For twenty-four years, in an odd and intimate warren of rooms, San Franciscans of every variety have come to the Zuni Café with high expectations and have rarely left disappointed. In *The Zuni Café Cookbook*, a book customers have been anticipating for years, chef and owner Judy Rodgers provides recipes for Zuni's most well-known dishes, ranging from the Zuni Roast Chicken to the Espresso Granita. But Zuni's appeal goes beyond recipes. Harold McGee concludes, "What makes *The Zuni Café Cookbook* a real treasure is the voice of Zuni's Judy Rodgers," whose book "repeatedly sheds a fresh and revealing light on ingredients and dishes, and even on the nature of cooking itself." Deborah Madison (*Vegetarian Cooking for Everyone*) says the introduction alone "should be required reading for every person who might cook something someday."

San Francisco is a relatively young city with a well-deserved reputation as a food destination, situated near lush farmland and a busy port. San Francisco's famous restaurant scene has

been the subject of books but the full complexity of the city's culinary history is revealed here for the first time. This food biography presents the story of how food traveled from farms to markets, from markets to kitchens, and from kitchens to tables, focusing on how people experienced the bounty of the City by the Bay.

"First published in 1894, with the first English-language edition appearing in 1906, this was the first modern biography of Saint Francis of Assisi, the 13th-century Roman Catholic monk and founder of the Order of Friars Minor, known as the Franciscans. A bestseller in its time, and ultimately translated into 55 languages, this lovely work by French clergyman, historian, and theologian PAUL SABATIER (1858-1928) tells the story of the monks life in clear, sympathetic language, from his youth and conversion to his suffering of stigmata in later years, with a special emphasis on his kind heart and the love of nature and animals that has made him beloved to Christians. Readers of history, biography, and religious literature will enjoy this lovely book." Translations from the Chronicle of the Franciscan Salimbene, 1221-1288 Cosimo, Inc.

"Aside from Infinity," is similar to John’s earlier book, "Beside the Benign." It consists of twelve sci-fi short stories composed in a similar style to the Twilight Zone TV series. The tales are intended to be an entertaining mix of science, history, fiction, reality, and humor. Each story also relates in some manner to its song title. Topics include: artificial intelligence, dark matter, time travel, parallel universes, and quantum entanglement.
