Avoiding Armageddon Varying Dimensions of India's National Security

China's exponential rise and America's relative decline have led to a transition of power in contemporary Asia. The US pivot towards Asia is the most evident manifestation of such a transition, and Indian foreign policy shows signs of a hedging strategy, with attempts to strengthen ties with both China and the US.

Varying Dimensions of India's National Security Routledge

"Traces the history of the United States, India, and Pakistan as British colonies and their interaction in the twentieth and twenty-first centuries, particularly in regard to relations between India and Pakistan, nuclear proliferation, the global jihad movement, and U.S. diplomatic efforts to stabilize conditions on the subcontinent"--Provided by publisher.

Interim National Security Strategic Guidance Routledge

India has the world's fourth largest military and one of the biggest defence budgets. It asserts its political and military

profile in South Asia and the Indian Ocean region. The nation has been in the midst of an ambitious plan to modernize its largely Soviet-era arms since the late 1990s and has spent billions of dollars on latest high-tech military technology. This handbook: canvasses over 60 years of Indian defence policy and the major debates that have shaped it; discusses several key themes such as the origins of the modern armed forces in India; military doctrine and policy; internal and external challenges; and nuclearization and its consequences; includes contributions by well-known scholars, experts in the field and policymakers; and provides an annotated bibliography for further research. Presented in an accessible format, this lucidly written handbook will be an indispensable resource for scholars and researchers of security and defence studies, international relations and political science, as well as for government think tanks and policymakers. *NATIONAL SECURITY STRATEGY: SECURING INDIA INTERNALLY AND EXTERNALLY* New Delhi : S. Chand Published under the auspices of the School of International Studies, Jawaharlal Nehru University, New Delhi. **Look East, Cross Black Waters** Taylor & Francis Examines to what degree national security theories have proven valid and suggests an updated security doctrine for Israel.

Global Trends 2040 MyARSu

India's foreign policy, out of the structural confines of the Cold War strategic framework, has become more expansive in defining its priorities over the last few years. With the rise of its economic and military capabilities and strategic interests, India has shaped a diplomacy that is much more aggressive in the pursuit of those interests. Tracing the trajectory of India's foreign policy in the 21st century, this book examines the factors that have shaped the Indian response towards this emerging international security environment. Including a new Afterword, this updated volume looks at the major influences that have shaped India's foreign policy in recent years, in the context of its engagements with strategically important regions across the globe, and its relations with major global powers. The volume will prove invaluable to those studying politics and international relations, diplomatic and political history, defence and military studies, and South Asian studies.

Rise of China: Indian Perspective Rowman & Littlefield

For a country that has fought five wars and is hemmed in by nuclear-armed states, India surprisingly does not have a formally declared national security strategy. All the major powers of the world publish documents that spell out their national interests, identify their threats -- political, economic, diplomatic or with regard to security -- and draw up policies to deal with them. The absence of a similar doctrine makes India's defence policy look ad hoc and creates the impression that the country is unprepared to realize its global ambitions. *The New Arthashastra* is a path-breaking attempt to recommend a national security strategy for India. It does the difficult groundwork for India's political leaders and policymakers by bringing the best names -- from within the community as well as from the armed forces and academia -- to the ideating table. This collection of twenty essays covers a wide range of topics: nuclear deterrence, defence spending, the domestic production of weapons, and bracing for the wars of the future that will be fought in space and cyberspace. Most important, it presents a roadmap to address India's chief concerns: Chinese assertiveness and Pakistan's unrelenting proxy war. Informed by the expertise of analysts with inside-out knowledge of their domains, *The New Arthashastra* offers enduring and practical insights to strategists and lay readers alike.

Terrorism in India AFRICAN SUN MeDIA

The Indian Ocean Region (IOR) is one of the most areas of the world in human terms. This study provides a comprehensive overview of the subregions and countries in the IOR, drawing heavily on a new country risk assessment model developed by Abdullah Toukan, a senior associate with the Burke Chair at CSIS. [Tribal Government Amendments to the Homeland Security Act of 2002](#) Lancer Publishers

Points out how vulnerable America's energy system is to sabotage, technical failures, and natural disasters, and discusses the advantages of decentralization

A National Security Strategy for India Oxford University Press, USA

This book assesses Mongolia's position in the security calculus of Northeast Asia and presents the policy outlooks of major powers vis-a-vis the region, including the United States, Japan, China, Russia, and India. Ground-breaking and modernistic in its approach, the book treats the often marginalised and landlocked small power state of Mongolia as a critical regional actor, particularly with regards to managing ties with encircling major powers Russia and China and assist in engaging the nuclear state of North Korea through dialogue mechanisms. This compilation of chapters by distinguished scholars explores Mongolia in the Northeast Asian geographical space within the context of three

major themes: nuclear proliferation, environmental security, and socio-economic and civilisational conflicts. The book provides a multidisciplinary and multinational approach to Mongolia's role in the region's strategic landscape. It moves the regional security discussion beyond major power politics, North Korea's denuclearisation, and the impasse on the Korean Peninsula to discuss and analyse other underappreciated challenges facing the region. Considering Mongolia's role in achieving peace and stability in the neighbourhood, the book will be a valuable resource for researchers and readers in International Relations, Political Science, and Asian Studies.

Brittle Power Routledge

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) *Global Trends 2040-A More Contested World* (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

This book, based on extensive field research, examines the Indian state's response to the multiple insurgencies that have occurred since independence in 1947. In reacting to these various insurgencies, the Indian state has employed a combined approach of force, dialogue, accommodation of ethnic and minority aspirations and, overtime, the state has established a tradition of negotiation with armed ethnic groups in order to bolster its legitimacy based on an accommodative posture. While these efforts have succeeded in resolving the Mizo insurgency, it has only incited levels of violence with regard to others. Within this backdrop of ongoing Indian counter-insurgency, this study provides a set of conditions responsible for the groundswell of insurgencies in India, and some recommendations to better formulate India's national security policy with regard to its counter-insurgency responses. The study focuses on the national institutions responsible for formulating India's national security policy dealing with counter-insurgency -- such as the Prime Minister's Office, the Cabinet Committee on Security, the National Security Council, the Ministry of Home Affairs and the Indian military apparatus. Furthermore, it studies how national interests and values influence the formulation of this policy; and the overall success and/or failure of the policy to deal with armed insurgent movements. Notably, the study traces the ideational influence of Kautilya and Gandhi in India's overall response to insurgencies. Multiple cases of armed ethnic insurgencies in Assam, Manipur, Mizoram, and Nagaland in the Northeast of India

and the ideologically oriented Maoist or Naxalite insurgency affecting the heartland of India are analysed in-depth to evaluate the Indian counter-insurgency experience. This book will be of much interest to students of counter-insurgency, Asian politics, ethnic conflict, and security studies in general.

Wiley Handbook of Science and Technology for Homeland Security, 4 Volume Set Brookings Institution Press

Awareness on National Security is vital part of whole UPSC Civil Services Examination. Based on the past experiences, the topic of National Security starts from - Preliminary Examination in the form of objective questions on various defense equipment's or military exercises. - In Main Examination, around 4 questions (50 Marks) of General Studies-III are directly related to the topics covered under National Security. - Finally, in the Interview Stage, at least one interview board member is more likely to ask questions related to internal and external security of India, if not more. So, based on these needs of the examination and past experiences, our book 'National Security Strategy: Securing India Internally and Externally' carries five broad chapters with some other sections to develop a holistic understanding on the internal and external security environment of India. Help is taken from not just the recent National Security perspectives but also from our past with the works of Kautilya (Chanakya) and wise advice's from Mahabharata and other Sages. All of that is condensed to impart information on not just the topics of Civil Service Examination topics, i.e.- □Linkages between development and spread of extremism; □Role of external state and non-state actors in creating challenges to internal security; □Challenges to internal security through communication networks, role of media and social networking sites in internal security challenges, basics of cyber security; money-laundering and its prevention; □Security challenges and their management in border areas - linkages of organized crime with terrorism; and □Various Security forces and agencies and their mandate But to give detailed perspectives on the war, national security strategy and future challenges to be faced by India, so that you can develop your own understanding on the whole topic of National Security and answer questions based on greater insights. We would suggest our readers to first have a basic reading of the book and later, segregate the topics for various stages of Civil Services Examination based on the Syllabus given at the start of book and previous year Main Examination questions given at the end of book. The Chapter list of the book is as follows: CHAPTER 1 - Understanding National Security CHAPTER 2 - Conflict, Negotiations and War CHAPTER 3 - Our Leadership Structure & Mandate of Executive Agencies CHAPTER 4 - Challenges to Internal Security of India & Solutions CHAPTER 5 - Challenges to External Security of India & Solutions This book can also be used by avid security learners and aspirants preparing for other competitive examinations like CAPF, CDS, NDA etc.

Intelligence Greenwood Publishing Group

Highlights include:; An updated look at national security threats, military operations, and homeland security challenges ; An analysis of the evolving roles of the president, Congress, the intelligence community, the military, and other institutions involved in national security; A revised consideration of the strengths, limitations, and employment of instruments of national power, including diplomacy, information, economic tools, and armed forces; An exploration of the economic and national security implications of globalization; An enhanced examination of the proliferation of transnational threats, including security challenges in space and in cyberspace; A new assessment of how international, political, and economic trends may change US leadership of the post-World War II international order; A comprehensive update on changing dynamics in key states and

regions, including Russia, China, East Asia, the Middle East, South Asia, Europe, Sub-Saharan Africa, and Latin America An authoritative book that explains US national security policy, actors, and processes in a wide-ranging yet understandable way, American National Security addresses key issues, including challenges to the free and open international order, the reemergence of strategic competition among great powers, terrorism, economic and fiscal constraints, and rapid advances in information and technology.

Global Trends 2030 Praeger

India's core goals for Southeast Asia are in basic harmony with those of the United States, including regional stability, peaceful settlement of territorial disputes, and containment of radicalism Still, America should not expect India to enter any sort of alliance, nor join any coalition to balance against China, but should demonstrate strategic patience and willingness to cultivate a long-term relationship.

The Oxford Handbook of Indian Foreign Policy OUP India

This book analyzes the paradox that despite being a national security state, Pakistan has become even more insecure in the post-Cold War era. It provides an in-depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society. The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period. By examining the national security state, militarization, democracy and security, proxy wars and the hyper-military-industrial complex, the author illustrates how the vanguard role of the military created considerable structural, sociopolitical, economic, and security problems in Pakistan. Furthermore, the author argues that the mismatch between Pakistan's national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country's military-industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan, this book will be of interest to academics in the field of South Asian Politics and Security, South Asian Foreign and Security Policy, International Relations, Asian Security, and Cold War Studies.

Indian National Security and Counter-Insurgency Cosimo Reports

The remarkable rise of China in the last three decades has had a mixed global reaction. While many countries have welcomed this rise, some of China's neighbours have viewed it with concern if not consternation. What does the rise of China signify for India, given our none too smooth relationship with China and latter's unqualified support to Pakistan in military and nuclear field? What do our leading companies feel about China? Would the Indian Ocean be the scene of stiff confrontation between India and China? Or is "China Threat" an exaggeration or hype as some would hold? This book is the result of intense discussions on the above questions in a seminar held on Dec 20/21, 2011 at the National Institute of Advanced Studies, Bangalore. The Chapters in this book, based on papers presented by leading experts on China both from the Government and the Private sectors covers almost all aspects of China from internal political developments, foreign policy to economy, S&T developments and Strategic capabilities, particularly with respect to India. China's growing military and economic clout and impressive advances in trade and technology have all been analysed by various speakers who are well known for their expertise on china. China's views on India have also been brought out succinctly. The Seminar was the

first major interaction on a subject of strategic national interest. It is hoped that the book would contribute to better understanding of China by both the interested citizens of this country and the policy makers.
