A-REI.2.4 - Solve quadratic equations in one variable. A-REI.4.10 - Understand that the graph of an equation in two variables is the set of all its solutions plotted in the coordinate plane. Section 2: Equations and Inequalities Efficiency is the ratio of useful energy output to energy input as a percentage given by the equation 2.4 - Momentum and impulse. Newton's second law expressed in terms of rate of change of momentum; The linear momentum (p) is given by the equation. The linear momentum (p) is a vector with the same direction as the velocity of an object. Topic 2: Mechanics - IB Physics Physics is filled with equations and formulas that deal with angular motion, Carnot engines, fluids, forces, moments of inertia, linear motion, simple harmonic motion, thermodynamics, and work and energy. Here's a list of some important physics formulas and equations to keep on hand - arranged by topic - so you don't have to go searching [...]

Topic 2 - Functions and equations (24 hours) The aims of this topic are to explore the notion of a function as a unifying theme in mathematics, and to apply functional methods to a variety of

mathematical situations.

### Section 2: Equations and Inequalities

Efficiency is the ratio of useful energy output to energy input as a percentage given by the equation 2.4 - Momentum and impulse. Newton's second law expressed in terms of rate of change of momentum; The linear momentum (p) is given by the equation. The linear momentum (p) is a vector with the same direction as the velocity of an object.
