...Modifying Food Texture ebook by - Rakuten Kobo

With the involvement of a team from the University of South Australia, led by Dr Sandra Ullrich*, we developed a production process using food moulds filled with

texture B (minced and moist) or C (smooth pureed) food ingredients. The moulds shape the food into its original form. The moulded food is then snap-frozen until it's ready to be turned out on the plate, reheated in an oven and presented as a complete meal to residents. The food moulds are 100% food-safe silicone, are dishwasher ...
