**Modern Law of Meetings** Oxford University Press

The landscape of shareholder dispute resolution in Hong Kong has changed vastly since the launch of the Civil Justice Reform in 2009. Key initiatives - the voluntary court-connected scheme and reform of the statutory unfair prejudice provisions - were employed to promote the greater use of alternative dispute resolution (ADR) in shareholder disputes. While the Hong Kong government and judiciary introduced such schemes to prove the legitimacy of extra-judicial over court-based litigation processes, their success is still uncertain. In this book, socio-legal theory and sociological institutionalism are used to develop a theoretical framework for analyzing the key stages of institutionalization. The author analyzes how procedural innovations could acquire legitimacy through different types of legal and non-legal inducement mechanisms within the institutionalization process. Recommendations on codifying and innovating ADR policy in Hong Kong shareholder disputes are also made with comparison to similar policies in the United Kingdom, South Africa and New Zealand.

Written in a readable style, this book provides an account, and much-needed analysis, of minority shareholders rights and remedies under section 459 of the Companies Act 1985. In the study of minority shareholders rights, there has been a tendency to give inadequate attention to the remedies now available. This book takes a new approach to the treatment of minority shareholders protection. Much of this book is devoted to a detailed study of the effectiveness of section 459 as a shareholders remedy. Commencing with an examination of the problems faced by a minority

shareholder, the book goes on to

**Introduction to Business Law** Oxford University Press, USA

Anyone can buy stock in a public company, but not all shareholders are equally committed to a company's long-term success. In an increasingly fragmented financial world, shareholders' attitudes toward the companies in which they invest vary widely, from time horizon to conviction. Faced with indexers, short-term traders, and activists, it is more important than ever for businesses to ensure that their shareholders are dedicated to their missions. Today's companies need "quality shareholders," as Warren Buffett called those who "load up and stick around," or buy large stakes and hold for long periods. Lawrence A. Cunningham offers an expert guide to the benefits of attracting and keeping quality shareholders. He demonstrates that a high density of dedicated long-term shareholders results in numerous comparative and competitive advantages for companies and their managers, including a longer runway to execute business strategy and a loyal cohort against adversity. Cunningham explores dozens of corporate practices and policies—such as rational capital allocation, long-term performance metrics, and a shareholder orientation—that can help shape the shareholder base and bring in committed owners. Focusing on the benefits for corporations and their investors, he reveals what draws quality shareholders to certain companies and what it means to have them in an investor base. This book is vital reading for investors, executives, and directors seeking to understand and attract the kind of shareholders that their companies need.

The fourth edition of the leading company law textbook, provides the most authoritative and

comprehensive commentary on Irish company law following the commencement of the Companies Act 2014. The Companies Act 2014 makes the most far-reaching and fundamental changes to Irish company law in two generations, putting forward a radically different approach whereby the private company limited by shares will become the new model company. The structure of the fourth edition of this highly regarded title mirrors this new Act. The Act comprises over 1,448 Parts and represents the modern statement of the law applicable to the formation of companies, administration and management to their winding up and dissolution, incorporating the rights and duties of their officers, members and creditors. The Act commences on 1 June 2015 and introduces significant changes for companies operating in Ireland. This work has been expanded and revised to account for these legislative changes and important case law. As chairperson of the Company Law Review Group, whose recommendations greatly informed the new Act and as a leading practitioner of company law, Tom Courtney has a unique insight to the new legislation, its purpose and interpretation. The fourth edition is virtually a complete re-write and at approximately 2,900 pages it is some 400 pages longer than the last edition. Fully updated to take account of the dozens of judgments from the Irish and UK courts that have been delivered since the previous edition as well as the new statutory provisions, the fourth edition of The Law of Companies is a 'must have' for all practitioners, students and users of Irish company law.
