A brand new version of the best-selling enquiry desk reference text, Know it All, Find it Fast, specifically designed for those working with children and young people in schools, public libraries and at home. Including an invaluable overview of the education system and the school curriculum as well as a comprehensive listing of useful resources by topic, this A-Z covers school subjects from science and maths to reading and literacy, and more general themes such as children's health, wellbeing and hobbies. Each topic is broken down into useful sections that will help to guide your response; Typical questions

outline common queries such as 'Have you got any information about volcanoes?' Considerations provides useful hints and tips i.e. 'Geography now encompasses not only physical and human geography but also environmental geography, social geography, geology and geopolitics.' Where to look lists relevant printed, digital and online resources with useful annotations explaining their scope and strengths Readership: This is the must-have quick reference tool arming librarians and teachers with the knowledge to deal with any queries thrown at them from children and young people as well as their parents and caregivers. It will also be a handy reference for parents and anyone working with children and young people in other organizations such as homework clubs and youth workers.

Cambridge IGCSE® English As a Second Language

Workbook Hodder Education

This critical survey of the recent history of National Curriculum English at secondary level argues that the present tripartite structure hinders coherent thinking about the subject.

Cambridge Global English Stage 2 Learner's Book with Audio CDs (2) Letts and Lonsdale

Bethan Marshall traces the competing traditions of English teaching and considers their relevance to the current debate through an analysis of English teachers' views about themselves and their subject. The findings are based on a highly original research method in which teachers were asked to respond to and comment upon five different descriptions of their approaches to English teaching. English Teachers - The Unofficial Guide:

*contextualises current debates about English teaching within the subject's contested history *provides a vehicle for teachers to

reflect on their own practice and locate themselves within the debate *opens up the debate on assessment practices within English teaching.

GCSE English Literature for AQA Short Story Anthology Student Book Bloomsbury Publishing

Science education has changed radically in recent years, both as a result of debates within the subject and because of curriculum legislation. Jerry Wellington discusses the major issues in science education today - such questions as the balance of content and process in the curriculum, the role of practical work and the nature of science as a subject - and uses this discussion to support a very practical resource for teachers in training and their mentors. The book covers every aspect of science teaching, including: Planning Differentiation and special needs Assessment Practical work Problem solving and investigations IT in science Handling sensitive issues, e.g. sex education Building on children's prior learning Throughout, Wellington's guidance is accompanied by suggestions for discussion, activities for individual and group use and annotated lists of further reading aimed at helping the reader to build up a personal approach to the teaching of the subject. Students will also be helped by the glossaries of specialist terminology at the end of each chapter and by the references to National Curriculum attainment targets

at every point in the book.
