Understanding the world's troublespots In Conflict and Order Understanding Society Mary Douglas's innovative explanations for styles of human thought and for the dynamics of institutional change have furnished a distinctive and powerful theory of how conflicts are managed, yet her work remains astonishingly poorly appreciated in social science disciplines.

This volume introduces Douglas's theories, and outlines the ways in which her work is of continuing importance for the future of the social sciences. Mary Douglas: Understanding Human Thought and Conflict shows how Douglas laid out the agenda for revitalizing social science by reworking Durkheim's legacy for today, and reviews the growing body of research across the social sciences which has used, tested or developed her approach. The World in Conflict OECD Publishing Part of the popular Understanding Public Health series, this book provides an

introductory overview of current health-related challenges and policy debates on appropriate responses to different humanitarian conflicts. Written by experts, it explores the context of conflict and health, the interventions used in humanitarian crises and post-conflict resolution issues. The book is packed with international case studies and real life examples, which will assist healthcare professionals and students to: Explain the political, economic and social factors contributing to conflict Interpret the effects of conflict on health Consider

context-sensitive interventions for acute and chronic healthcare delivery and security Describe key issues in the transition from relief to rehabilitation, health systems strengthening, and post-conflict recovery Knowledge of humanitarian principles, actors and methods is integral to effective action at policy and field levels in conflict-affected settings. This timely book will provide the ideal starting point. Understanding Public Health is an innovative series published by Open University Press in collaboration with the London School of Hygiene & Tropical Medicine. Series Editors: Ros Plowman and Nicki Thorogood. Contributors: Fiona Campbell, Steve Commins, Sophia Craig, Nadine Ezard, Michelle Gayer, Peter Giessen, Andre Griekspoor, Rukhsana Haider, Michiel Hofman, Mazedra Hossain, Natasha Howard, Chris Lewis, Adrianna Murphy, James Pallet, Valerie Parcival, Preeti Patel, Paul Sender, Egbert Sondorp, Jean-Francois Trani, Peter Ventevogel and Annemarie ter Veen.

### **Guidance from Global Evaluation**

**Practitioners** University of Washington Press

Misunderstandings can cause conflict. But

how do you resolve a conflict caused by a misunderstanding? It seems reasonable to suspect that correcting a misunderstanding would be the best way to end the conflict. However, attempts to correct a misunderstanding can very easily escalate a conflict. With over 20 years of experience working with people in conflict, Dr. Voyles provides a step-by-step description of how our best efforts to get understanding from the other person can become a trap, not only denying us the goal we seek, but potentially making that conflict worse. Learning how to stay out of the Understanding Trap will improve all of your personal and professional communications. Getting a clear look at what is actually happening when we attempt to correct another person's misunderstanding, will change the way you approach conflict forever.

### Contemporary Conflict Resolution Springer

This is a timely work which explores the validity of rational and subjective approaches to conflict resolution, considers the value of international law and organizations for addressing complex social phenomena, and outlines a structural approach to international

conflicts. In addition it extends the analysis of conflict transformation to new issues on the international agenda, such as antagonism between urban and rural areas and threat to the environment.

### **Cold War Crucible** Routledge

For courses in the Guidance and Management of Young Children. This text examines the nature of conflict among 2- to 8-year-olds from a research-based, constructivist/ecological perspective - integrating themes of caring, building classroom community, connecting curriculum, involving family and community, and responding to the current educational climate. The author thoroughly discusses children's conflicts, emphasizing that peer and community culture make up the foundation for preventing and resolving conflict, and advocates teaching conflict resolution skills via a "three-layer-cake" of understanding, management, and resolution. Coverage presents ways to create a caring classroom - both in physical environment and curriculum, to work with other adults in a child's life, and to implement peer mediation. Throughout, the material stresses the need to

understand all children in light of applicable theory and current "best practice" in culturally responsive and inclusive classrooms.

*Conflict Analysis* Kendall Hunt Publishing Company

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

*Understanding Society, Census Update*  
United States Inst of Peace Press

Is peace an aberration? The bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST

BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE EAST HAMPTON STAR "Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book."—H.R. McMaster, author of *Dereliction of Duty* and *Battlegrounds: The Fight to Defend the Free World* The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity's history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. *War: How Conflict Shaped Us* explores such much-debated and controversial questions

as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

This introductory text, written from a conflict perspective, emphasizes four themes: diversity, the struggle by the powerless to achieve social justice, the changing economy, and globalization. In *Conflict and Order: Understanding Society* studies the forces that lead to stability and change in society and asks: Who benefits from the existing social arrangements, and who does not? How are human beings shaped by society? What are the forces that maintain social stability, produce social inequality, and resist social change? **Understanding Social Thought and Conflict** Wesleyan University Press  
 '...effectively fills a long-standing void and will no doubt be hailed as a much-needed new addition to the literature... This text very much exemplifies the strength of Ho-Won Jeong as a theorist and one of the more prolific writers in the larger peace and conflict studies field... the final three chapters on 'De-escalation Dynamics' (which includes a brief section on third party intervention), on 'Conciliation Strategies,' and especially the one on 'Ending Conflict,' which provides a range of outcomes beyond the usual focus on third party intervention (read mediation) epitomizes the value of this new text' - Journal of Peace Research '...an awesome tour d'horizon of modern war, violence, and confrontation within and between nations. Illustrating via just about every conflict in every corner of the world, the author invokes an endless array of insights and interpretations, ranging from the micro to the macro, beautifully written in a seamless sequence of closely linked and discursive essays.' - Professor J. David Singer, University of Michigan 'Ho-Won

Jeong has written an illuminating analysis of the dynamics of conflict. He lays out the tools we have to analyze conflict in a literate and comprehensive way. A valuable book for anyone interested in a more comprehensive understanding of conflict, its sources, and its deescalation and termination' - Janice Gross Stein, Belzberg Professor of Conflict Management, Director, Munk Centre for International Studies, University of Toronto

'Jeong has successfully combined behavioral and structural analysis of the dynamics of social conflict. This volume covers the multiple dimensions - escalation, entrapment, de-escalation, termination, and resolution - both of violent and non-violent confrontation between adversaries, as well as the utility and limitations of external intervention. For students of the social sciences, it should serve as an excellent introduction to the complex realities of social conflict.' - Milton Esman, John S. Knight Professor of International Studies, Emeritus, Cornell University

By examining the dynamic forces which shape and re-shape major conflicts, this timely book provides students with the knowledge base needed

to successfully study conflict sources, processes and transformations. Broad in focus, it addresses the multiple social, political and psychological features central to understanding conflict situations and behaviour. A range of both recent and historical examples (including the Arab-Israeli conflict, the 'War on Terrorism', the Cold War, and the civil wars in Sudan, former Yugoslavia and Sri Lanka) are discussed, illustrating the application of concepts and theories essential to the analysis of inter-group, inter-state and intra-state conflict and conflict resolution in a wider context. *Understanding Conflict and Conflict Analysis* is key reading for students of international relations, peace and conflict studies, conflict resolution, international security and international law.

*Social Conflict* Simon and Schuster

Since the end of the Cold War, conflict prevention and resolution, peacekeeping and peacebuilding have risen to the top of the international agenda. The third edition of this hugely popular text explains the key concepts, charts the development of the field, evaluates successes and failures, and assesses the main current challenges

and debates in the second decade of the twenty-first century. Existing material has been thoroughly updated and seven new chapters added, on conflict resolution in a changing international order; environmental conflict resolution; conflict resolution in the arts and popular culture; conflict resolution, the media and the communications revolution; managing radical disagreement in intractable conflict; theories and critiques of the field; and upcoming challenges and tasks for the next generation. The authors argue that a new form of cosmopolitan conflict resolution is emerging, which offers a hopeful means for human societies to handle their conflicts non-violently and eventually to transcend and celebrate their differences. Part I offers a comprehensive survey of the theory and practice of conflict resolution. Part II sets the field within the context of rapid global change and addresses the controversies that have surrounded conflict resolution as it has entered the mainstream. *Contemporary Conflict Resolution* is essential reading for students of peace and security studies, conflict management and international politics, as well as for

those working in non-governmental organizations and think-tanks.

The Conflict Helix Penguin

The end of the Cold War has changed the shape of organized violence in the world and the ways in which governments and others try to set its limits. Even the concept of international conflict is broadening to include ethnic conflicts and other kinds of violence within national borders that may affect international peace and security. What is not yet clear is whether or how these changes alter the way actors on the world scene should deal with conflict: Do the old methods still work? Are there new tools that could work better? How do old and new methods relate to each other? *International Conflict Resolution After the Cold War* critically examines evidence on the effectiveness of a dozen approaches to managing or resolving conflict in the world to develop insights for conflict resolution practitioners. It considers recent applications of familiar conflict management strategies, such as the use of threats of force, economic sanctions, and negotiation. It presents the first systematic assessments of the usefulness

of some less familiar approaches to conflict resolution, including truth commissions, "engineered" electoral systems, autonomy arrangements, and regional organizations. It also opens up analysis of emerging issues, such as the dilemmas facing humanitarian organizations in complex emergencies. This book offers numerous practical insights and raises key questions for research on conflict resolution in a transforming world system.

**The Functions of Social Conflict**

Augsburg Fortress Publishing

After World War II, the major powers faced social upheaval at home and anti-colonial wars around the globe. Alarmed by conflict in Korea that could change U.S.-Soviet relations from chilly to nuclear, ordinary people and policymakers created a fantasy of a bipolar Cold War world in which global and domestic order was paramount, Masuda Hajimu shows.

*Heaven in Conflict* Rowman & Littlefield

The Earth is riven by dangerous and shifting faultlines. Since the previous edition of *The World in Conflict*, we have witnessed the apparent collapse of Isis in Syria and the reawakening of the Troubles in Ireland. Donald Trump first goaded and then mollified North Korea, the world's most enigmatic nuclear power, before provoking Iran into renewing its atomic ambitions. And alongside traditional warzones, a new set of global battle lines are being drawn across cyberspace. Join the veteran Economist journalist John Andrews on a tour of the ancient enmities and imminent collisions that define conflict in the twenty-first century. Region by region discover the causes, contexts, participants and likely outcomes of every globally significant violent struggle now underway. From drug cartels to cyber war, this is the indispensable guide for anyone who wants to understand our perilous world.

*Dis-Solving Conflict from Within* Routledge

Two billion people live in countries where development outcomes are affected by fragility, conflict and violence. The World Bank estimates that by 2030, up to two-thirds of the global extreme poor will be living in fragile and conflict-affected situations, making it evident that without intensified action, global poverty goals will not be met. Evaluation - like development aid itself - can unintentionally exacerbate tensions in ways that negatively affect conflict-affected populations if care is not taken to develop and integrate conflict sensitivity into the evaluation's design and approaches. This book is a guide to designing, managing and conducting evaluations in fragile and conflict-affected contexts. Such contexts may present

challenges for evaluation that, if not properly addressed or mitigated, can adversely affect the validity and results of the evaluation. Mitigating these challenges can entail significant effort, and can sometimes require redefining the direction, purpose or scope of the evaluation. This book is an initiative of IDEAS. It builds upon the knowledge and practical experience of evaluation professionals of various organizations and regions, thus showing a diversity of perspectives and experiences. Hur Hassnain provided overall leadership and management in writing and developing the book. The book's co-authors were Anupam Anand, Inga-Lill Aronsson, Sarah Davies, Gabrielle Duffy, Lauren Kelly, Wanda Krause, Keiko Kuji-Shikatani, Marco Lorenzoni, Rhiannon McHugh, Emma Rotondo, Wendy Rowe, Simona Somma, Melinda Sutherland and Serge Eric Yakeu. Reviews and Endorsements: - This book is both important and timely. Use the wisdom and insights in this book to enhance your work on behalf of all of us.

Michael Quinn Patton, Utilization-Focused Evaluation & Blue Marble Evaluation - Many of the elements included in this book will have an immediate purpose in strengthening the work of my own evaluation function at the WFP. Andrea Cook, World Food Programme - This publication is a welcome initiative reminding development practitioners that during conflicts and pandemics and in fragile circumstances in general, M&E matter more than ever. Marvin Taylor-Dormond, Asian Development Bank - The wealth of examples from the field, combined with the extensive review of applicable evaluation methods will be found invaluable by both new and experienced evaluators. Michael Bamberger - I encourage development practitioners to read this guidance. Fragility and conflict are among the most serious hurdles to achieving the 2030 Agenda and the SDGs. Fabrizio Felloni, International Fund for Agricultural Development - This book provides useful advice from the early stages of understanding power and conflict to the

final stages of reporting findings, with practical information about choosing methods and protecting staff and communities. Patricia Rogers, BetterEvaluation - This is an important, useful book to produce good-quality evidence while making real-world choices along the way about costs, data, rigour and methods. Jyotsna Puri, IFAD - I highly recommend it. Linda Morra Imas, IPDET - I invite all VOPEs to disseminate and promote the use of this book. Silvia Salinas Mulder, IOCE - This book is a great resource. Asela Kalugampitiya - This book is an important step in enhancing our repertoire for designing and conducting meaningful evaluations in challenging contexts defined by FCV. Juha I. Uitto, Global Environment Facility - This book is essential for all evaluators, especially, YEEs. Khalil Bitar - This book fulfils a long-standing need to provide technical insights on conducting evaluations in contexts of fragility, conflict and violence.
