Who's who in American Methodism

IGI Global
New York Times
bestselling author Katy Evans expands upon the intense love story begun in *Real and Mine*—this time from Remington Tate's point of view. Underground fighter Remington Tate is a mystery, even to himself. His mind is dark and light, complex and enlightening. At times his actions and moods are carefully measured, and at others, they spin out of control. Through it all, there's been one constant: wanting, needing, loving, and protecting Brooke Dumas. This is his story; from the first moment he laid eyes on her and knew, without a doubt, she would be the realest thing he's ever had to fight for.

As a result of his visits to classrooms across the nation, Brown has compiled an engaging, thought-provoking collection of classroom vignettes which show the ways in which national, state, and local school politics translate into

changed classroom practices. "Captures the breadth, depth, and urgency of education reform".--Bill Clinton.

"Together, the words and pictures work seamlessly to deliver a powerful message: What we do matters."—R. J. Palacio, *The New York Times*
When the news reports are flooded with tales of hatred and fear, a girl asks her papa what she can do to make the world a better place. "Come with me," he says. Hand-in-hand, they walk to the subway, tipping their hats to those they meet. The next day, the girl asks her mama what she can do—her mama says, "Come with me," and together they set out for the grocery, because one person doesn't represent an entire race or the

people of a land. After dinner that night, the little girl asks if she can do something of her own—walk the dog . . . and her parents let her go. "Come with me," the girl tells the boy across the hall. Walking together, one step at a time, the girl and the boy begin to see that as small and insignificant as their part may seem, it matters to the world. In this lyrical and timely story, author Holly M. McGhee and illustrator Pascal Lemaître champion the power of kindness, bravery, and friendship in the face of uncertainty.

"Brilliant... riveting, scary, cogent, and cleverly argued."—Beth Macy, author of *Dopesick* As

heard on Fresh Air This book is about pleasure. It's also about pain. Most important, it's about how to find the delicate balance between the two, and why now more than ever finding balance is essential. We're living in a time of unprecedented access to high-reward, high-dopamine stimuli: drugs, food, news, gambling, shopping, gaming, texting, sexting, Facebooking, Instagramming, YouTubing, tweeting... The increased numbers, variety, and potency is staggering. The smartphone is the modern-day hypodermic needle, delivering digital dopamine 24/7 for a wired generation. As such we've all become vulnerable to compulsive overconsumption. In Dopamine Nation, Dr. Anna Lembke, psychiatrist and author, explores the exciting new scientific discoveries that explain why the relentless pursuit of pleasure leads to pain...and what to do about it. Condensing complex neuroscience into easy-to-understand metaphors, Lembke illustrates how finding contentment and connectedness means keeping dopamine in check. The lived

experiences of her patients are the gripping fabric of her narrative. Their riveting stories of suffering and redemption give us all hope for managing our consumption and transforming our lives. In essence, Dopamine Nation shows that the secret to finding balance is combining the science of desire with the wisdom of recovery. New York HarperCollins From the host of the YouTube channel that went viral—Dad, How Do I?—comes a book that's part memoir/part inspiration/part DIY. Rob Kenney's father left him and his seven siblings when he was fourteen years old, and the youngest had to fend for themselves. He wished that he had someone who could teach him the basics—how to tie a tie, jump-start a car, unclog a drain, use tools properly—as well as succeed in life. But he and his siblings had to figure these things out on their own. Now a father himself, Rob decided that he would help people out by providing how-to tips as well as advice—and even throw in some bad dad jokes. He started a YouTube channel for anyone looking for fatherly advice, and in the course of three months, gained a following of

nearly 2.5 million subscribers, with millions of views for his how-to and inspirational videos. In this book, Rob shares his story of overcoming a difficult childhood with the strength of faith and family, and offers inspiration and hope. In addition, he provides 50 practical DIY instructions (30 of which will be unique to the book), illustrated with helpful line drawings.

We are writing this book to provide useful information about this common condition. My hope is that the information presented here answers your questions, makes you feel better, and equips you to make the best decisions possible regarding optimum treatment. During the 20 years of my practice as an orthopaedic surgeon, I have seen a number of significant changes in this

field. We have a greater understanding of the nature of scoliosis. We also have a much wider variety of treatment options available to our patients—including non-operative conservative treatment—and our treatments are more successful than ever. I am deeply indebted to Amber Sentell Mizerik for her help in the planning, organization, and writing of this book. An expert Physician Assistant who has been with me throughout my practice, her experience and insight have greatly enriched the content of this book. Trying to find some normalcy during the Covid-19 pandemic, Brian Murphy and his family are on a summer excursion in Cape Cod when his wife, Emma, comes down with concerning flu-like

symptoms. But their leisurely return home to New York City quickly becomes a race to the local hospital as she suddenly begins seizing in the car. At the ICU, she is diagnosed with eastern equine encephalitis, a rare and highly lethal mosquito-borne viral disease seemingly caught during one of their evening cookouts. Complicating the situation further, Brian and Emma's young daughter then begins to exhibit alarming physical and behavioral symptoms, too. Emma's harrowing hospital stay becomes even more fraught when Brian receives a staggering hospital bill full of outrageous charges and murky language. To add insult to injury, his health insurance company refuses to cover any of the cost, citing dubious clauses in Brian's policy. Forced to choose between the ongoing care of family and bills he can never pay, and furious at a shockingly indifferent healthcare system, Brian vows to seek justice. But to get to the bottom of the predatory practices targeting his loved ones and countless others, he must uncover the dark side of an industry that has strayed drastically

from its altruistic roots—and bring down the callous executives preying on the sick and defenseless before the virus can claim even more people . . .
