One third of each unit is dedicated to skills training. The step-by-step approach focuses on writing and early literacy skills to build children's confidence in reading, writing, speaking, and understanding English. One in six lessons is a phonics lesson to train children to recognize and produce English sounds. At levels 1-3 the lessons are supported by flashcards, and by more activities on the Student MultiROM. The civic education syllabus educates children in good values and behaviour. The Photocopy Masters Books at levels 1-2 include 15 values worksheets. The Testing and Evaluation Book and the test builder element of the Teacher's Resource CD-ROM help teachers to evaluate children's progress. One lesson per page with clear lesson objectives makes the course easy to teach. Accompanying resources, including the Grammar Friends series, skills series, Teacher's Resource Pack, course readers, and Teacher Resource CD-ROM allow teachers to focus on additional skills training and means the course can fit different teaching programmes per week.

New Headway Plus Special Edition Pre Intermediate Teachers Book OXFORD University Press

This book employs the realm of English Language Teaching (ELT) as a discursive point of departure to explore how individuals, groups, entities and institutions apprehend, embrace, deal with, manipulate, problematize and resist global flows of people, ideas, information, goods, and technology. It apprehends and attends to tensions arising from the fluidly local-global construction and negotiation of borders of identity and interaction within a diverse array of contexts and English education therein. These tensions, whether conceptual or pedagogical, may arise in and through governmental and institutional policymaking, teacher training, or curriculum and materials development, and in the learning experience both within and beyond the classroom, as teachers and students engage with course content and each other.

An unconventional war requires unconventional men—the Special Forces. Green Berets • Navy SEALs • Rangers • Air Force Special Operations • PsyOps • Civil Affairs • and other special-mission units The first two Commanders books, Every Man a Tiger and Into the Storm, provided masterly blends of history, biography, you-are-there narrative, insight into the practice of leadership, and plain old-fashioned storytelling. Shadow Warriors is all of that and more, a book of uncommon timeliness, for, in the words of Lieutenant General Bill Yarborough, "there are itches that only Special Forces can scratch." Now, Carl Stiner—the second

commander of SOCOM, the U.S. Special Operations Command—and Tom Clancy trace the transformation of the Special Forces from the small core of outsiders of the 1950s, through the cauldron of Vietnam, to the rebirth of the SF in the late 1980s and 1990s, and on into the new century as the bearer of the largest, most mixed, and most complex set of missions in the U.S. military. These are the first-hand accounts of soldiers fighting outside the lines: counterterrorism, raids, hostage rescues, reconnaissance, counterinsurgency, and psychological operations—from Vietnam and Laos to Lebanon to Panama, to Saudi Arabia, Kuwait, and Iraq, to the new wars of today...
