Elizabethan Lyric Poetry and Its Music

Good Press

For anyone wanting to appreciate the variety of Elizabethan lyrics and to trace their development, the poetic miscellanies of the sixteenth century are an unrivalled

starting point. Much of the music associated with these lyrics has surfaced only in recent years, and this book provides the first comprehensive exploration of the links between the miscellanies and this music.

Back in print after 17 years, this is a concise history of rhetoric as it relates to

structure, genre, and style, with special reference to English literature and literary criticism from Ancient Greece to the end of the 18th century. The core of the book is a quite original argument that the figures of rhetoric were not mere mechanical devices, were not, as many believed, a "nuisance, a quite sterile appendage to rhetoric to which (unaccountably) teachers, pupils, and writers all over the world devoted much labor for over 2,000

years." Rather, Vickers demonstrates, rhetoric was a stylized representation of language and human feelings. Vickers supplements his argument through analyses of the rhetorical and emotional structure of four Renaissance poems. He also defines 16 of the most common figures of rhetoric, citing examples from the classics, the Bible, and major English poets from Chaucer to Pope.

ELIZABETHAN SONNET CYCLES FIVE MAJOR POETIC SEQUENCES Five Major Elizabethan Sonnet Sequences by Samuel Daniel, Michael Drayton, Sir Philip Sidney, William Shakespeare and Edmund Spenser. A collection of five major sonnet sequences from the Elizabethan era by some of the great poets of the period: Sir Philip Sidney, Edmund Spenser, Michael Drayton, Samuel Daniel and William Shakespeare. This edition prints each poem cycle on its own, without notes or editorial

intrusions. And each poem has a page to itself, rather than being crammed together. It's a useful edition for students. MICHAEL DRAYTON, SONNET 4, FROM 'IDEA': BRIGHT STAR of beauty, on whose eyelids sit A thousand nymph-like and enamoured graces, The goddesses of memory and wit, Which there in order take their several places; In whose dear bosom, sweet delicious love Lays down his quiver which he once did bear, Since he that blessed paradise did prove, And leaves his mother's lap to sport him there Let others strive to entertain with words My soul is of a braver mettle made; I hold that vile which vulgar wit affords; In me's that faith which time cannot invade. Let what I praise be still made good by you; Be you most worthy whilst I am most true! Includes the illustrations of the poets, and notes on further reading. The book is also in a hardback edition. English Poems: The Elizabethan age and the Puritan period [c1909] London ; New York : Longman

"This volume presents the first printed edition of a late sixteenth-century poetic miscellany and provides invaluable insight into understanding the literature of the period. Its owner and principal scribe, Humfrey Coningsby, drew on texts circulating in manuscript, predominantly by contemporary writers of the time - including Philip Sidney, Edward Dyer, Arthur Gorges, Walter Raleigh, Elizabeth I, the Earl of Oxford, Nicholas Breton,

George Peele, and Thomas Watson. Coningsby also added at least two of his own compositions, along with anonymous poems not found in any other manuscripts or printed books. This edition preserves the appearance, spelling, and punctuation of the original manuscript while expanding antiquated contractions to provide an easily readable text. Textual notes appear on the page, and in-depth contextual notes and word glosses are provided in the commentary section. The analyses add to our knowledge of early modern manuscript culture and literary manuscript transmission, and a substantial introduction provides context for the compilation of the anthology"--

During the Elizabethan Age and for the following hundred and fifty years, such figures as Shakespeare and Jonson, Milton and Pope dominated the English literary scene. But what was the vast majority of society really watching, reading and singing? This pioneering anthology, set in two volumes, attempts to answer this question by offering a wide selection of material, ranging from broadside ballads

and drolls to witch trial reports and political newsbooks.

Columbia University Studies in English This 1999 book offers an original study of lyric form and social custom in the Elizabethan age. Ilona Bell explores the tendency of Elizabethan love poems not only to represent an amorous thought, but to conduct the courtship itself. Where studies have focused on courtiership, patronage and preferment at court, her focus is on love poetry, amorous courtship, and relations between Elizabethan men and women. The book examines the ways in which the tropes and rhetoric of love

poetry were used to court Elizabethan women (not only at court and in the great houses, but in society at large) and how the women responded to being wooed, in prose, poetry and speech. Bringing together canonical male poets and women writers, Ilona Bell investigates a range of texts addressed to, written by, read, heard or transformed by Elizabethan women, and charts the beginnings of a female lyric tradition.

Sidney's statement in his Apology for Poetry that quantitative verse on the Latin model is more suitable than the accentual verse of the English tradition 'lively to

express divers passions, by the low and lofty sound of the well-weighed syllable' is only one of numerous assertions of the superiority of classical over native metres made by English scholars and poets during the Renaissance, stretching from Roger Ascham some twenty years earlier to Ben Jonson some fifty years later.
