Modern Cost and Management Accounting McGraw-Hill Education *Cost Management: A Strategic Emphasis*, by Blocher/Stout/Juras/Cokins is dedicated to answering the question: Why Cost Management? Blocher et al. provide the cost-management tools and techniques needed to support an organisation's competitiveness, improve its performance, and help the organisation accomplish its strategy. The text is written to help students understand the broader role of cost accounting in helping an organisation succeed - and not just the measurement of costs. While the text does include coverage of traditional costing topics (e.g., job-order costing, process costing, service-department cost allocations, and accounting for joint and by-products), its primary

strength is the linkage of these topics, as well as more contemporary topics, to an

organisation's strategy. This message is reinforced by a dynamic

author team, all four of whom have close ties to current cost management practice.
