Investor Protection Cambridge University Press

Banking regulation and the private law governing the bank-customer relationship came under the spotlight as a result of the global financial crisis of 2007–2009. More than a decade later UK, EU and international regulatory initiatives have transformed the structure, business practices, financing models and governance of the banking sector. This authoritative text offers an in-depth analysis of modern banking law and regulation, while providing an assessment of its effectiveness and normative underpinnings. Its main focus is on UK law and practice, but where necessary it delves into EU law and institutions, such as the European Banking Union and supervisory role of the European Central Bank. The book also covers the regulation of bank corporate governance and executive remuneration, the promises and perils of FinTech and RegTech, and the impact of Brexit on UK financial services. Although detailed, the text remains easy to read and reasonably short; pedagogic features such as a glossary of terms and practice questions for each chapter are intended to facilitate learning. It is a useful resource for students and scholars of banking law and regulation, as well as for regulators and other professionals who are interested in reading a precise and evaluative account of this evolving area of law.

"Code") that are contained in the President's fiscal year 2011 budget proposal, as submitted to the Congress on February 2010. The document generally follows the order of the proposals as included in the Department of the Treasury's explanation of the President's budget proposal. For each provision, there is a description of present law and the proposal (including effective date), a reference to relevant prior budget proposals or recent legislative action, and an analysis of policy issues related to the proposal.

Written by leading experts in the field, the fifth edition of *Business Law* is designed to provide trainee solicitors with a clear understanding of key aspects of business law, one of the most challenging and dynamic areas of law in study and in practice. Each chapter gives a clear overview of the subject as well as focusing on the legal issues that solicitors face in practice. Coverage includes: establishing and operating a business, buying and selling a business, selected business law issues, and business arrangements. This fifth edition of the book features new chapters on corporate governance and on terms and conditions of sale. The manual is essential reading for trainee solicitors on the Law Society of Ireland's Professional Practice Courses, and is also an excellent resource for Irish legal practitioners.

The urgent and sustained interest in corporate governance is unprecedented, with the connections between corporate governance and economic performance being emphasized by the World Bank, the IMF and others in the global economic community. In this timely and definitive intellectual analysis of a key discipline, *The SAGE Handbook of Corporate Governance* offers a critical overview of the key themes, theoretical controversies, current research and emerging concepts that frame the field. Consisting of original substantive chapters by leading international scholars, and examining corporate governance from an inter-disciplinary basis, the text highlights how governance issues are critical to the formation, growth, financing, structural development, and strategic direction of companies and how corporate governance institutions in turn

influence the innovation and development of industrial and economic systems globally. Comprehensive, authoritative and presented in a highly-accessible framework, this Handbook is a significant resource to those with an interest in understanding this important emerging field.

Commercial Law 2009-2010 Routledge

The global financial crisis triggered a broad reassessment of economic integration policies in developed and developing countries worldwide. The crisis-induced collapse in trade was the sharpest ever since World War II, affecting all countries and all product categories. A huge shock to the trading system, combined with severe macroeconomic instability, makes it natural for policymakers to call into question the basic underlying assumptions of trade liberalization and openness. In particular, outward-oriented or export-led growth strategies are being reassessed as openness is increasingly associated with greater volatility. However, it is crucial not to lose sight of the dynamic benefits that openness can offer. Examples include technology transfer, increased competitive pressure that reduces markups and improves efficiency, and economies of scale. The real question is how to manage outward-oriented strategies so as to maximize the benefits of openness while minimizing risks. This book aims to contribute to this important and ongoing policy debate, bringing together recent empirical work on the trade collapse, its causes and consequences, and the broader trade policy agenda in the post-crisis environment. It addresses critical policy issues revolving around the topic of outward-oriented growth strategy, including policy instruments that help manage risks associated with outward-orientation, lessons learned from the crisis for particular countries and regions, and how emerging trade policy issues such as climate change, commodities, global production networking, and migration affect the prospects for recovery and outward-oriented growth.

Lex Petrolea and International Investment Law: Law and Practice in the Persian Gulf offers readers a detailed analysis of jurisprudence on the settlement of upstream petroleum disputes between host states in the Persian Gulf and foreign investors. Dr Nima Mersadi Tabari considers the historical, political, and socio-economic roots of the existing frameworks and levels of protection offered to foreign investors. With particular focus on petroleum-related disputes, he initially delivers a comprehensive survey of the jurisprudence of international investment law and investment treaty arbitration. Following on from this, in three dedicated chapters, the author provides in-depth analysis of the legal regimes governing the matter in the major producers of the region: Saudi Arabia, Iraq, and Iran. A key resource for all professionals working on legal issues arising from foreign direct investments in natural resources, this book draws a detailed picture of the legal regime governing the upstream sector in the most important geographical region for the international oil and gas sector.

The idea of the EU as a constitutional order has recently taken on renewed life, as the Court of Justice declared the primacy of EU law not just over national constitutions but also over the international legal order, including the UN Charter. This book explores the nature and character of EU legal and political authority, and the complex analytical and normative questions which the notion of European constitutionalism raises, in both the EU's internal and its external relations. The book culminates in a dialogical epilogue in which the authors' arguments are questioned and challenged by the editor, providing a unique and stimulating approach to the subject. By bringing together leading constitutional theorists of the European Union, this book offers a sharp, challenging and engaging discussion for students and researchers alike.

This edition of the Comparative Law Yearbook of International Business provides a general examination of issues vital to the world's economic recovery. In the field of company law, practitioners examine changes in Russia's corporate law and the new Ukrainian law governing joint-stock companies. In the area of competition law, lawyers review Serbia and Bulgaria's new laws on the protection of competition and the private enforcement of Articles 101 and 102 in Europe's national courts. Dispute resolution occupies two chapters, one dealing with best practices for drafting arbitration clauses and the other set aside, recognition, and enforcement of private commercial arbitration awards. A further two chapters treat employment and labor matters relating to distribution and commercial representation, indemnity upon termination, and processing personal data in the employment context of Hungary. In the area of financial services, practitioners from five jurisdictions deal with fiduciary duty, the European Commission's proposed Directive on Alternative Investment Fund Managers, Swiss disclosure rules on significant shareholdings, restructuring and refinancing routes for mortgage-secured debt in Spain, and insurance laws and regulations in Nigeria. Foreign investment is examined by two authors, reporting on 2008 and 2009 developments in investment treaty disputes and foreign investment in Indonesia. Intellectual property issues are reviewed in chapters relating to the use of intellectual property as collateral in secured financing and intellectual property licensing in Canada. Finally, lawyers treat a variety of other issues, including the tax law of Liechtenstein, European Union-Israel trade in the automobile sector, insolvency risk and creditors' rights in Peru, the modernizing of trust law in Hong Kong and bridging cultural differences in international Transactions.
