Why do most new businesses fail, yet a few entrepreneurs have a habit of winning over and over again? The shocking discovery of years of research and trial is that most startups fail by doing the "right things," but doing them out of order. In other words, human nature combined with our entrepreneurial drive puts us on autopilot to become part of the 70% to 90% of ventures that fail. From Thomas Edison to Steve Jobs, the Nail It Then Scale It method is based on pattern recognition of the timeless principles and key practices used by successful

entrepreneurs to repeatedly innovate.

This publication is the latest report from AAC&U's Liberal Education and America's Promise (LEAP) initiative; defines a set of educational practices that research has demonstrated have a significant impact on student success. Author George Kuh presents data from the National Survey of Student Engagement about these practices and explains why they benefit all students, but also seem to benefit underserved students even more than their more advantaged peers. The report also presents data that show definitively that underserved students are the least likely students, on average, to have access to these practices.

How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of The Adult Learner has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity

and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of The Adult Learner will provide basic instructor aids including a PowerPoint presentation for each chapter.

Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is

the definitive book in adult learning you should not be without.
