 Once you start a conversation, how can you preserve it? The best way is to stay away from closed-loop questions. These are questions that other people can only answer with "yes" or "no". The problem with them is that they do not invite any additional discussion. You ask a question, they answer "yes" or "no", and that's it. Instead, ask open-ended questions. "What came next?", "What do you do for fun?", "Tell me about where you grew up." And with such questions, a conversation progresses well. Not all French conversation has to start with "bonjour". This is honestly the most consistent method, but it may not be ideal for each situation. We have found that some of my naturally flowing conversations begin in between. You ignore boring trivia and hit the ground, so there is no danger of uninteresting interaction in any way. Let us start looking at some French dialogue beginnings that you can use in the real world. Would you like to see how

French is used in everyday situations? Did you know that the best way to learn this beautiful language is using it in a daily context? To that end, French Conversations brings you the most useful and easy-to-learn conversations that will help you achieve fluency in this language.

As an entrepreneur, Anna Akbari learned that one of the best things about startups is their ability to "pivot" quickly—basically a euphemism for failing and starting over. And she quickly found that personal success is no different. It's not just about developing and following the right process but also having a good idea. And that demands rigor and daily maintenance—far beyond a few positive affirmations. Like any Silicon Valley startup, the business of life is not as glamorous as its Instagram account would make it seem. What do you do when planning is not an option? When control is out of your reach? You isolate the small stuff, experiment constantly, and use the results to lay a more sustainable foundation for the future. You validate your idealized vision by testing it out in bite-sized increments. You see what

sticks, integrate, and move forward. And inevitably, you experience a series of failures along the way, but those failures are key to your next success. Living a start up life is about maximizing flexibility and measuring on-going results, not avoiding failure or reaching one particular end goal. It's about embracing defeat, analyzing it, and failing up. In *Startup Your Life*, Akbari shows that after all, it's often the stumbles that pave the way for real happiness.

John Ashbery's most renowned collection of poetry -- Winner of The Pulitzer Prize, the National Book Award, and the National Book Critics Circle Award First released in 1975, *Self-Portrait in a Convex Mirror* is today regarded as one of the most important collections of poetry published in the last fifty years. Not only in the title poem, which the critic John Russell called "one of the finest long poems of our period," but throughout the entire volume, Ashbery reaffirms the poetic power that made him an outstanding figure in contemporary literature. These are poems "of breathtaking freshness and adventure in which dazzling orchestrations of language open up whole areas of consciousness no other American poet as ever begun to explore" (The New York Times).

Historian John W. Dower's celebrated investigations into modern Japanese history, World War II, and U.S.-Japanese relations have earned him critical accolades and numerous honors, including the Pulitzer Prize, the National Book Award, and the Bancroft Prize. Now Dower returns to the major themes of his groundbreaking work, examining American and Japanese perceptions of key moments in their shared history. Both provocative and probing, *Ways of Forgetting, Ways of Remembering* delves into a range of subjects, including the complex role of racism on both sides of the Pacific War, the sophistication of Japanese wartime propaganda, the ways in which the nuclear bombing of Hiroshima and Nagasaki is remembered in Japan, and the story of how the postwar study of Japan in the United States and the West was influenced by Cold War politics. *Ways of Forgetting, Ways of Remembering* offers urgent insights by one of our greatest interpreters of the past into how citizens of democracy should deal with their history and, as Dower writes, "the need to constantly ask what is not being asked."

In early modern England, religious sorrow was seen as a form of spiritual dialogue between the soul and God, expressing how divine grace operates at the level of human emotion. Through

close readings of both Protestant and Catholic poetry, Kuchar explains how the discourses of 'devout melancholy' helped generate some of the most engaging religious verse of the period. From Robert Southwell to John Milton, from Aemilia Lanyer to John Donne, the language of 'holy mourning' informed how poets represented the most intimate and enigmatic aspects of faith as lived experience. In turn, 'holy mourning' served as a

way of registering some of the most pressing theological issues of the day. By tracing poetic representations of religious sorrow from Crashaw's devotional verse to Shakespeare's weeping kings, Kuchar expands our understanding of the interconnections between poetry, theology and emotion in post-Reformation England.
