Teaching Resources

Applying principles from Linda and Carla's latest book, *Interventions That Work: A Comprehensive Intervention Model for Reversing Reading Failure*, their DVD series, *Interventions that Work* illustrates how teachers use data to implement research-based interventions—from kindergarten to eighth grade—that transform struggling students into successful readers and writers. The interventions are part of the authors'

Comprehensive Intervention Model (CIM), a design for preventing reading failure in the early grades and reversing reading failure in the upper grades. The Guided Reading Plus (GRP) collection includes two disks of classroom video, lesson plans, and a wealth of resources along with a facilitator's guide for training and implementing the small group intervention. The GRP video collection is structured to provide training and support for teachers in learning about Guided Reading Plus as an intervention for struggling readers and as an intervention for their school's Response to Intervention (RTI) plan. Features: Provides a small-group intervention, based on the authors' *Comprehension for Intervention Model (CIM)*, for students in grades three and beyond who are lagging behind their peers in reading. Consists of a series of 30-minute daily reading and writing lessons designed to promote students' knowledge of genre and text structures through in-depth units of study. Includes opportunities for teachers to collect systematic data for progress monitoring.

Guides teachers in implementing explicit teaching and concrete examples to assist struggling readers to develop efficient strategies for problem solving in texts and to comprehend the message at deeper levels. Features two disks: Disk One contains supplemental materials such as the Facilitators' Guide, Power Point Presentation slides, guide sheet of lesson components, planners, Text Map/Writing Guide, and mentor texts for personal narrative. Disk Two contains CFG video lessons in reading and writing based on a unit of study for personal narrative texts. This disk is divided into four chapters with each chapter representing a unique phase with a total of 13 episodes under the phases. The episodes take place over a period of four weeks.

Next Step Guided Reading in Action Grades 3 and Up

Revised Edition Taylor & Francis

A book that brings the habits of reading to life. Great readers are not made by genetics or destiny but by the habits they build—habits that are intentionally built by their teachers. The early formal years of education are the key to reversing the reading gap and setting up children for success. But K-4 education seems to widen the gap between stronger and weaker readers, not close it. Today, the Common Core further increases the pressure to reach high levels of rigor.

What can be done? This book includes the strategies, systems, and lessons from the top classrooms that bring the habits of reading to life, creating countless quality opportunities for students to take one of the most complex skills we as people can know and to perform it fluently and easily. Offers clear teaching strategies for teaching reading to all students, no matter what level. Includes more than 40 video examples from real classrooms. Written by Paul Bambrick-Santoyo, bestselling author of *Driven by Data and Leverage Leadership*. *Great Habits, Great Readers* puts the focus on: learning habits, reading habits, guided reading, and independent reading. NOTE: Content DVD and other supplementary materials are not included as part of the e-book file, but are available for download after purchase.

There has never been a more comprehensive resource available to teachers that does what the continuum does - provide specific behaviors and understandings that are required at each level for students to

demonstrate thinking within, beyond, and about the text. These behaviors and understandings describe what students will be expected to do in order to effectively read and understand the text. More in-depth, more intuitive, and more essential than ever—The Fountas & Pinnell Literacy Continuum, Expanded Edition enables teachers to construct a common vision for student achievement that effectively and efficiently engages all students in the robust, authentic and meaningful literacy learning every child deserves. The Literacy Continuum provides a way to look for specific evidence of learning from prekindergarten through grade eight, and across eight instructional contexts. Each instructional context contributes substantially, in different but complementary ways, to students' development of the literacy process. With this indispensable literacy tool, Fountas and Pinnell remind you of The Literacy Continuum's critical role in transforming literacy teaching and learning. ### Which One Is Next?

Scholastic Professional For ten years and in two classic books, Irene Fountas and Gay Su Pinnell have described how to analyze the characteristics of texts and select just-right books to use for guided reading instruction. Now, for the first time, all of their thinking and research has been updated and brought together into *Leveled Books, K-8* to form the ultimate guide to

choosing and using books from kindergarten through middle school. Fountas and Pinnell take you through every aspect of leveled books, describing how to select and use them for different purposes in your literacy program and offering prototype descriptions of fiction and nonfiction books at each level. They share advice on: the role of leveled books in reading instruction, analyzing the characteristics of fiction and nonfiction texts, using benchmark books to assess instructional levels for guided reading, selecting books for both guided and independent reading, organizing high-quality classroom libraries, acquiring books and writing proposals to fund classroom-library purchases, creating a school book room. In addition, Fountas and Pinnell explain the leveling process in detail so that you can tentatively level any appropriate book that you want to use in your instruction. Best of all, *Leveled Books, K-8* is one half of a new duo of resources that will change how you look at leveled books. Its companion-[www.FountasandPinnellLeveledBooks.com](http://www.FountasandPinnellLeveledBooks.com) is a

LLI Red System Scholastic Teaching Resources Author Debbie Diller turns her attention to small reading groups and the teacher's role in small-group instruction. Making the Most of Small Groups: Differentiation for All grapples with difficult questions regarding small-group instruction in elementary classrooms such as: How do I find the time? How can I be more organized? How do I form groups? How can I differentiate to meet the needs of all of my students? Structured around the five essential reading elements - comprehension, fluency, phonemic awareness, phonics, and vocabulary - the book provides practical tips, sample

lessons, lesson plans and templates, suggestions for related literacy work stations, and connections to whole-group instruction. In addition to ideas to use immediately in the classroom, Diller provides an overview of relevant research and reflection questions for professional conversations.
