When the chance to run arrives, Beldon doesn't think twice about escaping into the shadows of an enchanted castle locked in an eternal winter. He just wants to bury a secret. But the castle is a cold, cruel place and his host is less than welcoming. The sparks that fly between them are icy and aggressive; the tension building until one night it almost costs Beldon his life. Then things change. Beldon's attention turns to the

shadowy Beast and the mystery that surrounds him. There is a curse to be broken after all and Beldon promised to help find a mysterious figure known as Beauty. However, Beldon did not expect his secret to resurface within this frozen castle and as such he is forced to confront himself and answer one question. As he and The Beast grow closer, does he want this Beauty found?~~~~ The original draft for the community who wanted a physical copy~

 Brilliant. Colorful.
 Visionary. Tenacious.
 Witty. Since his appointment to the

Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind— showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most

compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

This collection, which won the 2015 Costa Poetry Award, is an exhibition of the Dundee-born poet's stunningly accomplished adoption of the sonnet's ancient structure. This collection from Don Paterson, his first since the Forward Prize-winning *Rain* in 2009, is a series of forty luminous sonnets. Some take a traditional form, while others experiment with the

reader's conception of the sonnet, but they all share the lyrical intelligence and musical gift that has made Paterson one of our most celebrated poets. Addressed to friends and enemies, the living and the dead, children, musicians, poets, and dogs, these poems are as ambitious in their scope and tonal range as in the breadth of their concerns. Here, voices call home from the blackout and the airlock, the storm cave and the s♦ance, the coal shed, the war, the highway, the forest, and the sea. These are voices frustrated by distance and darkness, which ring with the "sound that fades up from the hiss, / like a glass some random downdraught had set ringing, / now full of its

only note, its lonely call." In 40 Sonnets, Paterson returns to some of his central themes—contradiction and strangeness, tension and transformation, the dream world, and the divided self—in some of the most powerful and formally assured poems of his career.

Following the great success of *Pioneers of the Possible* (2012)--featuring revolutionary female figures such as Ella Fitzgerald, Frida Kahlo, Simone de Beauvoir, Wangari Maathai, and Zaha Hadid--Angella Nazarian returns with an extraordinary sequel, *Visionary Women*. This new title highlights twenty innovative and forward-thinking

women, celebrating their great achievements and their contributions to science, media, politics, the arts, and social change. These women demonstrate passion, fearlessness, and an insatiable curiosity that led each to harness her talents and achieve her goals, no matter how improbable. From Malala Yousafzai as the youngest Nobel Prize laureate and Carmen Amaya beginning her remarkable dance career at four years old to swimmer Diana Nyad breaking a world record at age sixty-four and Doris Lessing still penning stories into her nineties, this inspiring volume will compel readers to reconnect with their own dreams and envision new goals to

challenge themselves at any stage of life. Women profiled in this book include Helen Keller, Amelia Earhart, Sandra Day O'Connor, Maya Angelou, and Marie Curie, with a foreword by the executive director of the Georgetown Institute for Women, Melanne Verveer. AUTHOR: Angella Nazarian is a best-selling author and noted speaker. She was a professor of psychology at Mount Saint Mary's College, California State University Long Beach, and Los Angeles Valley College for eleven years. She has been a keynote speaker at events including the YPO-WPO Global Leadership Conference in Los Angeles and the YPO Women's Lean In Conference in Miami

and has conducted various workshops and seminars on topics related to women's personal growth, innovation, and leadership. Nazarian is the co-founder and president of Visionary Women, a nonprofit women's leadership organisation in Los Angeles that brings together some of the world's most dynamic leaders. 100 illustrations

The Fifth Edition of *A History of the Roman People* continues to provide a comprehensive analytical survey of Roman history from its prehistoric roots in Italy and the wider

Mediterranean world to the dissolution of the Roman Empire in Late Antiquity in A.D. 600. Clearly organized and highly readable, the text's narrative of major political and military events provides a chronological and conceptual framework for the social, economic, and cultural developments of the periods covered. Major topics are treated separately so that students can easily grasp key concepts and ideas.

Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-

bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two. Data Science and Machine Learning are in high demand, as customers are increasingly looking for ways to glean insights from all their data. More customers now realize that Business Intelligence is not enough as the volume, speed and complexity of data now defy traditional analytics tools. While Business

Intelligence addresses descriptive and diagnostic analysis, Data Science unlocks new opportunities through predictive and prescriptive analysis. The purpose of this book is to provide a gentle and instructionally organized introduction to the field of data science and machine learning, with a focus on building and deploying predictive models. The book also provides a thorough overview of the Microsoft Azure Machine Learning service using task oriented descriptions and concrete end-to-end examples, sufficient to ensure the reader can immediately begin using this important new service. It describes all aspects of

the service from data ingress to applying machine learning and evaluating the resulting model, to deploying the resulting model as a machine learning web service. Finally, this book attempts to have minimal dependencies, so that you can fairly easily pick and choose chapters to read. When dependencies do exist, they are listed at the start and end of the chapter. The simplicity of this new service from Microsoft will help to take Data Science and Machine Learning to a much broader audience than existing products in this space. Learn how you can quickly build and deploy sophisticated predictive models as machine learning web services with the new Azure Machine

Learning service from Microsoft.
