We are now living in a world where Brexit and Trump are daily realities. But how did this come about? And what does it mean for the future? Populism and ultra-nationalism brought about the rise of Hitler and Mussolini in the 1930s. Now, as Trump sits in the White House, Britain negotiates its way out of the EU, and countries across Europe see substantial gains in support for the extreme Right, award-winning journalist, author, and historian Gwynne Dyer asks how we got here, and where we go next. Dyer examines the global challenges facing us all today and explains how they have contributed to a world of inequality, poverty, and joblessness, conditions which he argues inevitably lead to the rise of populism. The greatest threat to social and political stability, he argues, lies in the rise of automation, which will continue to eliminate jobs, whether politicians admit that it is happening or not. To avoid a social and political catastrophe, we will have to find ways of putting real money into the pockets of those who have no work. But this is not a book without hope. Our capacity for overcoming the worst has been tested again and again throughout history, and we have always survived. To do so now, Dyer argues, we must embrace radical solutions to the real difficulties facing individuals, or find ourselves back in the 1930s with no way out.

A Love Story of Impossible Bottles (Second Edition) is author Kathy Brown's gift to her husband, Chris A. Brown, who tragically died in a skydiving accident on July 7, 2012, at the age of fifty-two. A special and unique person with many interests and talents, Chris was the master of the art of impossible bottles and the original owner and founder of the website insidethebottle.com. This book is based upon a beautiful concept: Impossible Bottles, all of which hold some special memory. According to the author, the bottles described in this book symbolize a person's heart. We don't easily let everything come in, but when someone or something is special and dear to us, it stays in our hearts like the memories captured in those bottles.

It has been more than fifty years since John Waters filmed his first short on the roof of his parents' Baltimore home. Over the following decades, Waters has developed a reputation as an

uncompromising cultural force not only in cinema, but also in visual art, writing, and performance. This major retrospective examines the artist's influential career through more than 160 photographs, sculptures, soundworks, and videos he has made since the early 1990s. These works deploy Waters's renegade humor to reveal the ways that mass media and celebrity embody cultural attitudes, moral codes, and shared tragedy. Waters has broadened our understanding of American individualism, particularly as it relates to queer identity, racial equality, and freedom of expression. In bringing "bad taste" to the walls of galleries and museums, he tugs at the curtain of exclusivity that can divide art from human experience. Waters freely manipulates an image bank of less-than-sacred, low-brow references—Elizabeth Taylor's hairstyles, his own self-portraits, and pictures of individuals brought into the limelight through his films, including his counterculture muse Divine—to entice viewers to engage with his astute and provocative observations about society. This richly illustrated book explores themes including the artist's childhood and identity; Pop culture and the movie business; Waters's satirical take on the contemporary art world; and the transgressive power of images. The catalogue features essays by BMA Senior Curator of Contemporary Art Kristen Hileman; art historian and activist Jonathan David Katz; critic, curator, and artist Robert Storr; as well as an interview with Waters by photographer Wolfgang Tillmans. Published in association with the Baltimore Museum of Art. Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project

management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

Over the last two decades, the medical practitioner's traditional skills of history taking and examination have expanded, with a greater emphasis now placed on communication skills, and the skills required to master a range of increasingly complex procedures. This book takes the reader step by step through all of the practical techniques with which they must be familiar. At each stage they provide guidance on how to carry out these procedures efficiently and with the minimum distress to the patient, with advice on appropriate questions to ask the patient, and comments on how to interpret the patient's responses. Also covered is the importance of explaining the diagnosis clearly, and how to communicate bad news. There are many shared skills in the routine work of both doctor and nurse, and this concise pocket-sized handbook is intended as an aid to all those learning to deal with real patients for the first time.

In this tale of high-spirited and terrifying adventure, set against

the background of the West that Larry McMurtry has made his own, *By Sorrow's River* is an epic in its own right, with an extraordinary young woman as its leading figure. At the heart of this third volume of his Western saga remains the beautiful and determined Tasmin Berrybender, now married to the "Sin Killer" and mother to their young son, Monty. *By Sorrow's River* continues the Berrybender party's trail across the endless Great Plains of the West toward Santa Fe, where they intend, those who are lucky enough to survive the journey, to spend the winter. They meet up with a vast array of characters from the history of the West: Kit Carson, the famous scout; Le Partezon, the fearsome Sioux war chief; two aristocratic Frenchmen whose eccentric aim is to cross the Great Plains by hot air balloon; a party of slavers; a band of raiding Pawnee; and many other astonishing characters who prove, once again, that the rolling, grassy plains are not, in fact, nearly as empty of life as they look. Most of what is there is dangerous and hostile, even when faced with Tasmin's remarkable, frosty sangfroid. She is one of the strongest and most interesting of Larry McMurtry's women characters, and is at the center of this powerful and ambitious novel of the West.
