The Ordination of Women in the Catholic Church

Paulist Press

"Lady Father" is a narrative account of my journey through the ordination process in the Episcopal Diocese of Southern Virginia of the 1980's and the subsequent years of ordained ministry. As the first female admitted to the ordination process by the Rt. Rev. C. Charles Vach, 7th Bishop of Southern Virginia, who was then a strong and vocal opponent of the ordination of women, I was a "reluctant pioneer." Dubbed "the Lady Father," I have served the church for 25 years and I am now offering my experiences and the insights I learned from them to others who feel a similar call and who may find themselves on a similar journey "against the flow." "Lady Father" is filled with anecdotes that will ring true with many clergy, bring hope to those aspiring to ordination, and shed light on the continuing debate in the Church over who should be ordained. "The Process" described in the

book is a journey most clergy have traveled, but my story is a unique blend of the obstacles, denials, and rejections I faced and overcame, along with the uplifting moments and spiritual growth that came out of the struggle. It is truthful and so, at times, it is painful; it is often light-hearted, even humorous; it is moving as it deals with real people, real events, and real emotions; and, most of all, it is mine - my story, my journey, my life.

Ordaining Women

Cambridge Scholars Publishing

For non-specialist readers, the series offers scholarly research on the role of women in Christian ministry and the changing shape of ministry in Christian history. In the first volume, Gary Macy (theology and religious studies, U. of San Diego) discusses the ordination of women in the early middle ages, and John Hilary Martin (Dominican School of Philosophy and Theology, Berkeley, California) looks at the ordination of women and the theologians in the Middle Ages. Annotation copyrighted by Book News, Inc., Portland, OR [Beyond the Roles](#) Morehouse Publishing Writing as a seminary-

trained sociologist, Frederick W. Schmidt, Jr. concentrates on the roles of clergywomen in five denominations—Episcopal, United Methodist, Evangelical Lutheran, Southern Baptist, and Roman Catholic. He maintains that behind the façade of equanimity, women are often relegated to the outskirts of church hierarchy. In compelling stories, we learn about the Episcopal woman denied a job because she was too short; the Methodist women burdened by the old saw of women preachers being like dogs walking on their hind legs; the Evangelical Lutheran who, in protest to her denomination's trickle-down reform, camped outside her bishop's office; and Roman Catholic women who, frustrated and beleaguered by their church's refusal to ordain them, become active reformers. To substantiate his assertion that churches are cultures as well as organizations, Schmidt examines both official policies regarding women's ordination in each denomination and the cultural context in which those policies must play out. Through their stories, the clergywomen

remind us that the church influences society whether society acknowledges it or not. *Ordaining Women* World Council of Churches This book is openly available in digital formats thanks to a generous grant from the Andrew W. Mellon Foundation. While some Catholics and even non-Catholics today are asking if priests are necessary, especially given the ongoing sex-abuse scandal, *The Roman Catholic Womanpriests (RCWP)* looks to reframe and reform Roman Catholic priesthood, starting with ordained women. *Womanpriest* is the first academic study of the RCWP movement. As an ethnography, *Womanpriest* analyzes the womenpriests' actions and lived theologies in order to explore ongoing tensions in Roman Catholicism around gender and sexuality, priestly authority, and religious change. In order to understand how womenpriests navigate tradition and transgression, this study situates RCWP within post-Vatican II Catholicism, apostolic succession, sacraments, ministerial action, and questions of embodiment.

Womanpriest reveals RCWP to be a discrete religious movement in a distinct religious moment, with a small group of tenacious women defying the Catholic patriarchy, taking on the priestly role, and demanding reconsideration of Roman Catholic tradition. Doing so, the women inhabit and re-create the central tensions in Catholicism today.

[Report on the Findings and Statements on the Question of the Ordination of Women](#) A&C Black

"Upon its publication in 1975, *Man As Male and Female*, a study of Scripture in which Paul Jewett argues that man and woman are properly related only when they accept each other as equals, received much critical acclaim. Now, in *The Ordination of Women*, Jewett argues that on the basis of the Christian ideal of the partnership of the sexes, women ought to share fully with men the privileges and responsibilities of church ministry.

A report from the Doctrinal Review Committee of the General Assembly of The Church of God in Christ, INC. on the question of whether or

not to fully ordain women. *A Still Small Voice* Lady Father

A collection reflecting a diversity of views on the role of women as priests

The Ordination of Women to the Priesthood Bloomsbury Publishing

Incompatible with God's Design is the first comprehensive history of the Roman Catholic women's ordination movement in the United States. Mary Jeremy Daigler explores how the focus on ordination, and not merely "increased participation" in the life and ministries of the church, has come to describe a broad movement. Moving well beyond the role of such organizations as the Women's Ordination Conference, this study also addresses the role of international and local groups. In an effort to debunk a number of misperceptions about the movement, from its date of origin to its demographic profile, Daigler explores a vast array of topics. Starting with the movement's historical background from the early American period through the early twentieth century to Vatican II and afterward, she considers the role of

women (especially Catholicism's more religious adherents) in the movement's evolution, the organization of the ordination movement in the United States, the role and response of clergy and Vatican teachings, the reality of international influences on the U.S. movement, and the full range of challenges--past and present--to the ordination movement. Incompatible with God's Design is compelling reading for any student of theology and women's studies, as well as those interested in staying abreast with the changing role of women within the U.S. Roman Catholic Church.

The Hidden History of Women's Ordination

Syracuse University Press
Framed around one ordinary day, this book explores daily life through the lens of liturgy, small practices, and habits that form us. Each chapter looks at something author Tish Harrison Warren does in a day—making the bed, brushing her teeth, losing her keys—and relates it to spiritual practice as well as to our Sunday worship.

She Preached the Word
JHU Press

Women and Ordination: Biblical and Historical Studies is a careful review

of both ministry and ordination in Scripture and in the history of the Seventh-day Adventist Church. This book explores what it means to be "called" to the ministry and how ordination, as we know it, came to be practiced. The book stands as the culmination of an extensive conversation. It is poised to begin the next conversation on ordination and women in the Seventh-day Adventist Church. --back cover.

Ordained Women in the Early Church

Scarecrow Press

In a revealing examination of the complex interrelationship of religion, social forces, and organizational structure, *Ordaining Women* draws examples and data from over 100 Christian denominations to explore the meaning of institutional rules about women's ordination.

Women and the Priesthood
Oxford University Press

She Preached the Word is a landmark study of women's ordination in contemporary American congregations. In this groundbreaking work, Benjamin R. Knoll and Cammie Jo Bolin draw upon a novel collection of survey data and personal

narrative interviews to answer several important questions, including: Who supports women's ordination in their congregations? What are the most common reasons for and against women's ordination? What effect do female clergy have on young women and girls, particularly in terms of their psychological, economic, and religious empowerment later in life? How do women clergy affect levels of congregational attendance and engagement among members? What explains the persistent gender gap in America's clergy? Knoll and Bolin find that female clergy do indeed matter, but not always in the ways that might be expected. They show, for example, that while female clergy have important effects on women in the pews, they have stronger effects on theological and political liberals. Throughout this book, Knoll and Bolin discuss how the persistent gender gap in the wider economic, social, and political spheres will likely continue so long as women are underrepresented in America's pulpits. Accessible to scholars and

general readers alike, *She Preached the Word* is a timely and important contribution to our understanding of the intersection of gender, religion, and politics in contemporary American society.

Women's Ordination in the Catholic Church

Fordham University Press
The Priestly Office of Women: God's gift to a Renewed Church is the English translation of the second edition of Dr. Ida Raming's classic study of the exclusion of women from ordination in the Western Christian Church, *The Exclusion of Women from the Priesthood: Divine Law or Sex Discrimination?* (SCP, 1976). This new edition includes a bibliography on women's ordination from 1973 to the present plus three recent essays by Dr. Raming and a complete translation of the Latin sources cited by Dr. Raming.

She Preached the Word
Gale Cengage

"The church may appear as about to fall, but it does not fall. It remains, while the sinners in Zion will be sifted out—the chaff separated from the precious wheat. This is a terrible ordeal, but nevertheless must take place. . . . The remnant

that purify their souls by obeying the truth gather strength from the trying process, exhibiting the beauty of holiness amid the surrounding apostasy" (Ellen G. White Letter 55, Dec. 8, 1886, written from Basel, Switzerland to G. I. Butler and S. N. Haskell). Dear reader, does the prophetic guidance just quoted strike you as being just a tad scary? If you have been paying close attention lately, a movement has been steadily, but stealthily, building over the past several years and is now dangerously close to reaching groundswell proportions in the North American Division and beyond. This movement would accomplish the objective of ordaining women as full-fledged ministers of the Gospel. Are you concerned? Is there anything you could or should do about it? Before you answer, please take the time to read through this little book.

The Churches Speak On--women's Ordination

Oxford University Press
The Roman Catholic leadership still refuses to ordain women officially or even to recognize that women are capable of ordination. But is the widely held assumption

that women have always been excluded from such roles historically accurate? How might the current debate change if our view of the history of women's ordination were to change? In *The Hidden History of Women's Ordination*, Gary Macy argues that for the first twelve hundred years of Christianity, women were in fact ordained into various roles in the church. He uncovers references to the ordination of women in papal, episcopal and theological documents of the time, and the rites for these ordinations have survived. The insistence among scholars that women were not ordained, Macy shows, is based on a later definition of ordination, one that would have been unknown in the early Middle Ages.

The Ordination of Women
Oxford University Press
This collection of essays highlights the thorny and divisive issue of the admission of women into the sacramental diaconal priesthood of the Christian Church from the Orthodox theological perspective. The contributions here stem from scientific papers presented at an international conference titled "Deaconesses,

Ordination of Women and Orthodox Theology”, organized in Thessaloniki, Greece, in 2015 by the Center of Ecumenical, Missiological and Environmental Studies (CEMES). They cover almost all the fields of biblical, liturgical, patristic, systematic, canonical, and historical theology. The volume’s main focus is the ancient order of deaconesses, in connection with the overall issue of the ordination of women. Although most papers address the issues from an Orthodox perspective, their sober analysis can provide theological argumentation for the wider Christian community, both the Churches and Christian denominations that exclude women from the sacramental priesthood, and those that have already adopted their ordination.

Contributing Authors: Fr. John Behr Dr Spyridoula Athanasopoulou-Kypriou Dr. Dionysios Skliris Fr. Andrew Louth Dr Mary Cunningham Met Kallistos Ware Rev Dr Sarah Hinlicky Wilson Dr Kyriaki Karidoyanes FitzGerald Dr Carrie Frederick Frost Dr Paul Ladouceur Luis Josué

Salés This book—a collaborative, international initiative, involving academic theologians and practitioners—invites the reader into a conversation about the ordination of women in the Orthodox Church. It explores questions relating to the significance of being human, Eve’s curse, sexed bodies, the place of Mary, the nature of priesthood, the role of the deacon, and the task of being a priest in the twenty-first century. The reflections move across three main areas of discussion: issues of theological anthropology, particular questions pertaining to the priesthood and the diaconate, and contemporary practices. In each area the implications for ordaining women in the Orthodox Church today are explored.

A History of Women and Ordination: The ordination of women in medieval context George D. McKinney

In a time when the ordination of women is an ongoing and passionate debate, the study of women’s ministry in the early church is a timely and significant one. There is much evidence from

documents, doctrine, and artifacts that supports the acceptance of women as presbyters and deacons in the early church. While this evidence has been published previously, it has never before appeared in one complete English-language collection. With this book, church historians Kevin Madigan and Carolyn Osiek present fully translated literary, epigraphical, and canonical references to women in early church offices. Through these documents, Madigan and Osiek seek to understand who these women were and how they related to and were received by, the church through the sixth century. They chart women’s participation in church office and their eventual exclusion from its leadership roles. The editors introduce each document with a detailed headnote that contextualizes the text and discusses specific issues of interpretation and meaning. They also provide bibliographical notes and cross-reference original texts. Madigan and Osiek assemble relevant material from both Western and Eastern Christendom.
