In this eloquent plea for compassion and respect for all species, journalist and gardener Nancy Lawson describes why and how to welcome wildlife to our backyards. Through engaging anecdotes and inspired advice, profiles of home gardeners throughout the country, and interviews with scientists and horticulturalists, Lawson applies the broader lessons of ecology to our own outdoor spaces. Detailed chapters address planting for wildlife by choosing native species; providing habitats that shelter baby animals, as well as birds, bees, and butterflies; creating safe zones in the garden; cohabiting with creatures often regarded as pests; letting nature be your garden designer; and encouraging natural processes and evolution in the

garden. The Humane Gardener fills a unique niche in describing simple principles for both attracting wildlife and peacefully resolving conflicts with all the creatures that share our world.

This Manual is valuable because: It details the development of condominiums. It educates condominium owners about their civil rights. It reveals how owners could unknowingly be disenfranchising themselves. It unfolds a road map to a purely democratic system of self-governance. It explains the choices that owners have for a personally accountable system of governance. It describes the essential difference between true democracy and pure democracy. It includes a brief commentary on a parallel universe, namely the American system of representative democracy and the monumental problems which need to be addressed. It informs the members of their association regarding the importance of Roberts Rules of Order as an inclusion in their Bylaws. It allows the voice of the minority to be heard and requires that the decision of the majority be acknowledged; contrarily, it allows the silence of the members to be the equivalent of consent without a vote. It requires that the chairperson of a meeting of an association conduct a meeting in an orderly manner and insist that the voters be mutually respectful with the liberal use of a gavel. It declares that the chairperson must remain impartial at all times by not expressing an opinion on a motion thereby compromising a vote.

This book is a chronicle of my journey toward discovering what horses have to teach us about leadership and living in a community. We are at a time in our history in which the word "lead" has become the latest four-letter word. These days being a leader is seen as an all consuming, often thankless job. It was the love of a horse that inspired me to rediscover what leadership is really all about. As you read this book, you will be taken on a very personal journey by many gifted horse teachers who invite you to rediscover what the word "lead" means to you.

[The Standard Code of Parliamentary Procedure](#) SIU Press

This third edition of Jon Ericson's Notes and Comments on Robert's Rules updates all references and page numbers to the tenth edition of Robert's Rules of Order Newly Revised, published in 2000. Ericson's guide to the authoritative parliamentary resource clarifies many of the concepts and rules that intimidate or confuse the members of organizations who use it, stressing that they have a choice in—and may, in fact, modify—the rules by which they are bound. Ericson begins with the Order of Precedence, which he defines as the key concept in understanding and utilizing parliamentary procedure. He then uses a question-and-answer format in which a logical progression of essential parliamentary questions is explicitly answered, with a rationale for each rule. Throughout, he provides specific page references to Robert's Rules. Through these three elements, he makes classic doctrine intelligible and workable, leading the reader step-by-step through the rules and their applications and, in the process, encouraging people to feel more positive about parliamentary procedure and their ability to use it. "Far too many members, armed—or more accurately disarmed—with a misconception of parliamentary procedure, choose to spend a lifetime wondering what is going on and lamenting or blaming others when things fail to go their way," writes Ericson in the Introduction. "Understanding parliamentary procedure also allows a person to have more fun—not just the fun of socializing outside the business meeting—but the fun of performing in the public arena." A popular, concise, and clear handbook, Notes and Comments on Robert's Rules emphasizes the simple machinery of the system, relates its concepts to the procedures most commonly used in meetings and conventions, and encourages members to obtain and study, rather than shy away from Robert's Rules of Order Newly Revised. This new edition also expands the number of question-and-answer sections and surveys the research in and commentary on the field since 1991. A laminated, removable card featuring simplified charts of parliamentary motions serves as an additional resource and is included with the volume.

Outwitting the Neighbors Pineapple Press

I wrote this book to serve as a "primer" on the basics of what you can do to: - Make your personal time on the board more satisfying - Produce value for the homeowners in your HOA - Encourage other homeowners to volunteer to make their HOA a better place to live. This is a "foundation" book. I want you, as a volunteer board member, to have a foundation of knowledge in what a homeowners association is and how it should work. I have seen too many homeowners associations in which new board members have no basic knowledge in association best practices and they get caught up in the emotions of making decisions for their neighbors. Their volunteer time turns in to a frustrating experience and the existing problems persist with

the association. With a good foundation, I believe you will be able to learn more about community associations and the common issues that confront them. With this book, you will have an outline that will help you organize your thoughts, build on a solid framework and make your volunteer time valuable to you and to your neighbors.

All over the country people are thrust into positions of authority with little or no preparation. They are responsible for hundreds of millions of dollars worth of real estate, make decisions affecting the lives of hundreds of people and are responsible for spending hundreds of thousands of dollars every year. Who are these people? Why they are newly elected directors on the board of a condominium or homeowners association. Whether they are serving because of their own self-interest or for the greater good of the entire community, most people are ill prepared for this task and there is very little written on the subject. This book is an overview of the most significant and frequent issues, which board members and property managers deal with on a day-to-day basis. This handy reference is written in plain English and provides practical, no-nonsense advice on dealing with both the routine and complex problems arising out of homeowner association governance.
