"Promoting Community Change, 6th Edition addresses the real-world issues facing professionals in social work, human services, and community health--and gives readers the skills and information they need to be effective agents of change at the community level. By emphasizing the role a strengthened community can play in preventing and solving the problems commonly experienced by individuals and families, the author gives readers the tools they need to improve the lives of individual clients as well as entire communities."--Publisher description.

Reference and Information Services: An Introduction, 6th Edition A Community of Readers A Thematic Approach to Reading

In a comprehensive, evidenced-based, accessible book, renowned authors D. Ray Reutzel and Robert B. Cooter, Jr. show clearly that it is the teacher who makes the difference in the development of literacy in children grades K-8. Reutzel and Cooter's unique approach organizes each chapter around seven pillars of evidence-based, effective reading instruction: Teacher Knowledge, Assessment, Effective Instruction Strategies, Response to Intervention, Family and Community Connections, and, new to this edition, Student Motivation and New Literacies/Technology. Here's what makes this new Sixth Edition unique: - Two new pillars of effective reading instruction-"Motivation and Engagement "and" Technology and New Literacies"- have been added to the previous edition's five pillars. Now each chapter is organized into seven pillars of evidence-based, effective reading instruction: Teacher Knowledge, Assessment, Evidence-Based Instructional Practices, Response to Intervention, Motivation and Engagement, Technology and New Literacies, and Family and Community Connections. Teachers can count on each chapter's presentation to follow a predictable organization. - Greatly expanded coverage of working with English learners includes important information about the particular learning needs of English learners plus methods for assessment and instruction. - Marginal A+RISE Teaching Strategies align with relevant concepts in the main body of the text.

There is virtually no way to complete one's education without encountering a research report. The book that has helped demystify qualitative and quantitative research articles for thousands of readers, from the authors of the best-selling *Proposals that Work*, has been revised. This edition is completely reorganized to separate quantitative and qualitative research with four new distinct sections (research reports, quantitative research, qualitative research, and research reviews. The authors presume no special background in research, and begin by introducing and framing the notion of reading research within a wider social context. Next they offer insight on when to seek out research, locating and selecting the right reports, and how to help evaluate research for trustworthiness.

Our digitally rich world changes quickly and contains more information resources than ever before; as a result, school librarians are tasked with the enormous challenge of curating a diverse, high-quality, and up-to-date collection for teachers, students, and administrators to use. This new edition of The Collection Program in Schools gives school librarians the tools to develop and maintain a collection in a constantly changing environment, often with reduced budgets; and to ensure that students can use virtual libraries and have access to all modern media and learning resources. The book logically progresses in its coverage of national and state policy concerns to community needs to the process of collection building and maintenance. Topics covered include key education trends affecting collections, such as digital textbooks and other non-print resources, instructional improvement systems, STEM priorities, and open education resources; the use of school libraries as makerspaces; media type considerations for a range of users; Common Core State Standards and Next Generation Science Standards; and the principles of curation: acquisition, description, organization, promotion, evaluation, and maintenance. This guide is ideal for use in many graduate-level school librarian preparation courses, including classes on school library collection development and school library management.

In its revised sixth edition, The Principalship continues to emphasize school culture, standards, and building community, while also providing a moral basis for leadership as a means of navigating contextual issues and constraints that principals routinely face. Studying The Principalship, future principals will explore in-depth the array of decisions that they will be confronted with and how those decisions will affect students, teachers, and school policy. Extensively updated, the new edition emphasizes diversity as a part of community building; the importance of instructional and shared leadership; and the building of communities of practice, while the book's trademark concentration on reflective practice is maintained throughout the text. The sixth edition also contains a new "Some Reflections" feature that appears in most chapters and that offers students a chance for further critical thinking and enriched class discussions.

"The book in question starts by looking at a teacher lament that Carol hears whenever she speaks to teachers: kids don't read. The book continues by examining how/why teachers make their myriad classroom decisions each day and drawing on the work of great thinkers and writers from outside education to inform and broaden that decision-making. Subsequent chapters offer instructional moves for guiding students into and through classical texts, which continue to be read because--not in spite--of their continued relevance to contemporary readers. 'Quirky' book lists (not 'Best Books for 8th Graders' but more like 'Books to Grab when Leaving a Burning House') draw the book to a conclusion"--

In this practical casebook/workbook, readers "watch" experienced and effective psychologists, counselors, and other human service professionals practice consultation and collaboration. By reading and responding to eight cases, they will be able to bridge the gap between theory and practice, and between knowing what consultation is and knowing how to consult. Readers also get practice in making their own decisions by reflecting on how they would handle these same cases, and can apply what they have learned to a series of ten practice cases. By the time they finish the book, readers will have begun to forge their own personalized approach to consultation. This casebook is an ideal accompaniment to Dougherty's core consultation text, PSYCHOLOGICAL CONSULTATION AND COLLABORATION IN SCHOOL AND COMMUNITY SETTINGS, 6th Edition.
