Single Best Answer (SBA) examinations are an increasingly popular means of testing medical students and those undertaking postgraduate qualifications in a number of subject areas. Written by a

final-year medical student, junior doctors, and experienced clinicians, 450 Single Best Answers in the Clinical Specialties provides invaluable guidance from authors who understand from personal experience that detailed and accurate explanations are the key to successful revision. The presentation of questions arranged by specialty area, coupled with the clear discussion of how the correct answer was reached and other options ruled out for every question, make this book an

excellent learning aid during all stages of clinical studies, and particularly while preparing for medical finals.

Oxford Assess and Progress: Clinical Medicine Oxford University Press
Maximise your exam success with this essential revision guide. The third edition of Oxford Assess and Progress: Clinical Medicine features over 550 Single Best Answer questions. Packed with questions written by practicing clinicians and educators, this revision tool is an

authoritative guide on core clinical topics and professional themes. Each question is accompanied by extensive feedback which explains not only the rationale of the correct answer, but why the other options are incorrect. Further reading resources and cross-references to the Oxford Handbook of Clinical Medicine have been fully updated to expand your revision further. Progress to exam success with the third edition of Oxford Assess and Progress: Clinical Medicine.

Holistic Nursing Elsevier Health Sciences
Holistic Nursing: A Handbook for Practice guides nurses in the art and science of holistic nursing and offers ways of thinking, practicing, and responding to bring healing to the forefront of health care. Using self-assessments, relaxation, imagery nutrition, and exercise, it presents expanded strategies for enhancing psychophysiology. The Fifth Edition has been completely revised and updated with new chapters, including one on evidence-based practice.

Synergy for Clinical Excellence World Scientific
Designed to help medical educators implement better assessment methods,

tools, and models directly into training programs, Practical Guide to the Evaluation of Clinical Competence, 2nd Edition, by Drs. Eric S. Holmboe, Steven J. Durning, and Richard E. Hawkins, is a hands-on, authoritative guide to outcomes-based assessment in clinical education. National and international experts present an organized, multifaceted approach and a diverse combination of methods to help you perform effective assessments. This thoroughly revised edition is a valuable resource for developing, implementing, and sustaining effective systems for evaluating clinical competence in medical school, residency, and fellowship programs. Each chapter provides practical suggestions and assessment models that can be implemented directly into training programs, tools that can be used to measure clinical performance, overviews of key educational theories, and strengths and weaknesses of every method. Guidelines that apply across the medical education spectrum allow you to implement the book's methods in any educational situation. New chapters on high-quality assessment of clinical

reasoning and assessment of procedural competence, as well as a new chapter on practical approaches to feedback. Reorganized for ease of use, with expanded coverage of Milestones/Entrustable Professional Assessments (EPAs), cognitive assessment techniques, work-based procedural assessments, and frameworks. The expert editorial team, renowned leaders in assessment, is joined by global leader in medical education and clinical reasoning, Dr. Steven Durning.

Fundamentals of Nursing - E-Book CRC Press

Progress to exam success with Oxford Assess and Progress: Psychiatry! This compact revision guide contains 250 Single Best Answer and Extended Matching Questions on all the key areas on undergraduate psychiatry curricula, from interview and assessment skills to substance misuse psychiatry. The Oxford Assess and Progress series offers high-quality revision content that teaches as well as tests. Every question in this volume comes with extensive feedback, explaining the rationale behind every answer. The questions are ranked by

difficulty to help you track your progress as you revise. This title is cross-referenced to the best-selling Oxford Handbook of Psychiatry, third edition and Oxford Handbook of Clinical Specialties, ninth edition and includes directions to other sources of further reading to help you develop your knowledge. Written by practicing psychiatrists, general practitioners, and experts in medical assessment, this is the ultimate revision guide for undergraduates studying for psychiatry exams or preparing for rotations in psychiatry and general practice, as well as GP trainees revising psychiatry for exams.

Final FRCR Part A Modules 1-3 Single Best Answer MCQS Elsevier India

All the information you need in one textbook! This all-inclusive text for Nurse Educators delivers comprehensive, evidence-based guidance on the essential components of teaching, including learning theories, teaching methods, new technologies for teaching, curriculum development, evaluation and testing, and accreditation. The text delivers the full scope of knowledge necessary for novice and experienced faculty to become

competent teachers in nursing. This third edition features new content on the transition from clinician to educator. There is also a new chapter on nursing professional development and teaching in clinical settings and updated teaching strategies for active learning, clinical judgment, and online teaching. The text is designed to help educators prepare for the certification exams. The text also addresses varied learning styles and how to accommodate them, new developments in simulation, standardized patients, OSCEs, clinical teaching, interprofessional education, and evidence-based teaching. New to the Third Edition: Chapter on the transition from clinician to educator, plus expanded content throughout on becoming a nurse educator Addresses inclusivity and developing an inclusive learning environment for people with different learning styles Strategies to promote active learning, clinical judgment, and higher level learning, and teaching online Updated content on simulations, the use of standardized patients, OSCEs, clinical teaching, and clinical evaluation Chapter on accreditation of nursing programs and developing a systematic

program evaluation plan Chapter on nursing professional development and teaching in a clinical setting Key Features: Written by experts who seamlessly integrate evidence-based research and practical strategies Serves as a thorough study guide for nurse educator certification exams Covers practical teaching strategies, simulation, online education, technology, interprofessional education, clinical teaching and evaluation, and test construction Includes case examples and other examples to support content and “how-to” tips Includes a high quality online course ready for an instructor’s use: sample syllabus, PowerPoints, and a complete 20-module online course

How to Succeed in the Academic Clinical Interview F.A. Davis

SBAQ's for the FRCEM Primary is a key resource for the new FRCEM Primary examination. Featuring over 450 Single Best Answer Questions (SBAQ's) mapped to the Royal College of Emergency Medicine curriculum, this comprehensive guide ensures high-quality self-assessment. Each chapter focuses on key areas of emergency medicine that

candidates will be tested on. All questions are supported by detailed answers and further reading to ensure quick identification of key areas that may need more attention. The last chapter features a mock examination of 100 SBAQ's ensuring the reader has, not only the knowledge to pass the exam, but can practice the technique and approach required for success in this exam. Edited by an experienced Consultant, SBAQ's for the FRCEM Primary is essential reading for candidates preparing for the FRCEM Primary exam worldwide.

Oxford Assess and Progress: Clinical Surgery Springer Publishing Company Interview Questions and Answers How to Become Ltd Prioritization, Delegation, & Management of Care for the NCLEX-RN® Exam F.A. Davis

A Practical Study Guide Springer Science & Business Media Contains over 270 single best answer and extended matching questions. *Practical Guide to the Evaluation of Clinical Competence E-Book* Royal College of Physicians Oxford Assess and Progress, Clinical Medicine is a new revision resource for

medical students. Complimenting the Oxford Handbook of Clinical Medicine and suitable for use alone, it provides an array of SBA's, EMQ's and editorials on core clinical topics and themes with detailed feedback and rated levels of competence. Medical Masterclass: Module 11 - Nephrology OUP Oxford Medical education, the art and science behind medical teaching and learning, has progressed remarkably. Teaching and learning have become more scientific and rigorous, curricula are based on sound pedagogical principles, and problem-based and other forms of active and self-directed learning have become the mainstream. We have progressed from the role of problem-identifier to that of solution-provider. This book provides a balanced overview of the OC why OCO of medical education, emphasizing the need for change and adaptation, and the OC how OCO, by demonstrating the way concepts and theories of medical education can be of immediate benefit to the medical teacher. In short, this is a simple and non-intimidating book for general medical teachers to enhance their understanding of medical education and to

improve their teaching. Royalties from the sale of this book will benefit basic health care needs of children in developing countries. Sample Chapter(s). Chapter 1: Questions and Questioning Technique (103 KB). Contents: Basic Competencies in Medical Teaching; Historical Perspectives in Medical Education; Educational Concepts and Philosophies; Curriculum and Learning Cycle; Educational Objectives; Instructional Methodologies: General; Instructional Methodology: Clinical Teaching; Instructional Methodology: Problem-Based Learning; Assessment and Evaluation; Internet and Medical Education; Research in Medical Education. Readership: Medical teachers from all disciplines as well as basic science and clinical teachers."

Medinfo 2007 Elsevier Australia About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht. We received 525 abstracts for the conference, divided in thematic poster sessions and platform presentations. Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed

atmosphere which has characterized previous Ottawa conferences. During and after the conference about 250 papers were submitted for publication in the conference proceedings, leaving us little time for a post-conference depression. Despite the large number of papers, the editors have attempted to review and edit the papers as care fully as possible. Occasionally, however, correspondence exceeded reasonable deadlines, preventing careful editing of a small number of the papers. Although we felt that our editorial task was not quite finished, we nevertheless decided to include these papers. We thank the many authors for their enthusiastic and prompt response to - occasionally tedious - editorial suggestions and requests. We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education. The editors want to thank Jocelyn Flippo-Berger whose expertise with desk top publishing and perseverance was a great help.

Becoming a Doctor McGraw Hill Professional

Contains papers which reflect the breadth

and depth of the field of biomedical and health informatics, covering topics such as; health information systems, education, standards, consumer health and human factors, emerging technologies, sustainability, organizational and economic issues, genomics, and image and signal processing.

Single Best Answer MCQs in Anaesthesia Springer

Part 2 MRCOG: SBA Questions contains invaluable preparation and practice for candidates undertaking the Royal College of Obstetricians and Gynaecologists Part 2 MRCOG examination. It contains 400 practice questions written by a highly experienced team of MRCOG question writers, alongside detailed answers referencing each question to either an RCOG, NICE or WHO guideline, or an article in the professional journal 'The Obstetrician & Gynaecologist'. This will enable candidates to understand the reasoning and knowledge base behind the question, as well as giving them a clear reference should they wish to read further around the subject. The first part of the book introduces and explains the new format of the Part 2 MRCOG exam, giving

insightful advice on the skills required to write a good SBA question. The second part of the book contains chapters matched to the 15 of the 19 modules of the core curriculum, giving a comprehensive range of questions and answers with detailed explanations and references. For anyone preparing for the Part 2 MRCOG exam, this book will provide extensive and comprehensive practice and guidance from an expert author team. IOS Press

Plastic and reconstructive surgery continues to evolve as new techniques open up new possibilities for the surgeon. In this groundbreaking textbook, contemporary approaches are explained and demonstrated to allow trainee and experienced surgeons alike to understand and assimilate best practice. Containing over 300 outstanding color figures demonstrating surgical practice, an international cast of leading surgeons show the paths to effective plastic surgery technique and outcomes. They cover all the major bases including: Integument Pediatric Plastic Surgery Head and Neck Reconstruction The Breast Trunk, Lower Limb and Sarcomas Upper Limb and Hand

Surgery Aesthetic Surgery Comprehensive in scope, practical in nature, Plastic and Reconstructive Surgery is your one-stop guide to successful surgical management of your patients. "This textbook is aimed at the trainee and young plastic surgeon, but it is extremely comprehensive and sufficiently detailed for any practitioner. The information is succinct, yet complete and up to date. . . . For a single-volume book, the detailed knowledge presented is impressive. . . . I think this is a great book. It is packed with good and up-to-date information, and I think it will be an invaluable resource for trainees but also for all plastic surgeons. The editors are to be congratulated on achieving a very difficult task with such success." —from a review by Peter C. Neligan, MB, in Plastic and Reconstructive Surgery "This is exactly what the editors of Plastic and reconstructive surgery: Approaches and Techniques set out to achieve in producing this excellent textbook. . . . It is truly an international effort at all levels, as the editors, from Australia (Ross D. Farhadieh), the UK (Neil W. Bulstrode) and Canada (Sabrina Cugno), have joined forces to recruit over 130 international

contributors and produce a resource of over 1100 pages that provides a well-organized and thorough, yet succinct, text of the essentials of current plastic surgery. . . . Many of the contributors are world-renowned experts; however, there is also a new generation of young rising stars whose contributions are equally good, providing a new, fresh and contemporary feel." —from the Foreword by Julian J. Pribaz, Professor of Surgery, Harvard Medical School "The authors here have concentrated all this useful information into their chapters in a quite outstanding manner. Any plastic surgeon of whatever maturity will find this an excellent purchase which he/she will have no reason to regret." —from a review by Douglas H. Harrison in Journal of Plastic, Reconstructive & Aesthetic Surgery **Module 1 Scientific background to medicine. 1 / editor, John D. Firth** Oxford University Press Thoroughly updated and revised to emphasize the link between research and evidence-based practice, this Eighth Edition of a classic textbook presents state-of-the-art methods for conducting high-quality studies. New chapters offer

guidance on developing self-report scales, conducting systematic reviews, and enhancing the integrity of qualitative studies. The ancillary Resource Manual includes application exercises, models of comprehensive research critiques, a full NINR grant application, and a "must-have" Toolkit on a CD-ROM, containing a treasure-trove of exemplary research tools (e.g., consent forms, a demographic questionnaire, statistical table templates)--all in easily-adapted Word documents to meet individual research needs. A watershed edition! Student Resource Manual with Toolkit, ISBN: 978-0-7817-7052-1.

Advances in Medical Education SLACK Incorporated

The only book dedicated to the College of Emergency Medicine's Membership examination, this book contains numerous questions and answers, together with data sets and clinical examples to help prepare candidates taking part B of this and other higher examinations in emergency medicine. All trainees wishing to pursue a career in Emergency Medicine have to have to pass the College of Emergency Medicine's own membership examination

(MCEM) to enter training and pass the Fellowship examination (FCEM) to complete their Certificate of Specialist Training (CST). This book is a study guide which can be used in conjunction with standard emergency medicine texts. It follows the MCEM syllabus exactly and each chapter has three key parts: core facts which supplements revision for parts A and B, clinical scenarios, including data, which can be used to prepare for part B, and sample answers for questions. This book prepares candidates for examination success in part B, the data interpretation part of the MCEM examination. The authors are doctors all dedicated to the acute or emergency setting and who have collated extensive material to help in candidates' preparation for the MCEM examination. They have run a successful revision course for candidates taking the examination.

Medical Masterclass Oxford University Press, USA

The only review book to cover both anatomic and clinical pathology, Pathology Exam Review offers excellent preparation for the American Board of Pathology Anatomic and Clinical Pathology

examinations. The book contains 1,500 board-formatted multiple-choice questions with short explanatory answers, equally divided between anatomic and clinical pathology. Anatomic pathology coverage includes general pathology, cytopathology, autopsy pathology, surgical pathology, immunohistochemistry, and electron microscopy. Clinical pathology coverage includes immunology, medical microbiology (bacteriology, mycology, virology and parasitology), transfusion medicine, hematology, coagulation, clinical chemistry, and molecular pathology and genetics. Many of the questions are accompanied by full-color images. A companion Website will include the fully searchable text, a question bank, and an image bank.

Oxford Assess and Progress: Clinical Specialties OUP Oxford

Single best answer (SBA) questions have been introduced into the Final FRCR Part A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology,

coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team.

Clinical Medicine Oxford University Press
This book comprises six sets of single best answer practice papers. Each set contains 30 single best answer questions on physiology, pharmacology, clinical measurement and physics. The scenarios are based on the application of a wide knowledge of basic sciences relevant to the clinical practice of anaesthesia. The best possible answer to a given question is

substantiated by detailed explanation drawn from recent journal articles and textbooks of anaesthesia and basic sciences. These questions enable the candidates to assess their knowledge in basic sciences and their ability to apply it

to clinical practice. Alongside the previously published book Single Best Answer MCQs in Anaesthesia (Volume I - Clinical Anaesthesia, ISBN 978-1-903378-75-5), this book is an ideal

companion for candidates sitting postgraduate examinations in anaesthesia, intensive care medicine, and pain management. It will also be a valuable educational resource for all trainees and practising anaesthetists.
