Minimally invasive aesthetic procedures are an important part of dermatologists' day-to-day clinical routine. However, plastic surgeons are also becoming more willing to explore them, and minimally invasive cosmetic and aesthetic procedures are now an established interdisciplinary topic. Minimally Invasive Aesthetic Procedures - A Guide for Dermatologists and Plastic Surgeons addresses the needs of both these specialties. It provides a comprehensive overview of the most relevant and widely used minimally invasive procedures, presented in a practical and straightforward style.

Rather than a broad overview of the literature, it offers a step-by-step guide to clinical procedures. Each chapter explores a single clinical procedure, discussing the theoretical basis; the materials needed; the methods and techniques; clinical follow-up; before-and-after illustrations; as well as the side effects and complications and their management. It also includes a summary of tips and relevant references. With more than a hundred procedures presented and discussed in a clinically applicable format, Minimally Invasive Aesthetic Procedures - A Guide for Dermatologists and Plastic Surgeons is a practical manual for all dermatology and plastic surgery practitioners who are interested in aesthetic medicine.

O Atlas de Anatomia Prometheus é o conteúdo mais completo do mundo e representa um grande marco na evolução da apresentação didática da anatomia. Foi a partir dele, que os outros atlas passaram a incluir texto explicativo e deixaram de ser puramente uma fonte de consulta restrita da morfologia das estruturas anatómicas, passando a ser fontes para a compreensão do significado das estruturas. Suas ilustrações excepcionais e seu texto enxuto, preciso e de grande aplicação clínica, variam do simples ao complexo, possibilitando que estudantes de todos os cursos que incluam anatomia no seu currículo o utilizem. A quarta edição dessa coleção mostra um projeto vivo, em plena ebulição, com a certeza de que seus responsáveis vivem esta obra no seu dia a dia e estão trabalhando incessantemente para o seu aprimoramento.
