomorrow's organizations. The book discusses current and future business ethics challenges, issues and opportunities which provides the context leaders and their organizations must navigate. The book includes an in?depth look at lessons learned about the causes of unethical behavior by examining a number of real?world examples of ethical scandals from around the world that have taken place over the past few decades. The analysis of the various ethical scandals focuses on concepts like ethical versus unethical leadership, received wisdom, the bottom?line mentality, groupthink and moral muteness, all of which contribute to the kind of organizational culture and ethical behavior one finds in an organization. The book discusses ethical decision making in general and the increased role of religion and spirituality, in confronting unethical behavior in contemporary organizations. The book also takes an in?depth look at the impact ethical scandals have on employees and more specifically the psychological contract and person?organization ethical fit with the goal of identifying, along with other things, what leaders can do to restore relationships with employees and rebuild the organization's reputation in the eyes of various stakeholders.

Contemporary Issues in Business Ethics Macmillan International Higher Education

Effective managers must accurately assess the legal and ethical ramifications of complex business transactions. This requires familiarity with the basic principles of comparative and international law, including trade, and an understanding of the importance of culturally diverse ethical traditions in all business relationships. *Legal and Ethical Aspects of International Business* is your authoritative guide to the law and ethics of business leadership in the global market. It provides the vehicle for today's and tomorrow's managers to successfully navigate the legal and ethical environment of business around the world. New to the Second Edition: This new edition constitutes a substantial reorganization from the first edition. In particular, the text is now composed of four parts: Part One, Public International Law and Business Ethics Part Two, Global Contracting and Resolution of Private Disputes Part Three, Import and Export Law Part Four, Protecting Ideas, Individuals and Infrastructure The new edition also includes updated cases and new issues, including cybersecurity and sustainability. Professors and student will benefit from: Well-selected and well-edited cases in each chapter help foster discussions. Finely crafted end of chapter exercises support students' grasp of the more difficult concepts. Integrated ethics coverage appears throughout the book. Numerous examples provide context and real-world application of concepts. Rich graphics reinforce key models.

Ethical Issues in Business Berrett-Koehler Publishers

Packed with examples, this book offers a clear and engaging overview of ethical issues in business. It begins with a discussion of foundational issues, including the objectivity of ethics, the content of ethical theories, and the debate between capitalism and socialism, making it suitable for the beginning student. It then examines ethical issues in business in three broad areas. The first is the market. Issues explored are what can be sold (the limits of markets) and how it can be sold (ethics in marketing). The second is work. Topics in this area are health and safety, meaningful work, compensation, hiring and firing, privacy, and whistleblowing. The third area is the firm in society. Here readers explore corporate social responsibility, corporate political activity, and the set of ethical challenges that attend international business. Issues are introduced through real-world examples that underscore their importance and make them come alive. Arguments for opposing positions are given fair hearings and students are encouraged to develop and defend their own views. Key Features Introduces each topic with a real-world example, which is referenced regularly in the subsequent argument. Contains a critical evaluation of capitalism and socialism, with a focus on private property, the market system, and the welfare state. Explores the limits of markets and encourages students to ask what should and should not be for sale. Explores the phenomena of corporate political activity and ethical consumerism. Includes initial chapter overviews and – at the end of each chapter – study questions and suggested additional readings.

A Contemporary Introduction Cambridge University Press

"This book provides a comprehensive overview of the most important ethical issues associated with the expanding world of e-business, and offers relevant theoretical frameworks to ethical issues in all significant areas of e-business"--Provided by publisher.

Business Ethics Oxford University Press

The tools you need to deal with ethical dilemmas in business In today's world, it's increasingly important for all businesses and government agencies to implement ethical conduct in the workplace. Therefore, business ethics has become required coursework for most students in undergraduate and postgraduate business programs. Mapping to a business ethics course, *Business Ethics For Dummies* examines ethical theory and discusses the moral issues facing corporate America. It covers topics such as conflicts of interest, trade secrets and insider trading, product safety and product liability, hiring, drug testing, sexual harassment, diversity, and much more. The basics of ethics and making ethical decisions How-tos on incorporating business ethics in the workplace A discussion of moral issues facing corporate America Packed with easy-to-understand explanations and examples, *Business Ethics For Dummies* is a helpful resource for students, professors, business owners, managers, and CEOs who seek a clear understanding of the importance of ethics.

Ethical Issues in Business Pearson College Division

CONTEMPORARY ISSUES IN BUSINESS ETHICS, 6E introduces readers to business ethics by focusing on the influence of market mechanisms and social values on workplace norms. And because business is increasingly a global enterprise, this edition emphasizes the role of ethics both at home and abroad. CONTEMPORARY ISSUES IN BUSINESS ETHICS, 6E also takes time to look at ethics from the unique perspectives of either employee or employer. Along the way, readers also learn about such topics as ethical relativism, ethics and the law, virtue ethics, and ethical decision-making. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Issues in Business Ethics and Corporate Social Responsibility Cengage Learning

For undergraduate or MBA-level courses in Business Ethics, Business and Society, and Ethical and Legal Environment of Business. One of the most widely used texts on business ethics, this collection of readings and cases begins with an introduction to moral reasoning, and then provides students with a wide range of opportunities to apply ethical theory to real contemporary managerial situations including issues facing managers in the next century. Each section contains a case study and relevant theoretical articles that range from classics in philosophy to modern commentaries by business practitioners.

A Stakeholder and Issues Management Approach Routledge

An authoritative and practical guide to business ethics, written in an accessible question and answer format In today's turbulent business climate, business ethics are more important than ever. Surveys of employees show that misconduct is on the rise. Cover stories reporting indictments, prosecutions, and penalties imposed for unethical business conduct appear almost daily. Legislatures pass requirements elevating the levels of punishment and their enforcement against corporations and individuals. Organizations face pressure to design and implement effective ethics and compliance

programs. As a result, businesses and businesspeople are increasingly worried that their conduct might cross lines that put their wealth and reputations at risk. Business Ethics: What Everyone Needs to Know (R) explains what those lines are, how not to cross them, and what to do when they are crossed. Written for both businesspeople facing real-life dilemmas and students studying ethical questions, this succinct book uniquely surveys materials from moral philosophy, behavioral science,

and corporate law, and shares practical advice. Experts J.S. Nelson and Lynn A. Stout cover a wide array of essential topics including the legal status of corporations, major ethical traps in modern business, negotiations, whistleblowing and liability, and best practices. Written in a short question-and-answer style, this resource provides engaging and readable introductions to the basic principles of business ethics, and an invaluable guide for dealing with ethical dilemmas.
