"American Vitruvius: an Architects' Handbook of Civic Art. At the end of the second decade of this [the twentieth] century, Werner Hegemann, a German-born urban planning theorist and practitioner, and Elbert Peets, a young American recently graduated from Harvard University's School of Landscape Architecture, joined together in Wisconsin in a professional partnership. The association of these two students of American urbanism culminated in 1922 with *The American Vitruvius: an Architects' Handbook of Civic Art*, a critical text that played an essential role in the definition and promotion of modern American city planning. *American Vitruvius* offers the reader an atlas of design solutions and advocates a humanistic, as well as rational, development of the urban environment. Princeton Architectural Press has reprinted the entire original text including the book's 1203 plates. These illustrations consist of plans, elevations, and perspective views of both European and American cities, spanning in date from the Renaissance to the twentieth century. The republication of this volume suggests the relevance of Hegemann and Peets' approach for contemporary city planning. Today, in the midst of an era responding to the de-humanization of the city, *American Vitruvius* offers a reconciliation of artistic aspects of civic art with scientific theory of city planning -- the authors insist upon a city that allows its residents both pleasure and freedom of expression"-- Front flap.

Riley Blakely and the remainder of Grandview High's french class is heading out on a school trip to Paris. The three weeks in Paris are supposed to be an 'educational opportunity' for this lot. But of course, these hormonal teenagers just cannot abide by the rules. The one rule set by their lovely Mr. Walker: You cannot room with somebody of the opposite gender. So what does this french class do? Room with the opposite gender, with a funny way of picking roommates. Chit picking. Because

hormonal teenagers can just never get enough. Insert Asher West. Her not so secret annoying hater. It's a hate-hate relationship. He's the guy who picked Riley's name. He's the most popular guy in the freaking school and Riley? Not so much. Put the two together and you'll get a whole lot of arguments and awkward moments. They're roommates and they're stuck in Paris, the city of love and the city of lights

Advanced techniques for utilizing the universal healing connections revealed by Taoist astrology and astronomy • Provides meditations and healing techniques based on Taoist astrology • Allows readers to develop a personal practice based on an understanding of their planetary strengths and weaknesses • Includes Taoist star practices for expanding personal awareness into a cosmic field of chi that will support others in their efforts to heal and grow spiritually Taoist Astral Healing provides a step-by-step program for refining our ability to cultivate, circulate, and retain chi from the stars and planets. While the initial focus of Taoism centers on creating physical health that is deeply rooted in the energies provided by the earth, individuals may also draw down energies from the stars and planets to continue to grow in awareness and to develop their full soul potential. Harnessing these energies allows us to break through the cycles of attraction and addiction, promote longevity, and transform the physical and energy body into a "light body" in order to heal ourselves and others. Taoist Astral Healing teaches how to connect the body with the five elemental forces of nature, as well as the moon, sun, planets, stars, and galaxies. Noting the relationships between specific constellations and points on the body--such as the Big Dipper's correspondence to the bones of the skull--the authors offer planetary and stellar meditations that allow the inner and outer universes to become more connected. Following the numerous meditations and techniques provided throughout the book, readers develop a personal practice based on an understanding of their planetary strengths and weaknesses and their own spiritual growth.

Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind— showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

Ever since humans became self-aware, we have struggled to find the meaning of life. The price we paid for becoming intelligent was to become painfully ignorant of the difference between good and evil. Adi, a 10-year-old boy, works together with two old philosophers as they try to unravel the prophecy of a promised King. With insatiable curiosity, Adi must work with the wise men as they rationalize with each other on why and how humans became intelligent. Together they attempt to answer some of the most profound questions related to existence. Does evolution end with human beings or is there an 'Overman' who can reach evolution's pinnacle? Will this Overman be able to define values for humankind? Centuries later a young boy promises his mother that he will always uphold the love that she has taught him. It is a promise that drowns him in the nectar of the gods. Krish grows up to be an engineer and joins a team of scientists as they try to create artificial consciousness in a machine. Krish soon realizes that he has a bigger fight on his hands. A fight to preserve love in a desolate world. His quest for true love ultimately leads him down a path where he comes face to face with a fearsome snake delivering a kiss of death. Humans have come a long way by questioning the nature of objects around us and pushing the limits of our intelligence, but it's now time that we ask the greatest question yet: when does intelligence transcend to become consciousness?

What happens when your best hope for the future is through the past? Voice-over artist Alice avoids telling the truth. It's not lying, exactly, and the freedom of reinvention makes those tough years in the past a little easier to bear. So when she meets writer Clayton Miller, she recognizes the suspicious signs of someone who wants to shrug off his old life. Untangling the web of secrets they've constructed creates an unlikely friendship—until Alice discovers that Clayton has betrayed her in the worst possible way. The author of fifteen international bestsellers, Erica James deftly explores infidelity, bereavement, and the bonds of family with a sparkling voice that will resonate long after the book is finished. Praise for Erica James "Intense, compelling stuff." -OK! magazine "The author writes with a sturdy, feel-good optimism." -Sunday Times "It is a captivating read: beautifully written." -Daily Telegraph "You know you have made it as a storyteller writer when readers simply cannot put your book down...Erica James has this page-turning ability in abundance...I wouldn't have thought this writer could get any better, but she has!" -Welsh Country

The Mogao grottoes in China, situated near the oasis town of Dunhuang on the fabled Silk Road, constitute one of the world's most significant sites of Buddhist art. In some five hundred caves carved into rock cliffs at the edge of the Gobi desert are preserved one thousand years of exquisite murals and sculpture. Mogao, founded by Buddhist monks as an isolated monastery in the late

fourth century, evolved into an artistic and spiritual center whose renown extended from the Chinese capital to the far western kingdoms of the Silk Road. Among its treasures are miles of stunning wall paintings, more than two thousand statues, magnificent works on silk and paper, and thousands of ancient manuscripts, such as sutras, poems, and prayer sheets, which in 1900 were found sealed in one of the caves and then dispersed to museums throughout the world. Illustrated in color throughout, *Cave Temples of Mogao* combines lavish photographs of the caves and their art with the fascinating history of Mogao, Dunhuang, and the Silk Road to create a vivid portrait of this remarkable site. Chapters discuss the development of the cave temples, the iconography of the wall paintings, and the extraordinary story of the rare manuscripts, including the oldest printed book in existence, a ninth-century copy of the Diamond Sutra. The book also describes the long-term collaboration between the Getty Conservation Institute and Chinese authorities in conservation projects at Mogao as well as the caves and the museum that can be visited today. The publication of this book coincides with the centenary of the discovery of the manuscripts in the Library Cave.

1001 Walks You Must Experience Before You Die is the perfect guide to the world's most exhilarating walks. The ever-increasing passion for recreational walking is given fresh impetus with the creation of each new national park and wilderness area, the construction of every new walkway and the clearing of another fresh trail. The growth in popularity of pathways and woodland walks, and the conversion of canal banks and disused railways around the world to mixed-use walk and cycle-ways, means we now have unprecedented access to our cities and to ever-increasing tracts of our rural heritage. The wide-ranging, carefully chosen featured routes vary from the rugged delights of Wales's Pembrokeshire Coastal Path to the lush wilderness of Jamaica and the Harz Witches' Trail high in the German mountains. The hand-picked excursions cover overland paths, urban trails, mountain passes, coastal and shoreline strolls, and walks that explore the heritage of the world's most culturally rich destinations. There are gentle walks for beginners - some lasting barely an hour - and more demanding challenges for seasoned enthusiasts that will take months to achieve. Every page provides a wealth of information about a must-try walk, including start and end points, overall distance, difficulty rating, terrain and an estimation of the time it should take to complete, along with links to specially commissioned digital route maps. In short, 1001 Walks You Must Experience Before You Die is an essential reference guide for all those who love to get out of their cars, get off their bikes and lace up their walking shoes.
