*What is Music Literacy?* Routledge  
Fresh and innovative takes on the dissemination of music in manuscript, print, and, now, electronic formats, revealing how the world has experienced music from the sixteenth century to the present. This collection of essays examines the diverse ways in which music and ideas about music have been disseminated in print and other media from the sixteenth century onward. Contributors look afresh at unfamiliar

facets of the sixteenth-century book trade and the circulation of manuscript and printed music in the seventeenth to nineteenth centuries. They also analyze and critique new media forms, showing how a dizzying array of changing technologies has influenced what we hear, whom we hear, and how we hear. The repertoires considered include Western art music -- from medieval to contemporary -- as well as popular music and jazz. Assembling contributions from experts in a wide range of fields, such as musicology, music theory, music history, and jazz and popular music studies, *Music in Print and Beyond: Hildegard von*

Bingen to The Beatles sets new standards for the discussion of music's place in Western cultural life.

Contributors: Joseph Auner, Bonnie J. Blackburn, Gabriela Cruz, Bonnie Gordon, Ellen T. Harris, Lewis Lockwood, Paul S. Machlin, Roberta Montemorra Marvin, Honey Meconi, Craig A. Monson, Kate van Orden, Sousan L. Youens. Roberta Montemorra Marvin teaches at the University of Iowa and is the author of *Verdi the Student -- Verdi the Teacher* (Istituto Nazionale di Studi Verdiani, 2010) and editor of *The Cambridge Verdi Encyclopedia* (Cambridge University Press, 2013). Craig A. Monson is Professor of Musicology at Washington University (St Louis, Missouri) and is the author of *Divas in the Convent: Nuns, Music, and Defiance in Seventeenth-*

Nicknamed the “Godmother of Punk,” Patti Smith rose to fame during the 1970s New York counterculture movement where she welcomed a new breed of rock and roll. Smith sanctioned the presence of a strong-willed woman in the mainstream rock community by breaking not only the fragile glass ceiling, but also the “rules” about

women on the rock stage. Smith pushed right up to the front of the punk scene, stripping down sexual, religious, and emotional barriers to create a raw, viscerally personal message. In *Patti Smith: America's Punk Rock Rhapsodist*, musician and historian Eric Wendell delves into the volatile mix of religious upbringing and musical and literary influences that gave shape to Smith's lyrics, music, and artistic output. Wendell explores how Smith's androgynous stage presence pulled the various societal triggers, adding a new layer of meaning to popular music performance. Songwriter and singer, performance artist and poet, Smith created work that drew together biography, history, and music into a powerful collage of an artist who shaped

a generation of musicians. For poets and performers, as well as fans of Patti Smith and punk rock history, *Patti Smith: America's Punk Rock Rhapsodist* is the perfect introduction to Smith's achievements and the politics and art of a generation that is still felt.

A middle grade adaptation of the adult bestseller that chronicles what The New York Times deemed "one of the great athletic feats of any kind, ever": Alex Honnold's free-solo ascent of El Capitan in Yosemite National Park. On June 3, 2017, as seen in the Oscar-winning documentary *Free Solo*, Alex Honnold achieved what most had written off as unattainable: a 3,000-foot vertical climb of El Capitan in Yosemite National Park, without a rope or harness. At the time, only a few knew what he was attempting to do, but after topping out at 9:28 am, having spent just under four hours on this historic feat, author Mark Synnott broke the story for National Geographic

and the world watched in awe. Now adapted for a younger audience, *The Impossible Climb* tells the gripping story of how a quiet kid from Sacramento, California, grew up to capture the attention of the entire globe by redefining the limits of human potential through hard work, discipline, and a deep respect for the natural world.

Imagine mathematics, imagine with the help of mathematics, imagine new worlds, new geometries, new forms. Imagine building mathematical models that make it possible to manage our world better, imagine combining music, art, poetry, literature, architecture and cinema with mathematics. Imagine the unpredictable and sometimes

counterintuitive applications of mathematics in all areas of human endeavour. Imagination and mathematics, imagination and culture, culture and mathematics. This sixth volume in the series begins with a homage to the architect Zaha Hadid, who died on March 31st, 2016, a few weeks before the opening of a large exhibition of her works in Palazzo Franchetti in Venice, where all the Mathematics and Culture conferences have taken place in the last years. A large section of the book is dedicated to literature, narrative and mathematics including a contribution from Simon Singh. It discusses the role of media in mathematics, including museums of science, journals and movies. Mathematics and applications, including

blood circulation and preventing crimes using earthquakes, is also addressed, while a section on mathematics and art examines the role of math in design. A large selection presents photos of mathematicians and mathematical objects by Vincent Moncorge. Discussing all topics in a way that is rigorous but captivating, detailed but full of evocations, it offers an all-embracing look at the world of mathematics and culture.

**Every Song Ever** Open Road Media Twentieth- and Twenty-First-Century Song Cycles: Analytical Pathways Toward Performance presents analyses of fourteen song cycles composed after the turn of the twentieth century, with a focus on offering ways into the musical and poetic structure of each cycle to

performers, scholars, and students alike. Ranging from familiar works of twentieth-century music by composers such as Schoenberg, Britten, Poulenc, and Shostakovich to lesser-known works by Van Wyk, Sviridov, Wheeler, and Sánchez, this collection of essays captures the diversity of the song cycle repertoire in contemporary classical music. The contributors bring their own analytical perspectives and methods, considering musical structures, the composers' selection of texts, how poetic narratives are expressed, and historical context. Informed by music history, music theory, and performance, Twentieth- and Twenty-First-Century Song Cycles offers an essential guide into the contemporary art-music song cycle for performers, scholars, students,

and anyone seeking to understand this unique genre.

BrownBooks.ORM (Music Pro Guides). Today, musical composition for films is more popular than ever. In professional and academic spheres, media music study and practice are growing; undergraduate and postgraduate programs in media scoring are offered by dozens of major colleges and universities. And increasingly, pop and contemporary classical composers are expanding their reach into cinema and other forms of screen entertainment. Yet a search on Amazon reveals at least 50 titles under the category of film music, and, remarkably, only a meager few actually allow readers to see the music itself, while none of them examine landmark scores like *Vertigo* , *To Kill a Mockingbird* , *Patton* , *The Untouchables* , or *The Matrix* in the

detail provided by *Scoring the Screen: The Secret Language of Film Music*. This is the first book since Roy M. Prendergast's 1977 benchmark, *Film Music: A Neglected Art*, to treat music for motion pictures as a compositional style worthy of serious study. Through extensive and unprecedented analyses of the original concert scores, it is the first to offer both aspiring composers and music educators with a view from the inside of the actual process of scoring-to-picture. The core thesis of *Scoring the Screen* is that music for motion pictures is indeed a language, developed by the masters of the craft out of a dramatic and commercial necessity to communicate ideas and emotions instantaneously to an audience. Like all languages, it exists

primarily to convey meaning. To quote renowned orchestrator Conrad Pope (who has worked with John Williams, Howard Shore, and Alexandre Desplat, among others): "If you have any interest in what music 'means' in film, get this book. Andy Hill is among the handful of penetrating minds and ears engaged in film music today."

Robert Schumann was a unique personality in 19th century music: a celebrated music critic and champion of new composers as well as a talented performer and composer himself, he did much to modernize the literature and performance style for the piano. This book covers the key period of c. 1815-55, exploring how the generation that came after Beethoven was central

in reshaping and refining the conception of the concerto style, and particularly the piano concerto. It relates Schumann's own compositional development to his musical environment, recreating the exciting milieu in which Schumann and his contemporaries lived and worked. Written in scholarly, but non-technical language, Robert Schumann and the Development of the Piano Concerto will appeal to college and conservatory teachers and students, as well as music connoisseurs. Also includes 60 musical examples.

\*A Cosmopolitan Best Book of Summer \*  
 One of BuzzFeed's Most Anticipated LGBTQ+ Books\* An “exquisite...too lovely to bear” (The New York Times Book Review) debut novel from an award-winning writer: a playful and daring tale about a teenage ghost who falls in love with the writer George Sands. In 1473, fourteen-year-old Blanca

dies in a hilltop monastery in Mallorca. Nearly four hundred years later, when George Sand, her two children, and her lover Frederic Chopin arrive in the village, Blanca is still there: a spirited, funny, righteous ghost, she's been hanging around the monastery since her accidental death, spying on the monks and the townspeople and keeping track of her descendants. Blanca is enchanted the moment she sees George, and the magical novel unfolds as a story of deeply felt, unrequited longing—a teenage ghost pining for a woman who can't see her and doesn't know she exists. As George and Chopin, who wear their unconventionality, in George's case, literally on their sleeves, find themselves in deepening trouble with the provincial, 19th-century villagers,

Blanca watches helplessly and reflects on the circumstances of her own death (which involved an ill-advised love affair with a monk-in-training). Charming, original, and emotionally moving, this “deeply wild debut follows the unconventional love triangle” (Cosmopolitan) between George, Chopin, and Blanca—a gorgeous and surprising exploration of artistry, desire, and life after death.

Magazine A deeply reported insider perspective of Alex Honnold's historic achievement and the culture and history of climbing. "One of the most compelling accounts of a climb and the climbing ethos that I've ever read."—Sebastian Junger In Mark Synnott's unique window on the ethos of climbing, his friend Alex Honnold's astonishing free solo ascent of El Capitan's 3,000 feet of sheer granite is the central act. When Honnold topped out at 9:28 A.M. on June 3, 2017, having spent fewer than four hours on his historic ascent, the world gave a collective gasp. The New York Times described it as "one of the great athletic feats of any kind, ever." Synnott's personal history of his own obsession with climbing since he was a teenager—through professional climbing

triumphs and defeats, and the dilemmas they render—makes this a deeply reported, enchanting revelation about living life to the fullest. What are we doing if not an impossible climb? Synnott delves into a raggedy culture that emerged decades earlier during Yosemite's Golden Age, when pioneering climbers like Royal Robbins and Warren Harding invented the sport that Honnold would turn on its ear. Painting an authentic, wry portrait of climbing history and profiling Yosemite heroes and the harlequin tribes of climbers known as the Stonemasters and the Stone Monkeys, Synnott weaves in his own experiences with poignant insight

and wit: tensions burst on the mile-high northwest face of Pakistan's Great Trango Tower; fellow climber Jimmy Chin miraculously persuades an official in the Borneo jungle to allow Honnold's first foreign expedition, led by Synnott, to continue; armed bandits accost the same trio at the foot of a tower in the Chad desert . . . The Impossible Climb is an emotional drama driven by people exploring the limits of human potential and seeking a perfect, choreographed dance with nature. Honnold dared far beyond the ordinary, beyond any climber in history. But this story of sublime heights is really about all of us. Who doesn't need to face down fear and make the most of the time we have?
