"The present text makes an attempt to give comprehensive approach to the foundation of nursing management and can be treated as the framework of nursing service management. The efforts in this book have been aimed at articulating and systematizing the defined framework or foundation for management of nursing services. The book provides a comprehensive introduction to nursing management for undergraduate, graduate, and practice nurses. At the master's level the text provides not only substantive content related to management but also practical applications based on evidences and author's experiences in teaching nursing management at various educational levels. The chapters have been sequenced to facilitate ease in reading and understanding. This textbook is divided into ten units, with each unit focusing on one of the major domains of nursing management. The whole subject matter has been presented in a simple language and lucid style for the benefit of beginners as well experienced in the discipline of nursing management. Use of diagrams, tables and boxes has been opted to make the

subject self-explanatory. Each chapter is also supported by carefully selected references for the benefit of readers who might be interested in exploring the topic(s) further."--Publisher description.

For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care *Child Health Nursing: Partnering with Children & Families* promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020.
