Get Hooked on a Girl Named Fred... He said: Fred Oday is a girl? Puh-leeze. Why is a girl taking my best friend's spot on the boys' varsity golf team? She said: Can I seriously do this? Can I join the boys' team? Everyone will hate me—especially Ryan Berenger. He said: Coach expects me to partner with Fred on the green? That is crazy bad. Fred's got to go—especially now that I can't get her out of my head. So not happening. She said: Ryan can be nice, when he's not being a jerk. Like the time he carried my golf bag. But the girl from the rez and the spoiled rich boy from the suburbs? So not happening.

The #1 New York Times bestseller and National Book Award Finalist from the bestselling author of Everything, Everything will have you falling in love with Natasha and Daniel as they fall in love with each other. Natasha: I'm a girl who believes in science and facts. Not fate. Not destiny. Or dreams that will never come true. I'm definitely not the kind of girl who meets a cute boy on a crowded New York City street and falls in love with him. Not when my family is twelve hours away from being deported to Jamaica. Falling in love with him won't be my story. Daniel: I've always been the good son, the good student, living up to my parents' high expectations. Never the poet. Or the dreamer. But when I see her, I forget about all that. Something about Natasha makes me think that fate has something much more extraordinary in store—for both of us. The Universe: Every moment in our lives has brought us to this single moment. A million futures lie before us. Which one will come true? *** "Beautifully crafted."--People Magazine "A book that is very much about the many factors that affect falling in love, as much as it is about the very act itself . . . fans of Yoon's first novel, Everything Everything, will find much to love—if not, more—in what is easily an even stronger follow up." —Entertainment Weekly "Transcends the limits of YA as a human story about falling in love and seeking out our futures." —POPSUGAR.com

From the illustrator of the #1 smash hit *The Day the Crayons Quit* comes a story about wishing, persevering, and reaching for the stars. Once there was a boy, and that boy loved stars very much. So much so that he decided to catch one of his very own. But how? Waiting for them to grow tired from being up in the sky all night doesn't work. Climbing to the top of the tallest tree? No, not tall enough. The boy has a rocket ship . . . but it is made of paper and doesn't fly well at all. Finally, just when the boy is ready to give up, he learns that sometimes things aren't where, or what, we expect them to be. Oliver Jeffers offers a simple, childlike tale of reaching for the stars, and emerging with a friend.

Bora is ordered to investigate the murder of Walter Niemeyer, a dazzling clairvoyant, a star since the days of the Weimar Republic. For years he has mystified Germany with his astounding prophecies. Bora's inquiry, supported by former S.A member Florian Grimm, resurrects memories of the excessive and brilliant world of Jazz Age cabarets and locales. Around them, in the oppressive summer heat, constant allied bombing, war-weary Berlin teems with refugees and nearly a million foreign laborers. Soon Bora realizes that there is much more at stake than murder in a paranoid city where everyone suspects everyone, and where persistent rumors whisper about a conspiracy aimed at the very heart of the Nazi hierarchy. Could the charming Emmy Pletsch, who works for Claus von Stauffenberg, be a key to understanding what is going on? Bora eventually meets with Stauffenberg, facing an anguishing moral dilemma, as a German soldier and as a man. The 20 July plot and its dramatic implications as never told before.

Small print edition 5x8Starkishia: Estrella is a story about a little girl who grew up too fast to feel the grass wear thin under the soles of her shoes. Abuse thickened her skin, yet her nightmares were as dark as they were real. The library became her sanctuary where stories took her to another place and time. But, in reality there was nothing imaginary about the bruises under her clothing as she advanced from one classroom to another during middle school, or nothing fictitious about being molested by the maggot hands of a despicable relative. Her plight was hidden in a small town in Georgia, just as her physical abuse was disregarded by the school's social worker. This colored child was brought into this world by her 14 year old mother who was ruthlessly dominated by her husband. Starkishia loved her mother above all else; her step-father who provided shelter for them witnessed her birth and helped raise her. She consumed pieces of joy, but sometimes she received broken reprisals and ended up walking down the dark road alone; yet in some fortunate way humanity was always within reach. After her parents split up, Starkishia and her family ended up in Texas. Single parenthood changed their family structure forevermore. Starkishia became a wage earner at age 13; she also became homeless the following year. She was, for years, engulfed by her impoverished and dysfunctional environment. She married a native of Mexico a few days after her 15th birthday. He nicknamed her 'Estrella' a Spanish term which means 'Star.' It goes without saying that Starkishia was born in the land of opportunity, but it was not exactly within her reach. Yes, she was her grandmother's star, but she was a statistic of minimal proportions as far as small town and suburbia America was concerned. Shortly after marriage, she became a mother. Afterward the life of this teen went downhill at lightning speed. Many readers will identify with her; for, she walked away from her husband broken hearted; then, she fell in love with another man, and as new babies arrived, she took her limited funds and focused on the lives of those under her roof; in time, her parental absence to her oldest two children turned flat out into abandonment. Have mercy! Starkishia was a lost teen, but through grace she eventually became a productive woman in American society. Meredith Etc., a small press, proudly introduces readers to Starkishia: Estrella, a story about the perils of teen parenthood, economic dispossession, and the charity of new beginnings. A year-long study of the writing development of 27 first through third graders in an English/Spanish bilingual program was conducted during the 1980-81 school year. Samples of the children's writing were collected at four intervals, coded for computer tallying, and analyzed in terms of code-switching, spelling, punctuation and segmentation, structural features, stylistic devices, and content. Additionally, the context in which the writing developed was evaluated by classroom observations, teacher interviews, review of familial backgrounds, and a survey of the community language situation. Myths about bilingual language proficiency, biliteracy, bilingual education, teaching writing, and learning to write are all countered by evidence presented in this study. In a discussion of implications, the concept of a whole language approach to writing instruction is supported, in which authentic and functional texts are offered to and produced by children. Examples of the children's writing with appropriate translations are given along with various tables. Informal follow-up information is presented in three epilogues dealing with changes in the researcher's commitment to the study's original writing theories, the writing of some students a year after the study; and a chronological outline of the demise of the bilingual

program used in the study. Appendices list interview questions used for teachers and aides and categories for coding the writing data. This book contains 134 references. (ALL)

Class Lives is an anthology of narratives dramatizing the lived experience of class in America. It includes forty original essays from authors who represent a range of classes, genders, races, ethnicities, ages, and occupations across the United States. Born into poverty, working class, the middle class, and the owning class—and every place in between—the contributors describe their class journeys in narrative form, recounting one or two key stories that illustrate their growing awareness of class and their place, changing or stable, within the class system. The stories in *Class Lives* are both gripping and moving. One contributor grows up in hunger and as an adult becomes an advocate for the poor and homeless. Another acknowledges the truth that her working-class father's achievements afforded her and the rest of the family access to people with power. A gifted child from a working-class home soon understands that intelligence is a commodity but finds his background incompatible with his aspirations and so attempts to divide his life into separate worlds. Together, these essays form a powerful narrative about the experience of class and the importance of learning about classism, class cultures, and the intersections of class, race, and gender. *Class Lives* will be a helpful resource for students, teachers, sociologists, diversity trainers, activists, and a general audience. It will leave readers with an appreciation of the poignancy and power of class and the journeys that Americans grapple with on a daily basis.

Jacob and Moses Stein, two young Jewish brothers, are staying with their aunt in Paris amid the Nazi occupation. The boys' parents, well-known German playwrights, have left the brothers in their aunt's care until they can find safe harbor for their family. But before the Steins can reunite, a great and terrifying roundup occurs. The French gendarmes, under Nazi order, arrest the boys and take them to the Vélodrome d'Hiver—a massive, bleak structure in Paris where thousands of France's Jews are being forcibly detained. Jacob and Moses know they must flee in order to survive, but they only have a set of letters sent from the South of France to guide them to their parents.
