The Oneness and Simplicity of God Harper Collins

A fundamental question for theology is the question how we are to understand the claims that we make about God. The only language we can understand is the language we use to talk about human beings and their environment. How can we use that language to talk about God while respecting the infinite difference between God and humanity? The traditional answer has been to appeal to the concept of analogy. However, that appeal has been interpreted in widely different ways. This book aims to clarify the question and this answer by an analysis of the concept. It begins with an exploration of the way the concept was

evolved by Aristotle out of Greek mathematics as a technique for comparing "things that were remote"; followed by a critical examination of three very different classical accounts of the way religious language works: those of Thomas Aquinas, Immanuel Kant and Karl Barth. The book finally investigates the way in which analogy could be applied to answer the question initially posed - how is it possible to use human language to talk about God. This is a question of fundamental significance for the whole of religion and theology, concerning as it does our whole understanding of what we mean when we talk about God.

A collection of the writings of Dr. Dietrich F. Seidel, compiled and edited by Dr. Jennifer P. Tanabe. Dietrich Seidel was born in Austria during World War II and trained as a scientist in Vienna.

Raised Catholic he later converted to Unificationism and never lost his faith in God, a faith which guided his life and illuminates his work. This selection reflects Dr. Seidel's ability to unify and harmonize even those apparently at odds, such as science and religion and his specialty—married couples in need of counseling. In his writings on marriage and family enrichment readers will find practical advice on improving their relationship with their spouse, child rearing, making God central to their family and finding true love, all presented in an enjoyable and easy to read style. Other articles show a more scholarly form and topic, such as human nature and the love of God. Reflective pieces on his experiences as a Unificationist are also included in this collection.

Excerpt from The Bible in the Light of Nature, of Man, and of God, Vol. 1: Also in Its Essential Relations to the Religions of the World

The Bible is constructed like the subjects whereof it speaks. These are God, Nature, Man, God. God is first and last and, throughout, All in all. It is a Revelation and Representation of these, or of the absolute appearing in the relative, of the Divine Being in His self-manifestations. It comes forth from the Spirit All Father-Son as nature and man do; and has its Plenary Inspiration and Infallibility from and in the Spirit. Its holy men of old speak as they are moved by the Spirit. It is thus also fitted for its purposes, as to the all-man all-world, and as to God in both (2 Tim. iii. 14-17). The writer can truthfully and thankfully say that he got more of real instruction and true knowledge, in early life, from his godly parents, Alexander Chisholm and Marjory Fraser, than he ever yet got through all other means put together. It is his decided duty and great pleasure to add that the members of the family, Hugh, a girl who died in infancy, John, Margaret, Duncan, Mary, and he (the youngest), were of incalculable help to each other in receiving and mutually imparting the same. The religious Authors who have exercised formative influence on his mind are Thomas Boston (Fourfold State), Bishop Butler (Analogy), and Dr John Owen, Prince of Expositors. How he came to see the essential structure of the Bible is too mysterious and delicate here to describe; and may be equally unnecessary for the Reader to know. He is eagerly anxious that lie and the people should come as much as possible to know the Bible in all that it is and speaks of, as understood and written by the sacred writers themselves; each to know his God and his duty, to know God and Jesus Christ whom He hath sent, which is everlasting life. A recent Forbes listed Ellison as the fifth richest man in the world, and the second richest active player (behind Gates) in the technology world. Oracle Corporation, of which he is founder and CEO, is the fastest-growing software database company in the world, and the darling of technology investors. If you withdraw cash from an ATM, make an airline reservation, hook up your TV to the Internet, then you're using Oracle. All of this makes Ellison the man investors, techies, and people-in-the-know want to know more about. The ultimate self-made man, Ellison began Oracle with a \$1,200 investment and doubled its sales in eleven of its first twelve years. But he's a ruthless businessman who has used misdirection and half-truths to create one of the great high-tech success stories. He is also a daredevil sportsman with a 78-foot yacht, a number of fast jets, and beautiful women on his arm. If Gates is the nerd-King of the Valley, Ellison is its Warren Beatty. Mike Wilson has interviewed more than a hundred of Ellison's friends and enemies as well as Ellison himself to create an entertaining and provocative portrait of this enigmatic and visionary businessman.

Understanding God's Will InterVarsity Press

This book is spent for those who have a desire to learn, or at least to think about things in different ways, and who consider themselves seekers of truth. It is also for those who have a nagging feeling that there is more to their own nature and the nature of their God than what they have been taught. In addition, I believe it's possible to acquire an accurate understanding of the way things really are, the fundamental essence of things with all of our inaccurate perceptions of them stripped away and when a person receives that kind of understanding there is an obligation to share it with others. You will probably enjoy this book if you sometimes ask yourself questions like the following: - Did God create evil? - If our physical body and spirit are reunited following our death through resurrection, what is the purpose of a physical body in the next life? - Why does God allow so much evil to take place here on this earth? - What is the human species capable of becoming/evolving to following generations of natural selection and continuous improvement in our pool of knowledge? - How are the principles of free will or agency and obedience not contradictory or in conflict? - How can we tell the difference between truth and non-truth or error?

The Difference Between Knowing, Believing, and Having Faith Routledge

The book presents research and sharing on free will in Man and God. Do humans have free will? Does God have free will? What are the consequences? What is the true nature of Man? What is the true nature of God? The author shares thoughts on the relationship between God and man for those who are open-minded and want to learn about the human condition.

**Revelation and Reason** Ashgate Publishing, Ltd.

From Speculation To Revelation is a literary work explaining the Bible-and it is second to none. After reading this book, you will ask, how did I not know this? After all I have been in church all my life or I attended the best theology school, I've been a preacher, pastor, bishop, Bible teacher etc. all these years. Why? And where was the truth hidden from me? What you will discover is: God gives revelation of the Scriptures-not man! Bishop Brooks, an ex-con man, a jailhouse resident you could say. He became hungry for God and His truth while incarcerated. He had heard all the speculations about what God said, and he wanted truth, he asked God, and God gave him the revelation. One may ask, why did God give such a revelation to a man of his caliber? His work verifies that God is just and He gives to those who ask, no matter who. Great Theologians are stunned by his work but yet they agree. This book removes all confusion for the new baby Christian about what denomination holds the truth. Know that only God can reveal truth to you. The author tears down speculations and fills the empty space with revelations such as: >The reason why God respected Abel's offering and did not respect Cain's offering? >Showing how there are no contradictions in the Bible >Proving that the New Covenant/New Testament did not start in Matthew >Showing who the twelve apostles' gospel was really for, and so much more This book will certainly cause you to revisit the scriptures, and to ask God for a clear revelation. You will no longer be content just sucking in what others have to say, no matter who.

The Great Mystery of the Covenant of Grace Doubleday  
The concept of God having a son is a controversial issue

worldwide. Many people believe in God but they find it hard to believe this concept. There are others who believe in the pantheons of gods. And at the same time, there are some who don't believe in the concept of God at all. They do not believe there is a creator, not to talk of having a son. The world consists of many religions and all of them claim to be leading men to God. Is this really true? And do these religions actually point to the same God? Do they really explain God? Do they know the one and true God? Can these religions stand the test of scrutiny to know if they actually possess truth in them and nothing else? These are questions one must answer before going to the concept of God having a son. God hasn't kept us in dark. Those who don't believe in God at all do that just to erase the thought of having to give accounts of how they lived their lives on earth or out of total rebellion. This book isn't to address atheists but to draw the line of difference and uniqueness between walking with God and following religions blindly. God has so much revealed Himself to us that we can only be in darkness only if we choose to. Have you ever heard the statement "God begets none and has no father"? Have you ever thought of this before? Were you contented with the facts you got? This case is a serious issue. Some say God has no son. Some say He has a son. Some believe in many gods. Some say they believe in one God. Some say they believe in the trinity of one God. Some say all religions are right and are leading to God. Some say No, our religion is only the way. Some say it is not about religion but about walking with God and knowing Him. Which of these claims are true? And does God really have a son? Can the almighty have a son? These are deep and controversial issues that need serious analysis and light of the

truth. This book *Can God have a son?* will open the eyes of those who want to know the difference between practicing religions and walking with God. And those who want to know the true God. I welcome you to the arena of wisdom. Open your heart. Read without being sentimental. Read as if you have no other knowledge. Compare what you see here to other religious books and find out the real facts yourself. May the almighty lead you in the right way.

John Owen concludes his excellent Preface with these words:

"This worthy author has laboured, if I am not much mistaken, unto good success. And, as his design is to extricate things which seemed perplexed, to give light into the whole doctrine of the covenants, by declaring the proper order and method of things contained in them, with their respect one unto another; that the grace of God, in the Covenant of Grace, may be exalted, and his faithfulness, with his holiness, in the Covenant of Works, both in and by Jesus Christ, the end of the one, and the life of the other. So the reader will find, I hope, that satisfaction in these great and deep enquiries, which he will have occasion to return praise and thanks to God for." Mark Jones concludes his excellent New Introduction with these words: "The rewards are to be reaped from a careful study of this work. I would suggest keeping a Bible and pencil close by since Petto is constantly making reference to the Scriptures without giving the quotation of the passage cited. But more importantly, I would suggest keeping your heart firmly fixed upon the Lord Jesus Christ as he reveals to you, by his Spirit, THE GREAT MYSTERY OF THE COVENANT OF GRACE."

Colin Gunton was a world renowned scholar, systematic theologian and Reformed Church minister. *Revelation and Reason* is an in-depth analysis, derived from the annual lecture/seminar course he gave to MA students at King's College London. Approximately one-third of the work is a direct transcript, and analysis of the three two-hour lectures Colin Gunton gave at a break-neck speed: 1. 'From Reason and Revelation to Revelation And Reason'; 2. 'The Modern Problem in an Historical Context'; 3. 'Aspects of Karl Barth on Faith And Reason'. These lectures were a history, analysis and critique of *Revelation and Reason* in Systematic Theology and Philosophy, culminating with Karl Barth. The remainder is a transcript of the unrehearsed, unscripted, extemporary responses Colin Gunton gave to MA student's papers on set topics in the *Revelation and Reason* course, seamlessly integrated, where relevant, with detail from the main three lectures. Colin was a creative lecturer and widely read theologian and philosopher. These extemporary responses show the breadth of his learning, and his genius spontaneously to bring to mind relevant ideas from a wealth of theologians and philosophers, whilst incisively and piercingly exposing the flaws as well as the strengths under consideration. From this wealth of reading, Colin gave space to the free rein of his mind particularly when fielding questions or trying to analyze a particular strand of a theologian's thought. *Revelation and Reason* is a complementary volume to Colin Gunton's posthumously published *The Barth Lectures* (Continuum 2007) and to the first volume of his unfinished *Systematic Theology*, also forthcoming from T&T Clark.

In recent years, keen interest has arisen among scholars regarding the connection between rhetoric and religion. This phenomenon could be due to the idea of universality that underlies these two topics or simply because of the crucial relevance they hold for the human condition. Biblical rhetorical criticism has been particularly active since 2009. The debate serves as a foundation for *Eloquence Divine*, which is grounded in a moderate and detached point of view that becomes helpful in seeing God as a 'mere' agent. In this fascinating study, God and Jesus are intended as rhetoricians who applied their own rhetoric tools in order to influence humanity's behaviour, acts and decisions. As an agnostic English teacher, Philip Arrington traces paths across different episodes of the Scriptures with the aim to explore basic issues, such as identifying the difference between God's rhetoric and human persuasion, as well as the effectiveness that divine eloquence demonstrates in the narration of the Bible.

\$1,200 in 1977 and turned it into a billion-dollar Silicon Valley giant. If Bill Gates is the tech world's nerd king, Ellison is its Warren Beatty: racing yachts, buying jets, and romancing beautiful women. His rise to fame and fortune is a tale of entrepreneurial brilliance, ruthless tactics, and a constant stream of half-truths and outright fabrications for which the man and his company are notorious. Investigative reporter Mike Wilson, with access to Ellison himself and more than 125 of his friends, enemies, and former Oracle employees, has created an eye-opening, utterly fascinating portrayal of a Silicon Valley success story ... filled with the stuff that dreams and cultural icons are made of.

Understanding and Freedom helps Muslims unchain themselves from Islam by learning about other religions and worldviews. It shares insights into the basic doctrines of Islam and contrasts these with key aspects of the Christian faith so Muslims can evaluate Islam's claim to be the perfect belief system. Some of the questions considered are: How can we tell the difference between the one true God and a false god? What is the difference between the God of Islam and the God of Christianity? Can the God of Islam be a good guide? Do you have peace with God through Islam? Is Islam really perfect final religion? Is the Quran the Word of the true God? Is it Jesus or Muhammad who can be a good leader for you? Does humanity need enemies or friends? Is there salvation outside of Jesus?

Everything You Need to Know to Start Connecting with the God and Goddess Perhaps the biggest difference between Wicca and

other religions is the belief that individuals can do more than simply pray to a supreme, all-powerful deity and hope that things will work out to their benefit. Wiccans understand that individuals can actually co-create with the forces of nature by linking their own personal energy with the divine through ritual and magic. But what is "the divine" when it comes to Wicca? Who are the Goddess and the God, and where did they come from? Why do they have different names in different Wiccan traditions, and how do you begin to work with them in your personal practice? *Magical Deities*, by best-selling author Lisa Chamberlain, answers these questions and more. Going beyond the usual brief introduction to the God and Goddess found in many beginner guides to Wicca, Lisa covers the origins of the Wiccan deities, as well as their varying manifestations among different Wiccan traditions. What's more, she explains the difference between traditional duotheism and more eclectic polytheistic practices, both of which are found among the diversity of forms within this dynamic religion. You'll find advice for learning to forge your own spiritual connection with the divine masculine and feminine, and introductions to sixteen ancient deities who often function as "aspects" of the God and Goddess within Wiccan practices. Finally, you'll find ideas for honoring and working with these deities in your magical practice-and make no mistake, having the assistance of the gods and goddesses of the Universe is an enormous boon in the magic department! *Foundations in Wiccan Concepts of Divinity and Magic* For many practitioners who keep to the traditional duotheistic concept of Wicca, the ancient deities are "aspects" of the "supreme" Goddess and God and don't have a role to play on their own. For those who fall into the category of

"eclectic" Wiccans, the inclusion of ancient deities is more polytheistic. Eclectics often have personal relationships with "patron" gods and/or goddesses, who may be included in ritual practice alongside the God and Goddess. In both approaches, deities may be called upon for assistance with specific magical aims. But it's not simply a matter of speaking a god's or goddess' name in your spellwork-you need to develop an understanding and personal relationship with your chosen deities. Magical Deities will help you to do just that, with valuable information including: - The history of the Wiccan Goddess and God and their evolution through various traditions - An introduction to the Triple Goddess and her three aspects: Maiden, Mother and Crone - Introductions to the Sun God, the Horned God, the Green Man, and the Holly and Oak Kings - How to represent the God and

Goddess on the Wiccan altar - The mythology, cosmology, and magical practices of the ancient cultures that gave rise to Wicca - The most popular deities of the Egyptian, Roman, Greek, and Celtic pantheons - Advice for choosing deities to work with, and magical goals and methods specific to each one The paths to connection with the God and Goddess, or to any of the deities "borrowed" from other cultures are as multiple and varied as the people who worship them. Ultimately, your intuition and your heart are your best guides along your journey. But the more you know about the gods and goddesses you seek to work with, the more authentic and astounding your connection with them has the potential to be. As you make your way deeper into the realm of Wicca, Magical Deities will be a trusted travel guide! Scroll to the top of the page, hit the buy button, and you'll receive an exclusive free gift!
