Macmillan English Dictionary MACMILLAN Linguists routinely emphasise the primacy of speech over writing. Yet, most linguists have analysed spoken language, as well as language in general, applying theories and methods that are best suited for written language. Accordingly, there is an extensive 'written language bias' in traditional and present day linguistics and other language sciences. In this book, this point is argued with rich and convincing evidence from virtually all fields of linguistics.

The Macmillan Dictionary of Current English Usage Simon & Schuster

The aim of this dissertation is to examine the definition, spelling and pronunciation of Islamic terms as portrayed in the Oxford Advanced Learner's Dictionary (OALD, 2005), the Macmillan English Dictionary for Advanced Learners (Macmillan, 2007), and the Cambridge Advanced Learner's Dictionary (CALD, 2008). Through this research, one would be able to look at the problematic definition, spelling and pronunciation of Islamic terms in the three English dictionaries that bring about misconception, confusion and misunderstanding among dictionary users about the intended definition, spelling and pronunciation of the terms as understood in Islam. This research is based on a qualitative data collection. The Islamic terms were first identified from the OALD (2005) which served as a basis for reference of target items for the other two dictionaries. The identified Islamic terms then were examined and alternative suggestions for appropriate definition, spelling, pronunciation and transliteration of the target items as understood in Islam were provided based on the translation of the Holy Qur'an, books written by Muslim scholars and intelligentsia, Islamic encyclopedia as well as English - Arabic dictionaries. The results show that in the OALD (2005), 34 of 49 terms are intact definitions, nine of the terms are inadequately defined and six of them are inaccurately defined. 22 of 42 items in the Macmillan (2007) are intact definitions, 11 of them are inadequately defined and nine terms are inaccurately defined. In the CALD (2008), 15 of 32 items are intact definitions, 10 terms are inadequate definitions and seven terms are inaccurate definitions. 24 terms are

inaccurately spelled while 46 items are mispronounced in the OALD (2005), 18 terms are inaccurately spelled while 39 items are mispronounced in the Macmillan (2007) and 16 terms are inaccurately spelled while 30 items are mispronounced in the CALD (2008). In brief, the misconception of Islamic terms in terms of definition, spelling and pronunciation in English dictionaries is worth acknowledging to prevent confusion and misunderstanding among dictionary users who wish to understand Islam. It is modestly presumed that this study is a contribution to Islamic lexicon in the English language dictionaries.

The Mother Tongue Webster's New World

With dazzling wit and astonishing insight, Bill Bryson—the acclaimed author of *The Lost Continent*—brilliantly explores the remarkable history, eccentricities, resilience and sheer fun of the English language. From the first descent of the larynx into the throat (why you can talk but your dog can't), to the fine lost art of swearing, Bryson tells the fascinating, often uproarious story of an inadequate, second-rate tongue of peasants that developed into one of the

world's largest growth industries.

Macmillan English Dictionary for Advanced Learners Merriam-Webster Seminar paper from the year 1998 in the subject English Language and Literature Studies - Linguistics, grade: 1 (A), University of Zurich (English Seminar), course: Lexicography, 18 entries in the bibliography, language: English,

abstract: In this paper, 80 lexicographic definitions from the Oxford Advanced Learner's Dictionary are classified and evaluated, the basic question being the following: are similar words defined in similar ways? The words are classified according to part of speech, concreteness and word frequency, and eight different ways to define a word are considered. The study confirms that concreteness and part of speech have a considerable impact on the way a particular word is defined in the ALD.
