## SIMMONS SINGLETON

**Breach of Promise to Marry** Oxford University Press  
 In his 1850 article "Prostitution," W. R. Greg asserts that nineteenth-century society conceived of prostitutes as "far more out of the pale of humanity than negroes on a slave plantation or fellahs in a Pasha's dungeon." Elsie B. Michie here provides insightful readings of novels by Mary Shelley, Emily and Charlotte Bronte, Elizabeth Gaskell, and George Eliot, writers who confronted definitions of femininity which denied them full participation in literary culture. Exploring a series of abhorrent images - Frankenstein's monster, a simianized caricature of the Irish, the menstruating woman alluded to in debates on access to higher education, and the fallen woman - Michie traces the links between the Victorian definition of femininity and other forms of cultural exclusion such as race and class distinctions. Michie considers a range of fiction written in the period 1818-1870, paying particular attention to changes in the construction of gender which coincided with changing attitudes toward colonial and class relations. Drawing on the work of such theorists as Teresa de Lauretis, Catherine Gallagher, Mary Poovey, Gayatri

Spivak, and Homi Bhabha, she maps out connections between two excluded territories, one defined by gender and the other by class, race, and economics. Michie transforms our understanding of familiar novels including *Wuthering Heights* and *Middlemarch* in which the two themes are articulated together, as she illuminates political, economic, and social issues connected to models of difference. Literary theorists, feminist scholars, Victorianists, and others interested in cultural studies and the history of the novel will welcome this perceptive and engaging book.

### Outside the Pale SUNY Press

This original study of Elizabeth Gaskell places the woman and her writings within their full Victorian context. Recent critical appraisal has focused both on her role as a novelist of industrial England, and on her awareness of the position of women and the problems of the woman writer in that society. Kate Flint's perceptive book shows that for Elizabeth Gaskell the condition of women was inseparable from the broader issues of social change. Books such as *Mary Barton*, *Cranford*, *North and South* and *Wives and Daughters* continually analyse and interrogate questions of power, authority and the expression and transmission of human values, and challenge many widely-held pre-conceptions of the age. Dr Flint shows how recent feminist criticism and theories of

narrative work together to illuminate the radical and experimental nature of Mrs Gaskell's fiction.

This book describes various accounts of the Victorian social-problem novel, examining their strengths and limitations in the light of the historiographical assumptions which underlie them. An alternative historical account is offered, which focuses on the novels' intellectual milieu - specifically on mid-Victorian concepts of 'the social' and of what was understood by the term 'social problem'. In detailed readings of individual works, the book argues that an appreciation of these concepts permits new ways of understanding the contradictions identified in these works together with their apparently 'conservative' politics.

Maintaining the substance that made Introduction to the Thermodynamic of Materials a perennial best seller for decades, this Sixth Edition is updated to reflect the broadening field of materials science and engineering. The new edition is reorganized into three major sections to align the book for practical coursework, with the first (Thermodynamic Principles) and second (Phase Equilibria) sections aimed at use in a one semester undergraduate course. The third section (Reactions and Transformations) can be used in other courses of the curriculum that deal with oxidation, energy, and phase transformations. The book is updated to include the role of work terms other than PV work (e.g., magnetic work) along with their attendant aspects of entropy, Maxwell equations, and the role of such applied fields on phase diagrams. There is also an increased emphasis on the thermodynamics of phase transformations and the Sixth Edition features an entirely new chapter 15 that links specific thermodynamic applications to the study of phase transformations. The book also features more than 50 new end of chapter problems and more than 50 new figures.

In this ambitious work Anita Levy exposes certain forms of middle-class power that have been taken for granted as "common sense" and "laws of nature." Joining an emergent tradition of cultural historians who draw on Gramsci and Foucault, she shows how middle-class hegemony in the nineteenth century depended on notions of gender to legitimize a culture-specific and class-specific definition of the right and wrong ways of being human. The author examines not only domestic fiction, particularly Emily Brontë's *Wuthering Heights*, but also nineteenth-century works of the human sciences, including sociological tracts, anthropological treatises, medical texts, and psychological studies. She finds that British intellectuals of the period produced gendered standards of behavior that did not so much subordinate women to men as they authorized the social class whose women met norms of "appropriate" behavior: this class was considered to be peculiarly fit to care for other social and cultural groups whose women were "improperly" gendered. When Levy reads fiction against the social sciences, she demonstrates that the history of fiction cannot be understood apart from the history of the human sciences. Both fiction and science share common narrative strategies for representing the "essential" female and "other

women"--the prostitute, the "primitive," and the madwoman. Only fiction, however, represented these strategies in an idiom of everyday life that verified "theory" and "science." This classic textbook is the definitive introduction to the thermodynamic behavior of materials systems. Written as a basic text for advanced undergraduates and first year graduate students in metallurgy, metallurgical engineering, ceramics, or materials science, it presents the underlying thermodynamic principles of materials and their plethora of applications. The book is also of proven interest to working professionals in need of a reference or refresher course.

**Introduction to the Thermodynamics of Materials, Sixth Edition** John Wiley & Sons

First published in 1981, this book explores the reactions of some female writers to the social effects of industrial capitalism between 1778 and 1860. The period set in motion a crisis over the status of middle-class women that culminated in the constructed idea of "women's proper sphere". This concept disguised inequities between men and women, first by asserting the reality of female power, and then by restricting it to self-sacrificing influence. In this book, Judith Newton analyses novels such as Fanny Burney's *Evelina*, Jane Austen's *Pride and Prejudice*, Charlotte Brontë's *Villette* and George Eliot's *The Mill on the Floss* in order to demonstrate how some female writers reacted to the issue by covertly resisting inequities of power and reconciling ideologies in their art. She argues that in this time period, novels became increasingly rebellious as well as ambivalent. Heroines were endowed with power, and emphasis was given to female ability, rather than to feminine influence.

**The Market, the Individual and Communal Life** Routledge

Much has been written about the Victorian novel, and for good reason. The cultural power it exerted (and, to some extent, still exerts) is beyond question. The Oxford Handbook of the Victorian Novel contributes substantially to this thriving scholarly field by offering new approaches to familiar topics (the novel and science, the Victorian Bildungroman) as well as essays on topics often overlooked (the novel and classics, the novel and the OED, the novel, and allusion). Manifesting the increasing interdisciplinarity of Victorian studies, its essays situate the novel within a complex network of relations (among, for instance, readers, editors, reviewers, and the novelists themselves; or among different cultural pressures - the religious, the commercial, the legal). The handbook's essays also build on recent bibliographic work of remarkable scope and detail, responding to the growing attention to print culture. With a detailed introduction and 36 newly commissioned chapters by leading and emerging scholars — beginning with Peter Garside's examination of the early nineteenth-century novel and ending with two essays proposing the 'last Victorian novel' — the handbook attends to the major themes in Victorian scholarship while at the same time creating new possibilities for further research. Balancing breadth and

depth, the clearly-written, nonjargon-laden essays provide readers with overviews as well as original scholarship, an approach which will serve advanced undergraduates, graduate students, and established scholars. As the Victorians get further away from us, our versions of their culture and its novel inevitably change; this Handbook offers fresh explorations of the novel that teach us about this genre, its culture, and, by extension, our own.

*Plant Response as a Means of Physiological Investigation*  
Manchester University Press

Explores Victorian responses to death and burial in literature, journalism, and legal writing. *Literary Remains* explores the unexpectedly central role of death and burial in Victorian England. As Alan Ball, creator of HBO's *Six Feet Under*, quipped, "Once you put a dead body in the room, you can talk about anything." So, too, with the Victorians: dead bodies, especially their burial and cremation, engaged the passionate attention of leading Victorians, from sanitary reformers like Edwin Chadwick to bestselling novelists like Charles Dickens, Elizabeth Gaskell, Thomas Hardy, and Bram Stoker. Locating corpses at the center of an extensive range of concerns, including money and law, medicine and urban architecture, social planning and folklore, religion and national identity, Mary Elizabeth Hotz draws on a range of legal, administrative, journalistic, and literary writing to offer a thoughtful meditation on Victorian attitudes toward death and burial, as well as how those attitudes influenced present-day deathway practices. *Literary Remains* gives new meaning to the phrase that serves as its significant theme: "Taught by death what life should be." "...*Literary Remains* is a fantastic literary companion and is worth reading even if you're not initially interested in burial practices." — *M/C Reviews* "...Hotz not only contextualizes her readings within a historical framework surrounding the passage of the Burial Acts, the building of large public cemeteries in the suburbs, and the late-century introduction of cremation as a widespread social practice, but offers a perceptive and compelling rhetorical analysis of the sociological, political, and theological discourse about burial." — *Victorian Studies* "...the painstaking research on debates about funerary reform that Hotz brings together will be valuable for future investigations of death in Victorian culture." — *Studies in English Literature* "This is an ambitious, energetic and rigorous attempt to do that very difficult thing, integrate detailed and historically informed analysis of the documents of nineteenth-century burial reform and of major literary texts into a lucid and complex argument that doesn't fight shy of contradiction and difficulty." — *Mortality* "Drawing on a vast range of primary sources—official documents, newspapers and periodicals, travel guides—and the work of anthropologists, historians, and the substantial engagements within literary studies dealing with representations of death and the dead, Hotz's perceptive, engaging, and eloquent study will be welcomed by a range of scholars in the humanities and social sciences." — *CHOICE* "I read this fascinating book with great pleasure. It makes a valuable contribution to the study of Victorian practices of death and burial and will be an essential supplement to existing studies of the culture of Victorian melancholy and bereavement." — Joel Faflak, author of *Romantic Psychoanalysis: The Burden of the Mystery*

**Women-Writers of the Nineteenth Century** Cambridge University Press

A look back through the history of women who were about to be married only to be left at the altar—and left with no choice but to take their revenge. A wedding day is supposed to be the happiest, most special and blessed event in a bride's life. And most of the time, it is. But sometimes, it is not. In this fun,

fascinating look at betrothals that went bust before anyone even said "I do," the authors have collected the true stories of what happened when the groom suddenly decided "I don't." From the 1780s right up to the 1970s, jilted women (and the occasional crushed suitor) employed a range of tactics to bring false lovers to book. Here is a full wedding party of cases in which women found very different kinds of happy endings, such as Mary Elizabeth Smith who forged evidence of a courtship to entrap an Earl, Catherine Kempson who shot the man who denied their engagement, Gladys Knowles who was awarded a record £10,000 in damages by a jury in 1890, and Daisy Mons who discreetly negotiated a £50,000 settlement from a nobleman. Based on original research, this social history of breach of promise shows that when men behaved badly, hell had no fury like a woman scorned.

This book provides a complete background on metaheuristics to solve complex bi-level optimization problems (continuous/discrete, mono-objective/multi-objective) in a diverse range of application domains. Readers learn to solve large scale bi-level optimization problems by efficiently combining metaheuristics with complementary metaheuristics and mathematical programming approaches. Numerous real-world examples of problems demonstrate how metaheuristics are applied in such fields as networks, logistics and transportation, engineering design, finance and security.

*Chartism, Radical Print Culture, and the Social Problem Novel*  
Ashgate Publishing, Ltd.

Originally published in 1923, this book contains short biographies of the lives and works of several nineteenth-century female writers: Jane Austen, the Brontës, Elizabeth Gaskell, George Eliot, Elizabeth Barrett Browning and Christina Rossetti. Bald focuses on the humanity of each woman, and seeks to clarify the characteristics of 'women of literary instinct'. This book will be of value to anyone with an interest in female authors and their motivations.

For much of her own century, Elizabeth Gaskell was recognized as a voice of Victorian convention—the loyal wife, good mother, and respected writer—a reputation that led to her steady decline in the view of twentieth-century literary critics. Recent scholars, however, have begun to recognize that Mrs. Gaskell's high standing in Victorian society allowed her to effect change in conventional ideology. Linda K. Hughes and Michael Lund focus this reevaluation on issues pertaining to the Victorian literary marketplace. *Victorian Publishing and Mrs. Gaskell's Work* portrays an elusive and self-aware writer whose refusal to grant authority to a single perspective even while she recirculated the fundamental assumptions and debates of her era enabled her simultaneously to fulfill and deflect the expectations of the literary marketplace. While she wrote for money, producing periodical fiction, major novels, and nonfiction, Mrs. Gaskell was able to maintain a tone of warmth and empathy that allowed her to imagine multiple social and epistemological alternatives. Writing from within the established rubrics of gender, narrative, and publication format, she nevertheless performed important cultural work.

**Liberalizing Contracts** Wharnccliffe

First published in 1970, this study demonstrates both the range

and essential unity of the works of Mrs. Gaskell. The author analyses the novels of social criticism, the biography of Charlotte Brontë and the novels of country life as distinct expressions of her genius, commenting on recurrent themes, typical methods of presentation and consistent attitudes as they appear in each of the works. The differences of subject and intention between the three kinds of writing will be seen in the extracts which indicate the range of her ability and interests. The final section summarises her range and success and failure. This book will be of interest to students of literature and sociological history.

Cultural Exclusion, Gender Difference, and the Victorian Woman Writer Routledge

Critical assessments of Elizabeth Gaskell have tended to emphasise the regional and provincial aspects of her writing, but the scope of her influence extended across the globe. Building on theories of space and place, the contributors to this collection bring a variety of geographical, industrial, psychological, and spatial perspectives to bear on the vast range of Gaskell's literary output and on her place within the narrative of British letters and national identity. The advent of the railway and the increasing predominance of manufactory machinery reoriented the nation's physical and social countenance, but alongside the excitement of progress and industry was a sense of fear and loss manifested through an idealization of the country home, the pastoral retreat, and the agricultural south. In keeping with the theme of progress and change, the essays follow parallel narratives that acknowledge both the angst and nostalgia produced by industrial progress and the excitement and awe occasioned by the potential of the empire. Finally, the volume engages with adaptation and cultural performance, in keeping with the continuing importance of Gaskell in contemporary popular culture far beyond the historical and cultural environs of nineteenth-century Manchester.

Seminar paper from the year 2003 in the subject English Language and Literature Studies - Literature, grade: 1,3, Humboldt-University of Berlin (Institut für Anglistik), course: Mid-Victorian Social Problem Novels, 9 entries in the bibliography, language: English, abstract: Die Gesellschaft der Bundesrepublik hat sich seit dem 2. Weltkrieg stark verändert. Die damals bestehenden traditionellen Bindungen gelten heute weniger, gesellschaftliche Institutionen wie Parteien und Kirche verlieren immer mehr an Einfluss. Die Gesellschaft individualisiert sich immer weiter und stellt damit das politische System vor andere Bedingungen. Doch wie sehen diese Bedingungen genau aus? Kann die Vermittlung von Politik heute noch genauso vor sich gehen wie vor 20 Jahren oder muss das politische System heute im Bereich der Kommunikation neue Wege gehen? Und inwieweit ist dies mit den Rahmenbedingungen der politischen Vermittlung, welche im Grundgesetz verankert sind, vereinbar? Stellt die veränderte Situation vielleicht sogar eine Gefahr für die Demokratie dar? Diesen Fragen wird in dieser Hausarbeit nachgegangen. Um Antworten auf diese Fragen zu finden wird zunächst dargelegt, wie der Gesetzgeber die Rolle der politischen Vermittlung durch die Parteien vorgesehen hat. Danach wird der Frage nachgegangen, inwiefern sich die deutsche Gesellschaft verändert, um daraufhin das Mediensystem zu analysieren. Hinsichtlich des Mediensystem wird der Schwerpunkt auf die Einführung des Privatfernsehens und dessen Auswirkungen gelegt und inwiefern man hier von einer „Macht der Medien“ sprechen kann. Danach wird betrachtet, inwieweit das politische System auf die neuen Bedingungen in den anderen Teilsystemen reagiert. Was sind die Antworten der politischen Parteien auf die Trends in ihrem Umfeld? Was hat es auf sich mit neuen Techniken des Politmarketings? Gibt es hier Rückkopplungen auf das inhaltliche Programm der Parteien? Dies führt dann gleich zu der weiterführenden Frage inwieweit sich Chancen und Risiken aus den neuen Techniken und Bedingungen der politischen Kommunikation für das demokratische System ergeben.
