Polish Foreign Trade Oxford University Press on Demand

As today's spark-ignition and diesel engines have to fulfil constantly increasing demands with regard to CO2 reduction, emissions, weight and lifetime, detailed knowledge of the components of an internal combustion engine is absolutely essential. Automotive engineers can no longer survive without such expertise, regardless of whether they are involved in design, development, testing or maintenance. This text book provides answers to questions relating to the design, production and machining of cylinder components in a comprehensive technical analysis.

Reformation Readings of the Apocalypse

In this study, Irene Backus examines the fate of the Apocalypse at the hands of early Protestants in three centers of the Reformation: Geneva, Zurich, and Wittenberg. To do so, Backus systematically investigates sources and methods of the most important reformed and Lutheran commentaries of the Apocalypse from 1528-1584.
