Tjugo år har gått sedan Tio tankar om tid utkom första gången. Resten är historia, 650 000 exemplar senare. Få böcker har påverkat våra tankar som denna lilla bok. Och Bodil Jönsson, minst lika älskad idag som hon var för tjugo år sedan, fortsätter att tänka kring tid och hur vi förhåller oss till den. Idag är vi lika förvirrade som någonsin, men skillnaden är att vi har gett upp. Numera uppfattar vi stress som något helt naturligt. Alla har alltid ont om tid. Så är det bara, basta. Men Bodil Jönsson vill inte acceptera en sådan inställning. I Gott om tid bjuder hon på nya reflektioner.

Open publication The volume deals with previously undescribed morphosyntactic variations and changes appearing in settings involving language contact. Contact-induced changes are defined as dynamic and multiple, involving internal change as well as historical and sociolinguistic factors. A variety of explanations are identified and their relationships are analyzed. Only a multifaceted methodology enables this fine-grained approach to contact-induced change. A range of methodologies are proposed, but the chapters generally have their roots in a typological perspective. The contributors recognize the precautionary principle: for example, they emphasize the difficulty of studying languages that have not been described adequately and for which diachronic data are not extensive or reliable. Three main perspectives on contact-induced language change are presented. The first explores the role of multilingual speakers in contact-induced language change, especially their spontaneous innovations in discourse. The second explores the differences between ordinary contact-induced change and change in endangered languages. The third discusses various aspects of the relationship between contact-induced change and internal change.

som Karl XII. Man har spekulerat kring, tolkat och omvärderat krigarkonungen. Ändå förblir han en gåta. Vilka var hans drivkrafter? Hur såg han på sin roll? Varför gifte han sig aldrig? I Ernst Brunners magnifika levnadsskildring kommer konungen äntligen själv till tals. Ernst Brunner är en av våra främsta prosaister och lyriker. Förutom ett stort antal diktsamlingar och romaner har han i biografisk form skildrat Edith Södergran, Carl Michael Bellman och Jacob Johan Anckarström. Biografen om Karl XII, Carolus Rex, publicerades första gången 2005.

Two brothers in a long feud with each other. The one foregrounds the psychoanalysis, the other the greatness, the other always in the shadow of the brother's shadow. In his roman debut depicts Håkan Bravinger the brothers Bjerres complicated relationship through some decisive and dramatic events in their lives. The brothers' relationship was constantly loaded, but became especially difficult to handle when Andreas, twenty-five years old, married Amelie Posse, and on the wedding day was told that the brother Poul had married Amelie's mother, Gunhild. Evident family tensions, feelings of inferiority and sexual fantasies - all contribute to the brothers' relationship. Poul Bjerre (1876-1964) belonged to the inner circle of Freud and introduced him to Sweden. Andreas Bjerre (1879-1925) was Poul's younger brother, a trained criminal psychologist, who in his entire life stood in the shadow of the brother. The book is based on diaries and letters but is still a free interpretation of the brothers' relationship. Håkan Bravinger was born in 1968 and has previously published two collections of poetry.

Dima does not know how long he has wandered. He does not know how old he is at this point. All he knows is that he has taken the whole way from Saratov to Vienna. The long way, via Finland. And now he is suddenly here, tired and hungry and all alone. He was told that the police would catch him. What has he done wrong? When Beatrix von Bergendorf sees a thin young man sitting on a park bench, she is almost overcome with pity for him. She does not know that his wife is not impressed with him. She does not know that she has left the boy on the street! What role does he play for the fact that he is Russian? He has almost lost his identity.

till gästrummet förrän ryktet går som en löpeld genom Wiens societet. Stackars Trixi, hon har ju redan blivit lurad en gång, av den där spanjoren hon brukade hänga ihop med. Vad är det nu för någon hon tagit sig an? Och går han verkligen att lita på? Jascha Golowanjuk (1905-1974) var en svensk författare, musiker och skådespelare. Han föddes i rysk-uzbekiska Samarkand men kom till Danmark som 14-åring och studerade där vid Det Kongelige Danske Musikkonservatorium. Som dansk medborgare flyttade han sedan till Sverige år 1929 och fick sedermera även svenskt medborgarskap. Han medverkade i flera av Kar de Mummas revyer och blev så småningom en av de svenska bibliotekens mest utlånade författare.

*Spatial Interrogatives in Europe and Beyond* Modernista

This in-depth areal-typological study analyzes the grammatical means which are employed in the languages of Europe to express the comparative of inequality/superiority. The extant theories and hypotheses about the morphosyntactic structure and the cross-linguistic distribution of construction types are reviewed. The behavior of comparatives under the conditions of language contact is discussed. Data from more than 170 standard and nonstandard varieties of European languages are scrutinized systematically. The synchronic picture is complemented by a chapter on the diachrony of comparative constructions. The European facts are compared to those of the geographically adjacent Asian and African regions. It is argued that cross-linguistic investigations must take account also of so-called secondary options. These secondary options suggest strongly that

the supposedly dominant role of the particle comparative cannot be upheld for Europe. Moreover, only the secondary options allow us to draw isoglosses which cross the borders between Europe and Asia (and Africa).

### **Anger, Guilt and Shame - Reclaiming Power and Choice** Modernista

The extant generalizations about the grammar of space rely heavily on the analyses of declarative sentences. There is a need to check whether these generalizations also hold in the domain of interrogation. To this end this book analyzes data from some 450 languages (including non-standard varieties). The focus is on paradigms of spatial interrogatives such as English where, whither and whence and their internal organization. These paradigms are checked for recurrent patterns of morphological mismatches (such as syncretism) and different degrees of complexity (e.g. the number of segments). The data-base consists of a large parallel literary corpus (Le petit prince and translations thereof) which is complemented by further sources of information such as descriptive grammars. The data are analyzed from a synchronic perspective. However, diachronic issues are addressed unsystematically, too. It is shown that the distribution of phenomena which characterize paradigms of spatial interrogatives are subject to areal-linguistic factors. This is the first typological study of spatial interrogatives. It provides new insights for students of the grammar of space, morphological paradigms, and language typology.

Judith Hermann har med "All kjærlighets begynnelse" skrevet en roman om kjærlighetens krav og grunnvilkår. Om livets utsatthet og ensomheten både i og utenfor andres selskap. Og ikke minst om hvordan et behov om nærhet kan anta skremmende former. Stella og Jason, et ekteskap, en datter, et enkelt og fint hus i utkanten av byen, en liten hage, et rolig og hverdagslig liv, mest uten Jason som jobber mye. Men en dag står det en mann foran dette huset, en fremmed Stella aldri har sett før. Han sier han gjerne vil snakke med henne. Stella avslår, men han kommer igjen neste dag, og dagen etter. Han vil ikke la henne i fred, og sakte men sikkert eskaleres dette til et terroriserende mareritt som tar over Stellas liv. I et glassklart, brutalt enkelt språk og nærmest irriterende vakre bilder, skildrer Judith Hermann frykten i kjærligheten og det plutselige sammenbruddet i et liv der tryggheten forsvinner. Boken er oversatt av Sverre Dahl Judith Hermann regnes som en av Tysklands beste og mest stilsikre forfattere. Hun ble født i Berlin i 1970, der hun fremdeles bor og skriver. Hermann har tidligere gitt ut tre novellesamlinger, deriblant *Alice* (Pelikanen 2013) som ble nominert til Independent Foreign Fiction Prize. All kjærlighets begynnelse marker hennes debut som romanforfatter.

In modern society it is often supposed that morality is outdated. Everybody should be free to do what they want, and become who they like. This often means lack of meaning and unstable wills. But the human being is a real person, and has to strive to get to know him or herself. This knowledge can only be obtained through truthfulness, true thoughts, and honest feelings. The person will develop when he or she fights to understand the good, to find beauty and truth, to see one's own place in a greater connection, and to engage in reflective dialogue with other persons. Out of this come rules of life such as generosity,

friendship, and love. This is a great challenge that will release the true person, and make the will healthy. It makes morality a necessary guide to reality.

Frankrikes 1900-talshistoria är rik på omvälvande händelser som förändrat landet både kulturellt och politiskt; stora skeenden som fått tiderna att snabbt ta nya riktningar. I den här boken utgår journalisten och Frankrikekännaren Knut Ståhlberg från berättelser ur inflytelserika individers liv, såsom Picasso, Apollinaire och De Gaulle, för att måla en större bild av tidens strömningar. Ståhlberg skildrar denna fascinerande tidsperiod och plats genom människoöden och anekdoter snarare än årtal. Vi får lära känna Ståhlbergs Paris, men även Saties, Aragons och Saint-Exupéry's. Knut Ståhlberg (1919-2015) var en svensk författare och nyhetsjournalist. Han levde och verkade större delar av livet i Paris och arbetade därifrån som utlandskorrespondent för både SVT och SR. 2006 utnämndes han till riddare av franska Hederslegionen.
