Learning Elementary Science for Class 4 (A.Y. 2023-24)Onward Avichal Publishing Company

1. Chroma is an integrated Term series for Classes 1 to 5, comprising three term books for each class. 2. The books are mapped to the National Curriculum Framework. 3. They focus on developing the 21st century skills of critical thinking, creativity, communication and collaboration through reading texts that are value-centric, as well as activities, exercises and projects that develop life skills along with application and analytical thinking. 4. The series, which is meant for Classes 1 to 5, offers activity based courses for all subjects, i.e. Classes 1 & 2 (Term 1 to 3): English, Mathematics, Environmental Studies, General Knowledge Classes 3 to 5 (Term 1 to 3): English, Mathematics, Science, Social Studies, General Knowledge 5. All subjects are packaged in 3 term books for each class in such a way that the learner has-to carry only one textbook to school every day. 6. Each book contains the course content for each subject in a graded fashion. The child progresses from one book to the next having acquired all the concepts in all the subjects that he will require. 7. The books are child-friendly, with explanations given in age-appropriate language, along with ample examples, interesting activities and attractive illustrations. 8. Each subject is presented in a way that will appeal to learners and facilitators, with Activity Based Learning being the focus for all core subjects. 9. The exercises are designed to enhance skills of application and analysis while developing multiple

intelligences.

The subjects included in Classes 3 to 5 (Semester 1 and 2) are English, Mathematics, Science, Social Studies and General Knowledge

Science Success Book for Class 4 Vikas Publishing House

The Learning Elementary Science is a series consisting of five books (Classes 1 to 5), based on the latest curriculum and guidelines laid down by NCERT in its National Curriculum Framework (NCF). The main focus is given on the development of different skills as per NEP 2020. In this revised edition, various elements of NEP 2020 are incorporated to facilitate the shift from rote learning to skill building. The emphasis is also given to develop higher order thinking skills in children including communication, creativity and critical thinking. Life skills along with inculcation of healthy habits are

also discussed to promote a holistic approach towards the protection of the environment and conservation of nature. This series: • aims at encouraging inventiveness and competence in children. • follows a thematic approach of the concepts. • introduces each chapter with an interesting and interactive warm up section to recall the previous knowledge related to the concept. • presents language in simple and easy to follow manner, considering the age appropriateness of children. • contains vibrant colourful illustrations and pictures to grab the interest and attention of children as well as for clarity of the concepts. • adopts collaborative approach that leads to interaction of both students and teacher in the process of learning. • provides well-formulated questions, which address the different cognitive levels and various skills, as per NEP 2020 (Art Integration, Case Study Based, Application, Critical Thinking, Experiential Learning, Problem Solving, Exploration, etc) of students. • includes Life Skills that are helpful in real life situations. • raises the environmental awareness among children as well as its conservation and protection from the very young age. We are sure this series will make learning science a fascinating, effective and engaging process for the learners. Looking forward to your valuable suggestions.

Targeting Mathematics series consists of nine textbooks; one for Primer and eight textbooks for classes 1-8. These books have been formulated strictly in accordance with the Continuous and Comprehensive Evaluation (CCE) approach of Central Board of Secondary Education (CBSE) and are based on the latest syllabus. The series also conforms to the guidelines of National Curriculum Framework 2005. The books have been written by experienced and renowned authors.

Perfect Genius NCERT Mathematics Worksheets for Class 4 (based on Bloom's taxonomy) 2nd Edition Avichal Publishing Company

It is after years of teaching English to young children that this new course, Creative English, has been put together. Two things were in mind during its preparation: • What do children enjoy while learning a language? Stories are based on children's interests and therefore hold their attention. For the first few classes, the lessons draw upon pupils' everyday experience, allowing links to be made between home and school. • What does a teacher need while teaching a language? The books are structured to meet the requirements of teachers across the board. Someone who has just started a career in teaching would find it stimulating enough to give his or her best. Others, with years of experience, could use it as a tool to carry forward all the good they have been doing. Goyal Brothers Prakashan

The computer has firmly carved its place in human society. The computer makes our job easier and has reshaped our imagination. The world of technology and computer systems is continuously evolving and has touched virtually and every aspect of our lives. The Computer Science Success series is based on Windows 10 and Office 2016. This series is specially designed for providing a vast theoretical and practical knowledge of computers to the students. It is the most comprehensive series in which activity and tool-based approach is incorporated. Each chapter in the book begins with an engaging introduction followed by an activity-based approach to learning, which is supported by an ample number of diagrams, pictures, and relevant screenshots. The exercises in each chapter have sufficient practical and activity-based questions. Lots of interesting software like Office 2016 (like Word, Excel, and PowerPoint) and MSWLogo have been taught in these books. Internet is also covered. Core features of the Computer Science Success series (for Classes 3 to 5) are: □ Learning Objectives: Describes the goals required to be achieved by the end of the chapter. □ Chapter Contents: Concepts are explained to strengthen the knowledge base of the students. □ Know More: Gives extra and useful information on the topic being covered. □ Fact: Includes historical facts about the topic being covered. □ Top Tips: Gives a shortcut method of the topic being covered. □ Activity: Encourages the students to explore some real-life use of the topic being covered. □ Summary: Gives a brief summary of the topics being taught in the chapter. □ Exercises: Includes a variety of questions to evaluate the theoretical knowledge of the students. □ Activity Zone: Includes the following activities: v Puzzle: Includes crosswords or mazes to focus on some important terms included in the chapter. v Lab Session: Gives instructions to the students to perform various tasks in the lab. v Group Discussion: Encourages the students to have discussions on various topics. v Project Work: Assigns various tasks to the students to apply the concepts already learned. □ Teacher's Notes: Gives suggestions to the teachers to make the learning process better. □ Periodic Tests: A total of four periodic tests are included to evaluate the knowledge of the students. □ Model Test Papers: Two Model Test Papers, covering questions from all the chapters are included in the middle and towards the end of the book. Project Work: A set of projects has been designed to challenge the students to apply the concepts learned. Cyber Olympiad: Gives a sample Cyber Olympiad question paper to test the knowledge of the students. Practice Assignments(in a separate section): Includes both Practice Assignments and Quizzes, that help the students to understand the topics given in the chapter thoroughly. Goyal Brothers Prakashan
