 The second edition of this best-selling Python book (over 500,000 copies sold!) uses Python 3 to teach even the technically uninclined how to write programs that do in minutes what would take hours to do by hand. There is no prior programming experience required and the book is loved by liberal arts majors and geeks alike. In this fully revised second edition of the best-selling classic Automate the Boring Stuff with Python, you'll learn how to use Python to write programs that do in minutes what would take you hours to do by hand--no prior programming experience required. You'll learn the basics of Python and explore Python's rich library of modules for performing specific tasks, like scraping data off websites, reading PDF and Word documents, and automating clicking and typing tasks. The second edition of this international fan favorite includes a brand-new chapter on input validation, as well as tutorials on automating Gmail and Google Sheets, plus tips on automatically updating CSV files. You'll learn how to create programs that effortlessly perform useful feats of automation to:

- Search for text in a file or across multiple files
- Create, update, move, and rename files and folders
- Search the Web and download online content
- Update and format data in Excel spreadsheets of any size
- Split, merge, watermark, and encrypt PDFs
- Send email responses and text notifications
- Fill out online forms

Step-by-step instructions walk you through each program, and updated practice projects at the end of each chapter challenge you to improve those programs and use your newfound skills to automate similar tasks. Don't spend your time doing work a well-trained monkey could do. Even if you've never written a line of code, you can make your computer do the grunt work. Learn how in Automate the Boring Stuff with Python, 2nd Edition.

When Cash scans the orientation room he wasn't expecting to find sexy hazel eyes locked onto him. Eyes of the handsome Detective Leonidis 'Leo' Day. Leo is charming, witty, hilariously sarcastic and the only one that can make Cash smile. He's proud, out and one bad-ass detective. Together Cash and Leo become the most revered and successful narcotics detectives Atlanta's ever seen. Able to communicate and understand each other, without even having to voice it, they quickly climb up the promotional ranks. When Cash saves Leo's life in a raid that turns deadly, Leo begins to see something in the big man that no one else does...something special. But Leo fears he'll never break through the impenetrable wall that protects Cash's heart. Nothing Special takes the reader through various emotions throughout the richly fulfilling plot that's full of erotic gay romance, heartache, passion, trials and tribulations, police action scenes, and an intriguing twist that comes to an amazing ending that's impossible to see coming. A fox can set many traps to catch his target-but this one only needs one to catch his. Dominic "Bull" Walker is used to the simpler things in life. Give him his own land to work, a strong horse, and twelve hours of daylight, and he is a contented man. But when someone threatens to take away the successful ranch that took him two years to rebuild, he'll accept any help he can get to defend it. Mandel "Fox" Tucker is a sixth-generation SWAT soldier. It's embedded in his bones to protect and serve his community. So when he gets word of the vandalism occurring on the Walker Ranch, he quickly volunteers the free time he has, thanks to his recent suspension. The brief visit Fox had with Bull four months ago had been a contentious-but powerful-encounter. Therefore, he's not surprised when he shows up on his doorstep unannounced and has to pull out some of his best tricks to get past the six-foot-four, stubborn Texan. Fox is only there to safeguard what's most important to Bull. But being on the ranch brings an awareness to him that he embraces with both hands. Nature, peace... love-things he never found in the city. This book contains the love story of two new characters. It is a part of a series but can be read as a standalone. There are no multiple pairings or sharing. Ends in a very HEA. Trigger Warning: Mild police violence. Scenes are not graphic.

 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us

what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 500 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The Secrets in My Scowl Nothing Special

Police Lieutenants, God and Day are under intense pressure from the chief to take back control of Atlanta's streets. The last thing their task force needs is a pair of trained killers in town with a personal score to settle. Take a man and strip him of his ability to feel compassion, empathy, remorse, or any of the emotions that make him human, but leave the ones that ignite rage and aggression and you have the perfect killing machine—now imagine two of them. Code names Ex and Meridian are synonymous for 'guaranteed death' to international terrorists. Two broken men from the same crooked streets, recruited into an unsanctioned government program that few know about. Trained to operate most efficiently—lethally—together. When Ex returns from an op in Bolivia to learn his little brother has been accidentally killed in a feud between drug gangs, he's stateside before he can consider the rules he'll be breaking, and of course Meridian is right beside him. There's mayhem on the streets of Atlanta and the police are losing control. If Godfrey and his elite team of detectives can't get the job done then they'd be happy to lighten their caseloads for them. And Ex nor Meridian care about doing it quietly. "I know who you are." The man grunted when Ex turned to leave. "You're the fucking devil." Meridian walked past, glaring one final time. "Say that loud enough... maybe God will save you." But after their first run-in with the big lieutenant and his protective husband, Day, Ex and Meridian start to reevaluate their own relationship. Wondering if they could be even deadlier if they let loose the feelings for each other that they've been forced to suppress for years. Meridian's dark eyes stayed locked on his, "A man who can fight beside the one he loves doesn't make him weaker, Ex—it makes him more dangerous." No multiple pairings. No cliffhangers. Ends with a HEA. Note: This title focuses on two new characters in the series. And while it can stand alone, there are appearances from prior main characters. Note: This is a partners-to-lovers, out-for-you, action romance. Note: There are depictions of violence in this novel.

Roman 'Quick' Webb is Duke's business partner and best friend. Both men are in their forties and have given up on the happily ever after with the ranch-style home, and white picket fence. They'd both tried it and failed miserably. But they have their friendship and they have the business. When Quick's son, Vaughan Webb returns - after seven years - from studying abroad with his law degree in hand, he's back to claim what he's always wanted...his fathers' best friend... Duke Morgan. Vaughan has always claimed to be a classic gentleman with an old soul. He didn't party and screw up in school like his buddies. He was focused and dedicated to becoming the man worthy of Duke's love. It's a complex and messy situation as Duke and Quick figure out how to still be best friends when one of them is sleeping with his friend's one and only son. But when Duke is hurt on the job, all the unimportant trivialities fall to the wayside and Vaughan and Quick put their heads together to save Duke. Nothing Special VII Lennox Freeman (Free) is one of the best hackers in the world which has caused him to spend most of his life on the run. Never able to put down roots, he couldn't trust anyone not to take advantage of him, even his own family. If it wasn't for his best friend, Tech, shielding him, Free's father would've sold him and his skills to the highest bidding crime family when he was still a student at MIT. Free owed Tech his life; so when his friend called for him to come to Atlanta to work with him, he couldn't say no. However, he wasn't expecting the overprotective group of detectives that made up Atlanta PD's most notorious task force. And he certainly wasn't prepared for the large-and-in-charge SWAT Captain that was responsible for their safety. Ivan Hart has lived and bled one creed all of his life: To Serve and Protect. His intense focus and determination in law enforcement has led him to finally commanding his own team. He'd worked hard to put together a squad of badasses capable of backing up a very dangerous team of detectives. Being God and Day's last line of defense came with a lot of responsibility that he took very seriously. After his divorce was final Hart turned right around and

remarried his job. He had his good friends there in the office with him every day, so it was easier to ignore the few quiet hours he spent at home alone each night. He'd settled well into his new routine and was comfortable with it. Then God decided to disrupt everything by hiring another tech specialist for his department. A man whose brains, trendy looks, and voice would leave Hart tongue-tied and captivated at their first introduction. Free quickly awakens a passion in Hart that he long thought was dead. An attraction he didn't know existed. He couldn't fathom that the sexy cyber genius could be interested in an over-sized, big-bearded brute that served criminals the bottom line for a living. No matter what his best friend, God said. A future with Hart could be potentially dangerous and often times full of terrifyingly close calls; but little did he know that so could falling for the most hunted hacker in the world. All Lennox Freeman wants in life is security, love and protection... Hart had all that to give and more. This novel is a part of a series and contains previously mentioned characters, but CAN BE read as a standalone. No cliffhangers.

"Unsettled is a remarkable book—probably the best book on climate change for the intelligent layperson—that achieves the feat of conveying complex information clearly and in depth." —Claremont Review of Books "Surging sea levels are inundating the coasts." "Hurricanes and tornadoes are becoming fiercer and more frequent." "Climate change will be an economic disaster." You've heard all this presented as fact. But according to science, all of these statements are profoundly misleading. When it comes to climate change, the media, politicians, and other prominent voices have declared that "the science is settled." In reality, the long game of telephone from research to reports to the popular media is corrupted by misunderstanding and misinformation. Core questions—about the way the climate is responding to our influence, and what the impacts will be—remain largely unanswered. The climate is changing, but the why and how aren't as clear as you've probably been led to believe. Now, one of America's most distinguished scientists is clearing away the fog to explain what science really says (and doesn't say) about our changing climate. In *Unsettled: What Climate Science Tells Us, What It Doesn't, and Why It Matters*, Steven Koonin draws upon his decades of experience—including as a top science advisor to the Obama administration—to provide up-to-date insights and expert perspective free from political agendas. Fascinating, clear-headed, and full of surprises, this book gives readers the tools to both understand the climate issue and be savvy consumers of science media in general. Koonin takes readers behind the headlines to the more nuanced science itself, showing us where it comes from and guiding us through the implications of the evidence. He dispels popular myths and unveils little-known truths: despite a dramatic rise in greenhouse gas emissions, global temperatures actually decreased from 1940 to 1970. What's more, the models we use to predict the future aren't able to accurately describe the climate of the past, suggesting they are deeply flawed. Koonin also tackles society's response to a changing climate, using data-driven analysis to explain why many proposed "solutions" would be ineffective, and discussing how alternatives like adaptation and, if necessary, geoengineering will ensure humanity continues to prosper. *Unsettled* is a reality check buoyed by hope, offering the truth about climate science that you aren't getting elsewhere—what we know, what we don't, and what it all means for our future.

An Enemies to Lovers Shifter, Vampire True Mates story. Justice Volkov is the youngest Alpha Zenith to ever lead the wolf shifters. Following in his father's large paw prints was a responsibility he met head on. Now at age thirty-three, he is alpha of the alphas. As a direct descendant of the original Siberian pack, his wolf is bigger and stronger than Justice, himself is sometimes able to control. His wolf howled long and hard but Justice kept it inside. It felt like a bass drum beating against his rib cage. The harsh breaths, angry snarls and the determined pacing inside him was overtaking him. Justice takes his role of leadership and his legacy very seriously. He has little time for romance, not to mention a true mate. His packs are his priority. With a human government trying to regulate them, an uprising of rogue shifters, and a violent team of scientists trying to experiment on them, Justice has his hands way too full. Chadwick 'Wick' Bentley is not enthusiastic when the captain of his escort tells him he has to

leave his comfortable London home and go back to the States. As the Vampire King, he has no choice but to get his species back in line before they cause anymore chaos. At over one-hundred years old, Wick is no one to trifle with, but his smooth, charismatic manner makes him quite unique, despite the negative reputation vampires have. Wick has had nothing but time up to this point. He

doesn't feel the need to make issues pressing. Nothing is urgent in his life. Until he meets Justice. His beloved. "Natural enemies can't be mates." Or so Justice thought. He knows his skepticism and rejection is hurting his mate, so while he fights their connection, Wick gets help from a source very close to Justice to help him win his beloved's heart. Wick is a force all on his own, but when he's blessed with a special gift from the Mother herself,

not even Justice's powerful wolf can prevent the prophesy from being fulfilled. This story DOES NOT contain/mention MPREG. No multiple pairings. No cliffhangers. It ends with a very HFN. Warning: This book is MM paranormal: If you DO NOT like hot, alpha men shifting into large wolves, or vampires feeding from their mates, this may not be your read.
