Joseph Hutchison's BED OF COALS is a poetic sequence that tells

a story of emotional crisis and recovery at the unsparing hand of Eros. Rooted in transgression, the poems honor the powerful psychic energies at work in the book's tragicomical hero, whose name is Vander Meer. They trace his journey toward balance and wholeness in ways that reflect his struggle: shifting points of view, mercurial mood-swings, now layered and allusive, now plain as a single plucked guitar string. It is a highly crafted but deeply human book, a book for readers who appreciate the strange richness of our inner lives.

"The challenge, then, is not to invent new victims or new scapegoats but to mobilize America for the future. What would it take to ensure that all of us can succeed at getting the job done, the problem solved, and the future more secure?" As a student at Yale Law School in 1974, Lani Guinier attended a class with a white male professor who addressed all the students, male and female, as "gentlemen." To him the greeting was a form of honorific, evoking the values of traditional legal education. To her it was profoundly alienating. Years later Guinier began a study of female law students with her colleagues, Michelle Fine and Jane Balin, to try to understand the frustrations of women law students in male-dominated schools. Women are now entering law schools in large numbers, but too often many still do not feel welcome. As one says, "I used to be very driven, competitive. Then I started to realize that all my effort was getting me nowhere. I just stopped caring. I am scarred forever." After interviewing hundreds of women with similar stories, the authors conclude that conventional one-size-fits-all approaches to legal education discourage many women who could otherwise succeed and, even

more, fail to help all students realize their full potential as legal problem-solvers. In *Becoming Gentlemen* Guinier, Fine, and Balin dare us to question what it means to become qualified, what a fair goal in education might be, and what we can learn from the experience of women law students about teaching and evaluating students in general. Including the authors' original study and two essays and a personal afterword by Lani Guinier, the book challenges us to work toward a more just society, based on ideals of cooperation, the resources of diversity, and the values of teamwork.

In the New York Times bestselling *Hard Country*, Michael McGarrity gave readers "an expansive, lyrical period Western in the tradition of A. B. Guthrie Jr. and Larry McMurtry" (Hampton Sides). Now McGarrity continues his richly authentic epic of life on the last vestiges of the twentieth-century American frontier. Scarred by the loss of an older brother he idolized, estranged from a father he barely knows, and deeply troubled by the failing health of a mother he adores, young Matthew Kerney is suddenly

and irrevocably forced to set aside his childhood and take on responsibilities far beyond his years. When the world spirals into the Great Depression and drought settles like a plague over the nation, Matt must abandon his own dreams to salvage the Kerney ranch. Plunged into a deep trough of dark family secrets, hidden crimes, broken promises, and lies, Matt must struggle to survive on the unforgiving, sun-blasted Tularosa Basin.

People of the Spirit Holt Paperbacks

Who were the men and women who laid the foundation of the General Council of the Assemblies of God? They were ordinary people, many with little or no ministry experience of formal training, yet they were the raw material God used in the modern Pentecostal movement. Shaped by the Holy Spirit, they became His instruments of vision and revival—from generation to generation. Their journey is a foundation we can build on. Ideal for classroom use or personal reading, this updated version includes updated bios, new material covering the timeframe since the original writing of the book in 2000, and fresh design for easy reading. Pick up where this book ends and your faith will be strengthened as you live the history that has changed the world.

"SMART AND SASSY" (New York Times) P.I. Kinsey Millhone is at it again in "N" is for Noose—another thrilling adventure from the #1 New York Times bestselling author Sue Grafton Kinsey Millhone should have done something else--she should have turned the car in the direction of home. Instead, she was about to put herself in the gravest jeopardy of her career. Tom Newquist had been a detective in the Nota Lake sheriff's office--a tough, honest cop respected by everyone. When he died suddenly, the townsfolk

were saddened but not surprised: Just shy of sixty-five, Newquist worked too hard, smoked too much, and exercised too little. That plus an appetite for junk food made him a poster boy for an American Heart Association campaign. Newquist's widow didn't doubt the coroner's report. But what Selma couldn't accept was not knowing what had so bothered Tom in the last six weeks of his life. What was it that had made him prowl restlessly at night, that had him brooding constantly? Selma Newquist wanted closure, and the only way she'd get it was if she found out what it was that had so bedeviled her husband. Kinsey should have dumped the case. It was vague and hopeless, like looking for a needle in a haystack. Instead, she set up shop in Nota Lake, where she found that looking for a needle in a haystack can draw blood. Very likely, her own. "N" Is for *Noose*: a novel in which Kinsey Millhone becomes the target and an entire town seems in for the kill. This is one young officer's war story about training and

inspiration in the Burmese jungle behind enemy lines. Beaten up and water tortured, yet only giving his captors false information, Stibbe was moved around Burma until he was eventually imprisoned in Rangoon jail. Now stricken with Parkinson's disease, probably as a result of his prison diet, Stibbe with his eldest son, also a soldier, has revised his book and this edition published to coincide with the 50th anniversary of Wingate's second triumphant Chindit expedition.
